CALCUTTA
SUPERINTENDENT GOVERNMENT PRINTING, INDIA
1910

No. 32-C. of 1910.

From

The Hon'ble Mr. E. G. COLVIN, C.S.I.,
Agent to the Governor-General in Rajputana,

To

S. H. BUTLER, Esq., C.S.I., C.I.E.,
Secretary to the Government of India in the Foreign Department.

Dated Agent to the Governor-General's Camp,
Rajputana, the 4th January 1910.

Sir,

With reference to the correspondence ending with the letter from the Government of India in the Foreign Department No. 1918-G., dated the 25th August 1909, I have the honour to forward the Annual Report on Sanitation, Dispensaries and Jails in Rajputana for the year 1908, and on Vaccination for 1907-1908, prepared by Lieutenant-Colonel H. N. V. Harington, I.M.S., Residency Surgeon and Chief Medical Officer, Rajputana.

2. I regret the delay in the submission of the Report, which has, in part, been caused by the fact that the Report had already been written before the receipt of the Foreign Department letter referred to above and that it had to be revised in view of the orders contained in that letter.

I have the honour to be,
Sir,
Your most obedient Servant,

E. G. COLVIN,
Agent to the Governor-General, Rajputana.

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1908.

AND ON

VACCINATION FOR THE YEAR 1908-1909.

SECTION I.—SANITATION AND VACCINATION.

METEOROLOGY AND ITS RELATION TO FOOD SUPPLY.

Rainfall in Ajmer.

During the year under report 36·22 inches of rain were registered in Ajmer against 13·98 in the previous year, a rainfall of 20·73 inches above the average of previous six years. It was an unusually heavy fall and provided sufficient water in all the tanks and wells throughout the district.

Rainfall in Native States.

2. The rainfall recorded in Rajputana generally was unusually heavy and was practically continuous from the beginning of July to the beginning of September. All tanks almost throughout the Province filled rapidly, but unfortunately many of the bunds were carried away, however on the whole there was more than a sufficiency of water-supply and the ground water level in the wells rose considerably, nearly to the old normal level of 18 years ago. In Bikaner however, the rainfall was less than the previous year. The Kharif crops were mostly good and grass has been fairly abundant. The Rabi crops are very statisfactory.

3. A statement is appended showing the average annual rainfall in each state.

VITAL STATISTICS, BIRTHS AND DEATHS.

Births in Ajmer-Merwara.

4. According to the birth return there were 20,261 births registered in Ajmer-Merwara in 1908, against 14,881 in 1907, an increase of 5,380 which may be attributed partly to improved registration and partly to a more prosperous year and the recovery of the population from previous years of more or less scarcity. Of the total births registered 10,823 were males and 9,438 females; the birth-rate was 42·48 per mille of population against 31·20 per mille in the previous year. The percentage of male to female births was 114·67 against 118·68 in 1907. The birth-rate exceeded the death-rate in 14 out of 23 circles of registration against 13 in 1907, and the total birth-rate was in excess over deaths by 2·45 per mille as compared with 1·57 in the previous year.

Deaths in Ajmer-Merwara.

5. During the year there were 19,093 deaths registered in this division against 14,130 in 1907, an increase of 4,963 which is mainly due to fever after the heavy rains, which was of a peculiarly severe type and very general. This gives a death-rate of 40·03 per mille of population against 29·63 in 1907.

6. The mortality from small-pox was 863 against 497 in 1907, an increase of 366. The disease commenced earlier than usual, in fact in January no less than 216 deaths were reported, and was somewhat more persistent.

7. The mortality from bowel diseases was 727 against 494 in the previous year, an increase of 233 for which the heavy rainfall may also be held responsible. Of these deaths 578 occurred in Ajmer Town and suburbs.

8. The deaths exceeded the births in 9 circles against 8 in 1907.

TABLE I.—*Births and Deaths in Native States.*

NAME.	Population according to Census of 1901.	BIRTHS.				DEATHS.										
		Male.	Female.	Total.	Ratio per 1,000 of population.	Cholera.	Small-pox.	Plague.	Fevers.	Dysentery and diarrhœa.	Respiratory diseases.	Injuries.	Snake bite.	All others.	Total.	Ratio per 1,000 of population.

NOTE.—The information required for this table cannot be obtained in full from Jaisalmer. The total, therefore, of column 16 does not agree with totals of nine preceding columns.

9. Registration has been attempted in 20 Native States as in the previous year and endeavours are being made by the States to improve the agencies for collecting these.

TABLE II.—*Number of Cholera Cases and deaths reported in Rajputana during the year 1908.*

Name.		MAY.		JUNE.		JULY.		AUGUST.		SEPTEMBER.		OCTOBER.		NOVEMBER.		TOTAL.		Percentage of deaths to cases.
		Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.

	TOTAL	52	34	211	128	84	40	535	315	211	136	118	67	19	17	1,230	737	59·92

10. There were no cases of cholera reported in Ajmer-Merwara during the year under report.

Ajmer-Merwara.

11. During the year, 1,230 cases of cholera and 737 deaths from the disease were reported from the Native States of Rajputana against 143 cases and 63 deaths in 1907.

Native States.

12. Cholera broke out in Bharatpur and Jaipur about the same time in May and extended to Karauli, Alwar, Dholpur, Marwar and Kotah and disappeared from the province before the end of November. Importation, infection and the use of indifferent grain foods were reported as the chief causes of cholera in Native States.

13. Alwar, Bharatpur, Jaipur and Dholpur suffered most but the disease was not of a virulent type anywhere. One imported fatal case only of cholera was reported at the town of Kharari in Sirohi State during November 1908.

14. In Alwar one fatal case occurred in the Imperial Service Lancer lines in August and another was reported in the jail.

15. One case occurred in the Dholpur Jail which recovered.

16. The usual precautionary and preventive measures were taken.

17. As the cholera outbreak in Rajputana was comparatively slight, no map has been attached to the report.

SANITATION.

18. *Ajmer.*—Both the Foy Sagar and the Anna Sagar filled to overflowing during the year, the former supplies the drinking water of the city and the latter the water for gardens and other purposes.

19. The Commissioner, Ajmer-Merwara, reports that during the year a scheme for the improvement of the water-supply in the city of Ajmer was submitted for sanction. It is estimated to cost Rs. 10,50,000. The orders of the Government of India are awaited.

20. A scheme for improving the Ajmer conservancy system has also been prepared and submitted for sanction; the present trenching ground for night soil is insufficient and too near the city and the stench when the wind

blows over it, is intolerable. Some larger and more up-to-date methods of disposal are urgently required. Application for a loan of Rs. 50,000 for carrying out this scheme has been submitted to Government and it is hoped will be sanctioned early.

Village sanitation, Ajmer-Merwara.

21. Rules for the improvement of village sanitation were restricted to the same villages as last year.

22. On the whole the rules have worked satisfactorily in all the villages except Junia (an Istamrari-village) and Berar.

23. With a view to enforce the rules more effectively, forms of inspection reports were introduced in September 1908 and it is hoped that a marked improvement will result therefrom.

24. The covered drains in the bazaars and principal streets in the city are still in the same insanitary condition as there are insufficient funds to meet the necessary outlay required for any permanent improvement at present.

25. The oldfashioned masonry built public latrines and urinals in the city are gradually being replaced by galvanised iron ones, which admit of greater cleanliness.

26. The sanitary tramway has worked satisfactorily on the whole during the year.

27. *Beawar City.*—The Municipal Committee continue to supervise sanitation in Beawar.

Native States.

28. *Jaipur.*—The light railway continues to perform valuable work for all conservancy purposes. Rubbish and city sweepings were burnt in furnaces in the city to save the expenses of carriage.

29. Jaipur has an excellent drinking water supply obtained from a series of wells in a river bed and pumped through pipes to most parts of the city.

30. There are also good wells which are generally supervised.

31. *Jodhpur.*—Owing to good rainfall there was no anxiety regarding water supply during the year, the tanks and wells having filled satisfactorily.

32. *Kotah.*—Conservancy matters have been receiving consideration in Kotah and incinerators for the disposal of night soil, etc., are being experimented with, and the one in use is said to be a success.

33. The Kotah Municipality are consulting regarding arrangements for improving the water supply of the city which is chiefly obtained from the river Chambal close to the city, which is necessarily impure, and from certain wells and baories.

34. A scheme for the systematic drainage of the whole of the gardens, the filling up of pits and hollows, and the removal of noxious vegetation is under the consideration of the State Council.

35. The Agency Surgeon, Kotah, states that a circular on sanitation for the guidance of hospital assistants and through them of the local authorities, has been issued, and proposals regarding the adoption of certain general sanitary measures in the districts have been made to the State authorities.

36. *Alwar.*—The sum of rupees nine hundred and thirty-nine and annas eleven was expended in improving and constructing city wells and general drinking water supply.

37. Sanitation is in charge of the Municipality.

38. In most of the Native States, sanitation and registration of vital statistics are entirely in the hands of Durbar officials; where there is a municipality, the Agency Surgeon gives any advice and help when asked to do so.

VACCINATION.

Statement I.

39. In Ajmer-Merwara the number of primary vaccination during 1908-1909 was 12,497 against 13,880 in 1907-1908 and re-vaccination 304 against 695 in the previous season. This decrease is mainly due to the prevalence of malarial fevers after the excessive rains.

40. Of the successful primary vaccinations, 10,092 were performed on infants of one year of age and under, and 2,090 on children over one and under six years.

41. The number of vaccinators was 15, the same as in the previous year with one Native Superintendent. Each vaccinator operated on an average of 853 against 972 in 1907-1908 and the cost of each successful case advanced from 41 pies to 46 pies, the reason of this has been mentioned in paragraph 1 under vaccination.

42. The Civil Surgeon, Ajmer, inspected 394 children against 821 in 1907-1908, 391 of whom were found successfully vaccinated, the Superintendent of Vaccination at Nasirabad inspected 603 children against 913 in the previous year and the Native Superintendent inspected 266 villages and saw 6,144 vaccinations against 6,977 in 1907-1908.

43. The vaccination returns from the Native States also show a falling-off in numbers during the last season which is attributed to the prevalence of malaria after the rains and in a lesser degree to plague. Even the vaccinators themselves suffered from fever and were frequently unfit for work. The average total number of primary successful vaccinations in Native States was 257,998 against 273,848 in 1907-1908. Re-vaccination fell from 590 in 1907-1908 to 311 in 1908-1909, 86·82 per cent. of these were successful. This percentage is worked out as in previous years. In future it will be calculated in accordance with instructions contained in letter No. 169—176, dated 29th January 1909, from the Government of India, Home Department.

44. There were 162 vaccinators employed against 164 in the previous year, 1 less in Jaipur, Marwar, and Jaisalmer, respectively, and 1 additional vaccinator in Bikaner and Banswara. No vaccinator was employed in Deoli cantonment during the season, as vaccinations were performed entirely by the Hospital Assistant attached to the Agency Hospital, Deoli.

45. In Marwar and Sirohi vaccination in cities where there is a dispensary is carried out by the Hospital Assistant in charge and district vaccinations by the general vaccination staff.

46. The vaccination scheme which was adopted in Jaipur State in 1907 worked satisfactorily during the year under report.

Jaipur State.

47. The prevalence of malarial fever after the rains in most of the States in Rajputana during the commencement of the season had an appreciable effect on vaccination work.

STATEMENT II.

48. The expenditure on vaccination in Native States was Rs. 28,946-12-7 as compared with Rs. 27,899-9-8 in 1907-1908, the increase in cost being due chiefly to increased pay and travelling allowances to vaccinators. The average cost of each successful vaccination in different States varied from 10 pies in Kotah to 116 pies in Jaisalmer. The high cost of vaccination in Jaisalmer is due to a small population living in scattered villages in a large area.

49. The following table shows the number of towns and villages inspected and successful vaccinations seen by Agency and Residency Surgeons in Native States:—

Designation.	Number of towns and villages inspected.	Number of successful vaccination cases seen.
Residency Surgeon, Jaipur	469	9,632
Agency Surgeon, Kotah and Jhalawar	811	6,497
Agency Surgeon, Alwar	359	3,804
Residency Surgeon, Mewar	115	3,682
Civil Surgeon, Bikaner	40	3,231
Residency Surgeon, Western Rajputana States	108	2,033
Agency Surgeon, Eastern Rajputana States	16	1,477
Agency Surgeon, Harauti and Tonk	4	370
Agency Surgeon, Dungarpur State	3	88

50. No inspection of vaccination was done by the Agency Surgeon, Eastern Rajputana States, owing to the illness at Ajmer of His Highness the Maharaja of Bhâratpur, which necessitated his absence for about two months, and subsequently his leaving on deputation with the Chief for Europe, and his successor not having arrived till after the season was over. The Assistant Surgeon at Bharatpur who held charge of the Agency Surgeon's current duties inspected vaccination in Bharatpur and Karauli.

51. The Residency Surgeon and Chief Medical Officer in Rajputana in his winter tour of inspection examined 3,267 vaccinated children. The majority of marks inspected were of good quality.

52. Lymph is generally maintained throughout the year in most of the important States by arm to arm vaccination, but in Ajmer, Bikaner, Tonk, Shahpura, Kotah and Jhalawar, glycerinated vaccine lymph was obtained during the year under report from Government Lymph Depôts at Lahore and Patwa Dangar.

53. Buffalo lymph is also used in many States with good results.

SECTION II.—DISPENSARIES.

STATEMENT A.

Number of Dispensaries.

54. The year opened with 170 hospitals and dispensaries in Rajputana and closed with 172, an increase of 2 which is due to the conversion of the Mewar Bhil Corps from a regiment of the Indian Army into a Military Police Battalion under Foreign, the Military Hospital at Kherwara and detachment hospital at Kotra of this Corps were consequently transferred to the Civil Department under the control of the Local Administration.

55. The dispensaries are classified as under:—

I. State Public	9
II. State Special	12
V. Private non-aided (*i. e.*) Native States . . .	151

Improvements and Additions to Hospitals and dispensaries.

56. *Alwar.*—The new Alexandra Hospital at Alwar is progressing towards completion and it is understood that it will be opened by His Excellency the Viceroy in the autumn.

57. *Kotah.*—The new dispensary building at Bakani has been commenced and will be completed shortly. The Agency Surgeon writes that the State authorities propose to build one dispensary each year, so that it is expected that the remaining 4 dispensaries which are still accommodated in private houses, will be completed within five years.

58. *Jhalawar.*—During the year arrangements have been made for the reception of in-patients in the dispensary at Patan City.

59. *Bharatpur.*—A new ward for the treatment of the Police Department was completed during the year. New wards in place of one or two dilapidated and insanitary buildings in the Victoria Hospital compound are to be taken in hand shortly, and a special out-patient department erected for women in connection with the female portion of the hospital. The old District Dispensary at Weir was replaced by a new one.

60. *Dungarpur.*—Quarters for the dispensary servants and a well are under construction.

STATEMENT B.

Medical Relief.

61. One million, five hundred and sixty-two thousand and three hundred and nineteen patients of all classes were treated against 1,292,254 in 1907, an increase of 270,065 in the number treated in the hospitals and dispensaries as shown in the regular standard Statements B, C and F. This increase is attributed chiefly to the severe outbreak of malarial fever caused by the excessive rainfall in most of the States of Rajputana.

62. Of the total number of patients treated, 18,485 were indoor, and 1,543,834 out-door, against 16,253 and 1,276,001, respectively, in the previous year. Although the deaths increased from 687 in 1907 to 758 in 1908, the ratio per cent. of mortality of total treated fell from 4·23 to 4·10 in 1908.

STATEMENT C.

63. Shows the diseases for which patients were treated in hospitals and dispensaries in Rajputana. The percentage of cases treated under each chief cause during the years 1907 and 1908 is shown below :—

Diseases.	Percentage during 1907.	Percentage during 1908.
(*a*) Malarial fever	17·65	27·13
(*b*) Syphilis	1·71	1·45
(*c*) Rheumatic affection	4·01	3·32
(*d*) Diseases of the eye	13·16	11·92
(*e*) Lungs and Respiratory diseases	7·77	5·67
(*f*) Dysentery and Diarrhœa	3·53	3·51
(*g*) Ulcers	9·64	8·32
(*h*) Skin diseases	10·62	9·60
(*i*) Injuries	2·41	1·95

64. During the year, 2,065 patients were treated for tubercular diseases throughout the Province against 1,842 in 1907 and 1,755 in 1906, chiefly in Bikaner, Marwar, Alwar and Mewar where the attendance under this head was 381, 231, 208 and 181 against 213, 197, 187 and 79, respectively, in the previous year.

LEPROSY.

65. There were 431 patients treated for leprosy in Rajputana hospitals and dispensaries in 1908 against 398 in 1907 and 342 in 1906. No special methods of treatment have been adopted and "Nastine" has not been tried. It is very difficult to keep lepers under treatment for any length of time in the Native States, although attempts are made in some States to encourage them to occupy selected areas and be under supervision.

SNAKE POISONING.

66. Calmette's Anti-venine is kept in stock for the treatment of snake bite when opportunity offers but it is little used. Lauder Brunton's lancets with permanganate of potash have been distributed throughout most of the States.

PLAGUE.

67. During the year from 1st April 1908 to 31st March 1909, 5,619 cases of plague, and 4,944 deaths were reported and 200 towns and villages were infected in Rajputana including Ajmer-Merwara as compared with 13,717 cases and 9,930 deaths and 354 infected towns and villages in 1907-1908. This decrease in plague in the Province is very marked, as it is throughout India, but as far as Rajputana is concerned it is impossible to attribute this decrease to prophylactic measures, as little beyond supervision and surveillance is done in most States, but villagers are learning the advantage of prompt evacuation of their houses at the commencement of an outbreak. The percentage of total plague deaths to population was 0·73, *vide* table attached which shows the severity of the epidemic in Rajputana since 1896.

68. *Ajmer-Merwara.*—One hundred and seventy-one cases from plague with 109 deaths were reported in the Ajmer District in 1908-1909 against 135 cases with 57 deaths in 1907-1908. Merwara District was free from the disease throughout the year.

69. Practically there was no plague in the Ajmer District from 1st July 1908 to 1st January 1909, and only 9 imported cases were reported at the Ajmer railway station during September, October and November 1908, of which 7 proved fatal. In February 1909 it appeared in the village of Gangwana, 7 miles north of Ajmer, on the Jaipur Road and at Chatri to a greater degree, 118 cases and 80 deaths were reported as per detail below from 11th February to 18th March 1909 :—

	Cases.	Deaths.
Gangwana	25	16
Chatri	93	64

70. Four hundred and eleven persons were inoculated in Ajmer District during the year. One man was taken ill with plague on the night of the inoculation and subsequently died. He was probably infected previous to inoculation.

71. In the Ajmer District, 9 towns and villages were infected with plague against 8 towns and villages in 1907-1908.

72. The question of maintaining the railway plague inspection at the Ajmer railway station has been raised by the Municipality on the grounds, that now the inconvenience to passengers and the public is greater than the value of the inspection.

73. The matter will probably be settled shortly. It is undoubted however that this inspection has been of the greatest utility in protecting not only the City of Ajmer but also the large railway workshop community from many outbreaks of plague, and whether abolishing the inspection will affect the health of these centres the result only can show; a severe outbreak of plague amongst the railway employés would practically close the line for general traffic, Ajmer being the headquarters of the Rajputana-Malwa Railway with a railway population of about 10,000.

74. There were 5,448 cases and 4,835 deaths reported from plague in Native States of Rajputana, against 13,582 cases and 9,873 deaths in 1907-1908, of which 3,823 cases and 3,612 deaths occurred in Jaipur State and the remaining 1,625 cases and 1,223 deaths in 8 other States.

Native States.

75. Of the total cases and deaths in Native States, 30 cases and 24 deaths were imported, 5,413 cases and 4,808 deaths were indigenous, and 5 cases and 3 deaths were detected at the Railway Inspecting Station at Abu Road.

76. Only 191 towns and villages were infected from the disease in Native States against 346 towns and villages in the previous year. In Jaipur the percentage of total plague deaths to population was 0·82 against 0·68 in 1907-1908.

77. Plague continued to exist in Native States till the end of May 1908, after which the States were free for six months with the exception of Jaipur, in which State plague prevailed in epidemic form during the year under report from 1st April to 4th June 1908, and again from September 1908 to 31st March 1909, with a total of 3,823 cases and 3,612 deaths. The mortality in that State was highest in the month of March 1909, *viz.*, 956 seizures and 884 deaths. In Alwar 664 attacks and 483 deaths, in Bharatpur 486 cases and 445 deaths, and in Mewar 339 seizures and 188 deaths, respectively, were reported. One imported fatal case only was reported in Bikaner State.

78. It is satisfactory to note that villagers are beginning to thoroughly understand the value of evacuation of houses; they also allow of disinfection when plague has broken out, but precautionary measures in the way of inoculation, rat-extermination, etc., are practically barred, the former because they are afraid of it and do not understand its utility, and the latter on account of a large and influential section of the community objecting to it on religious grounds.

79. Durbars as a rule do not object to any of these measures. In a few of the States a certain number of persons have come forward for inoculation and doubtless more would do so if the outbreak of plague were very severe.

80. The only inoculations in Native States were performed in Jaipur where 75 persons were inoculated in the city; of these 53 were done among the men of the Jaipur Transport Corps and the rest among the city population and Residency staff. The Residency Surgeon, Jaipur, reports that no injurious effect was noticed in any case.

81. A plague map showing the districts where outbreaks occurred, the date of first and last cases and the death-rate per 10,000 of population is attached.

CANCER.

82. Reports on cancer investigation have been necessarily incomplete owing to local difficulties in research, and no remarks of any special value can be deduced from them.

STATEMENT F.

83. Shows the classes and sexes of both in-door and out-door patients treated in the dispensaries of Ajmer-Merwara and of Native States of Rajputana. This calls for no comment as it is merely introduced for statistical purposes.

STATEMENT G.

Operations.

84. During the year under report a total number of 65,204 operations were performed on 64,815 persons in Ajmer-Merwara and in Native States against 66,551 operations done on 65,169 persons in the previous year; this decrease is due to the fact that certain minor surgical applications have been expunged from the list of "Minor Operations." Of the persons operated on 64,317 or 98·90 per cent. were "cured" 292 or ·45 per cent. were "relieved", 151 or ·23 per cent. were "discharged otherwise" and 79 or ·12 per cent. "died" while 195 or ·30 per cent. "remained under treatment" on 31st December 1908.

85. Of the operations performed, 1,277 were extraction of the lens for cataract of which 1,139 or 89·19 per cent. proved successful, 55 lithotomies, 143 litholapaxies, and 161 amputations against 1,078 extractions of the lens for cataract, 33 lithotomies, 132 litholapaxies and 185 amputations in 1907.

86. The general advance is matter for congratulation. It is due in large measure not only to the increasing confidence of the people and to the extended scope, which medical officers enjoy under modern surgical procedure, but also to the stimulus which has been given to operative work by improvement to operating rooms and surgical equipment during the past few years.

STATEMENT H.

87. Shows the income and expenditure of Government dispensaries and hospitals and the expenditure only on those in Native States.

88. The total income of hospitals and dispensaries in Ajmer-Merwara was Rs. 18,580 in 1908 as compared with Rs. 20,063 in 1907, a decrease of Rs. 1,483 is due to the fact that no annual contributions were paid by the Raja of Pisangan, the Thakur of Deolia and from Local Fund during the year under report. It is satisfactory to note that the subscriptions from Native gentlemen in Merwara dispensaries increased from Rs. 737 to Rs. 1,036. The value of the invested capital of the dispensaries in this division remained the same as in 1907.

89. In Ajmer-Merwara the total expenditure fell from Rs. 16,139 in 1907 to Rs. 15,994 in 1908, which shows a marked decrease in expenditure under head "Buildings and Repairs" as compared with the previous year, but the expenditure under heads "Medicines" and "Dieting" rose from Rs 2,919 and Rs. 1,532 in 1907 to Rs. 3,690 and Rs. 2,067, respectively, in 1908 owing to the prevalence of malarial fever after the rains when a large supply of quinine was distributed freely among the villagers and to the increased price of food.

90. There is a considerable increase in total expenditure under all heads in the Political Agency and Salt dispensaries, which is attributed to the fact that the Mewar Bhil Corps regimental hospitals at Kotra and Kherwara were transferred from the Military Department to Civil under the Foreign Department and the Honourable the Agent to the Governor-General, Rajputana, from 1st April 1908, and are shown under "Agency Hospitals" in annual standard statements and partly to the increase of pay of Military Assistant Surgeon Dyer, in charge, Salt Dispensaries, Sambhar.

91. The total expenditure on hospitals and dispensaries in Native States of Rajputana rose from Rs. 332,860 in 1907 to Rs. 3,56,678 in 1908, which is due to increase under all heads except under column "Nurses".

Native States.

92. Of the total cost on hospitals and dispensaries in these States, Rs. 68,056 were expended in Jaipur, Rs. 48,539 in Marwar, Rs. 40,856 in Bikaner, Rs. 36,991 in Bharatpur, Rs. 36,040 in Kotah, Rs. 34,032 in Alwar, Rs. 32,688 in Mewar, Rs. 8,530 in Dholpur, Rs. 8,394 in Tonk, Rs. 7,855 in Jhalawar, Rs. 4,634 in Karauli, Rs. 4,257 in Bundi, Rs. 3,232 in Kishangarh, Rs. 3,178 in Banswara,

Rs. 2,995 in Dungarpur, Rs. 2,608 in Jaisalmer, Rs. 2,542 in Sirohi, Rs. 1,974 in Pertabgarh, Rs. 1,529 in Shahpura, and Rs. 704 in Kushalgarh.

93. The average cost of each case treated in Ajmer-Merwara and in the Native States hospitals and dispensaries was 35 pies and 46 pies respectively against 41 pies and 54 pies in 1907.

94. A scheme for improving the position and pay of compounders and dressers in Ajmer-Merwara and other Government medical institutions is still under consideration.

Mission Hospitals.

95. During the year under report the number of Mission hospitals in Rajputana was the same as in 1907, *viz.*, six.

96. The following table shows the total number of in and out-door patients treated and operations performed in Mission hospitals during the year.

Name of Hospital.	Out-door patients		In-patients.	Operations.	Remarks.
	Old.	New.			
Ajmer (Male) .	79,926	18,950	200	1,853	1,982 patients were visited at their homes.
Ajmer (Female) .	12,840	5,626	196	418	
Nasirabad . .	17,724	9,154	240	624	
Ashapura . .	8,041	2,741	230	56	
Udaipur . . .	35,211	15,408	292	1,218	
Jodhpur . .	47,833	8,803	122	1,006	1,029 patients were visited at their homes.
Total .	201,575	60,682	1,280	5,175	

97. Medical statistics of these hospitals are for the Mission financial year from 1st October 1907 to 30th September 1908.

Railway Hospitals.

98. There were 32,417 patients treated and 665 operations performed during the year under report in 6 Railway dispensaries on the Rajputana Malwa Railway within the limits of Rajputana *viz.*, one at Abu Road, one at Sojat Road, two at Ajmer, one at Phulera and one at Bandikui as per detail below :—

Station.	Number of patients treated.	Operations performed.
Abu Road	3,183	157
Sojat Road	2,305	112
Ajmer	14,549	187
Phulera	6,981	127
Bandikui	5,399	82
Total .	32,417	665

99. One thousand one hundred and ninety-eight patients were visited at their homes at Ajmer by Railway medical men.

Inspection.

100. The Residency Surgeon and Chief Medical Officer in Rajputana inspected the hospitals and dispensaries during the past season in cities noted below :—

Bharatpur 2, Ajmer 1, Udaipur 3, Jaipur 5, Bikaner 3, Jodhpur 5, Alwar 2, Tonk 2, Deoli 1, Shahpura 1, Bundi 1, Kotah 3, Jhalrapatan 2, Kishangarh 1, Sheogange 1, Sirohi 1, and Abu Road 1, exclusive of Jail dispensaries and Imperial Service regimental hospitals.

JAILS.

101. *Ajmer.*—Lieutenant-Colonel P. J. Lumsden, I.M.S., held charge of the office of the Superintendent, Central Jail, Ajmer, from 1st January to 23rd December 1908, on which date Lieutenant-Colonel H. R. Woolbert, I.M.S., assumed charge till the end of the year under report.

102. The daily average number of prisoners in the Ajmer Jail fell from 386·90 in 1907 to 358·54 in 1908, the total number of cases admitted into hospital fell from 167 to 123, the daily average sick from 6·06 to 5·08, the mortality from 6 to 5 and the ratio per mille of average strength from 15·51 to 13·95, which may be attributed to improved jail management and in a large measure to the fact that there was ample accommodation for the diminished number of prisoners. The 5 deaths which occurred among the convicts were due to dysentery complicated with liver abscess, to volvulus of intestine, to epilepsy due to brain tumour, to pleurisy and to inflammation of the brain membranes. No civil or under-trial prisoners died during the year.

103. The review by the Commissioner, Ajmer-Merwara on the strength, classification, health, employment and conduct of prisoners, nature of sentences, jail manufactures and expenditure of the Ajmer Jail is given as Appendix A of the report together with statements.

104. Twenty-six prisoners were released on 2nd November 1908, in honour of His Majesty the King Emperor's proclamation.

105. The daily average number of prisoners in the Jail in the Native States fell from 4,393·82 in 1907 to 4,289·90 in 1908, the mortality from 102 to 95 and the ratio of deaths per mille of average strength from 23·21 to 22·15 but the admission to hospitals rose from 2,085 in 1907 to 2,484 and the daily average number of sick from 90·05 to 99·87 owing to prevalence of malarial fever after the rains.

Native States.

106. There was no cholera or other epidemic disease in any of the jails in Rajputana with the exception of 2 cases of cholera; of these one occurred in the Alwar Jail with death and another in the Dholpur Jail which recovered.

107. There were no deaths in the jails at Jhalrapatan, Jaisalmer, Bundi and Dungarpur.

108. *Jaipur.*—There was no overcrowding in either the Central or District Jail at Jaipur. There is steady improvement in the health of prisoners, and the various departments and factories are thoroughly supervised under the management of Rai Shahib Nourang Rai, the Superintendent.

109. Repairs and improvements amounting to Rs. 3,267-13-2 were carried out at the Central and District Jails.

110. *Jodhpur.*—The health of the jail has been good throughout the year as there was no overcrowding in the jail and there have been no cases of scurvy. The daily average number of prisoners in the jail fell from 725·96 in 1907 to 630·25 and the total number of cases admitted into the hospital fell from 252 in 1907 to 250. The mortality was 8 in 1908, the same as in the previous year.

111. All old latrines have been demolished and replaced by new ones. New pattern bathing platforms are under construction and some have already been completed. The old night latrines attached to the wards have been replaced by improved ones.

112. Some alterations to the present mill house and factories in the old jail are under contemplation. A segregation ward for infectious diseases is also under consideration.

113. Mr. Mc.Grath, the Superintendent has done excellent work during the last 3 years in reorganizing and improving the various departments and in general jail management.

114. *Alwar.*—There has been a good deal of pneumonia in this jail during the year. Out of 33 in-patients treated from this disease 5 died.

115. Scurvy appeared in the jail, there being 24 in-patients and 77 out-patients for this disease all the cases recovered rapidly under treatment.

116. *Bharatpur.*—The jail is at present undergoing considerable enlargement. New barracks, hospital and factory sheds are under course of construction and when complete should prevent the present condition of overcrowding.

The daily average number of sick was 3·90 and the ratio of deaths per mille of average strength was 34·33 against 5·71 and 51·50 respectively in the previous year. The number of deaths was 9 against 13 in 1907.

117. *Dholpur.*—The daily average number of sick rose from 2·10 in 1907 to 2·38 and ratio of deaths per mille of average strength from 22·73 in 1907 to 31·39 in 1908.

118. *Udaipur.*—The mortality rose from 20 in 1907 to 21 and the death-rate from 41·74 to 42·24 per mille of average strength; out of 21 deaths in the Central Jail, 6 were among old prisoners and 3 among those transferred from the Morella Hawalat to the jail in a debilitated condition. The causes of mortality were 7 from pneumonia, 4 dysentery, 3 failure of heart, 1 cerebral hemorrhage due to syphilis, 1 cerebral thromboses, 1 scurvy, 1 heart disease, 1 phthisis, 1 chronic curhoses of the liver and 1 diarrhœa.

119. *Pertabgarh.*—A new jail is in course of construction.

120. The Residency Surgeon and Chief Medical Officer in Rajputana inspected the jails at Bharatpur, Ajmer, Udaipur, Jaipur, Bikaner, Jodhpur, Alwar, Tonk, Shahpura, Bundi, Kotah, Jhalawar, Kishangarh and Sirohi.

121. The jails at Bikaner and Udaipur are under the supervision of Agency Surgeons; those of Jaipur, Jodhpur, Alwar and Kotah are under the direct medical supervision of Agency Surgeons and those of Kishangarh, Sirohi, Jaisalmer, Bharatpur, Dholpur, Karauli, Tonk, Shahpura, Bundi, Jhalawar, Banswara, Partabgarh and Dungarpur are run on more or less practical native lines.

Qualified Medical Staff.

Commissioned Medical Officers.

122. There were 11 Commissioned Medical Officers' appointments in Rajputana in 1908, against 10 in the previous year, an addition of one Officer on account of conversion of Mewar Bhil Corps at Kherwara into Military Police Battalion from 1st April 1908 and transferred from the Military Department to Civil under the Foreign Department with the formation of a new Agency Surgeoncy.

123. Lieutenant-Colonel W. H. B. Robinson, I.M.S., Civil Surgeon, Bikaner, held current duties of the office of the Residency Surgeon and Chief Medical Officer, Rajputana, in addition to his own during the absence of Lieutenant-Colonel H. N. V. Harington, I.M.S., to Europe on combined leave for six, months from 25th April to 24th October 1908.

124. Major J. Fisher, I.M.S., Agency Surgeon, Eastern Rajputana States was sent on deputation to Europe with His Highness the Maharaja of Bharatpur from 24th December 1908.

125. Major P. J. Lumsden, I.M.S., was transferred from Civil Surgeon, Ajmer, to be Residency Surgeon, Hyderabad, on 23rd December 1908.

Additional charges.

126. The Civil Surgeon, Ajmer, holds collateral charge of the 44th Merwara Infantry and the Agency Surgeon, Haraoti and Tonk, is similarly in additional charge of the 42nd Deoli Regiment.

127. *Warrant Officer.*—Honorary Captain W. Thompson, I.S.M.D. (retired) was on plague duty at Ajmer and Doctor D. G. Newland at Abu Road during the year.

128. *Civil Assistant Surgeons.*—There were two Government Assistant Surgeons employed in the Ajmer-Merwara District, *viz.*, 1 at Ajmer and 1 at Beawar and 9 in Native States of whom 3 Government pensionable Assistant Surgeons, 1 at Jaipur, 1 at Khetri and 1 at Bharatpur and 6 Assistant Surgeons on Rajputana unpensionable graded list, 1 at Jodhpur, 1 at Kishangarh, 1 at Dholpur, 1 at Alwar, 1 at Tonk, and 1 at Jhalrapatan. There was also a locally entertained Assistant Surgeon at Bundi.

129. *Military Assistant Surgeon.*—Assistant-Surgeon A. W. Dyer, I.S.M.D., was in charge of the Northern India Salt Revenue Dispensary at Sambhar during the year.

Civil Hospital Assistants.

130. Owing to the conversion of the Mewar Bhil Corps at Kherwara to a Military Police Battalion from 1st April 1908, the number of Hospital Assistants permanently employed by the British Government rose from 21 in 1907 to 23 in 1908 as 2 Hospital Assistants were provided to the Mewar Bhil Corps

Hospitals at Kherwara in place of Military Hospital Assistants transferred. There are also 174 Government Hospital Assistants transferred for service in Native States at the close of the year. There were only 5 local class Native Doctors and 3 locally entertained Native Doctors in service under this department in Native States; 2 of the former and 1 of the latter have now been replaced by Government Hospital Assistants.

131. Owing to the raising of the educational standard of candidates for the Medical Hospital Assistants Classes, there has been some difficulty in maintaining the standard strength of the department and it is now 7 below, there being a scarcity of suitable qualified Hospital Assistants. Still Rajputana has not been so shorthanded as other Provinces and the Chief Medical Officer hopes, as the standard of education in Native States is being gradually raised, that more Rajputana men will take service; the majority of the pupils at the Agra Medical School are Rajputana-born and a fair number are still coming forward.

132. *Military Hospital Assistants.*—The following Regiments, Imperial Service Corps, in Rajputana have Military Hospital Assistants attached to them:—

Alwar 1st Lancers . .	2	Fatteh Paltan . . .	2
Bharatpur Transport . .	2	Infantry . . .	2
Bikaner Camel Corps . .	1	Jaipur transport . .	1

133. In the two Jodhpur Imperial Service Regiments medical arrangements are made by the State.

134. *Lady Doctors.*—The following States employ a Lady Doctor as Superintendent of the Zenana hospital—Jodhpur, Alwar, Kotah, Tonk Udaipur, and during the year one has been appointed to the medical charge of the woman's department of the Mayo Hospital, Jaipur.

135. *Female Hospital Assistants.*—Female Hospital Assistants are attached to the women's wards and female hospitals at the following institutions:—

Jodhpur	Jaswant Hospital for women	1
	Hewson Hospital	1
Alwar	Lady Dufferin Hospital	2
Kotah	Victoria Hospital	1
Tonk	Walter Female Hospital	1
Udaipur	Walter Zenana Hospital	1
Bharatpur	Victoria Hospital	1
Jaipur	Mayo Hospital	1
Bikaner	Bhagwan Dass Hospital	1
Karauli	Karauli Female Hospital	1
Beawer	Beawar Dispensary	1

Female Hospital and Dhai Class for women.

136. During the year under report no qualified Female Hospital Assistant was appointed to the medical charge of the Victoria Hospital, Ajmer, for want of funds; but a Lady Doctor superintends the Mission Hospital for women where many patients are relieved.

137. *Beawar.*—Female Hospital Assistant Mrs. J. Martin was in charge of the female ward of the Charitable Dispensary at Beawar throughout the year. There was considerable increase in the number of both in and out-door patients treated and pardahnashin ladies visited at their homes, which is partly attributed to the prevalence of malarial fever after the rains and partly to the popularity of the Female Hospital Assistant.

138. *Native States.*—From the returns received from the Female Hospitals in Native States of Rajputana and the increase in work generally in these hospitals it may be deduced that they are generally obtaining popularity and the confidence of the general public.

139. *Jodhpur.*—Miss Marsh, M. D., was in charge of the Jaswant Hospital for women throughout the year. There were 250 in and 4,713 out-patients treated against 197 in and 3,976 out-patients in the previous year, an increase of 790 in the attendance of both in and out-door patients chiefly owing to malarial fever after the rains.

140. Her Excellency Lady Minto inspected the hospital in the 1st week of November 1908, and expressed her pleasure at its general working and efficiency.

141. In May 1908, Female Hospital Assistant Miss Julia Pratt resigned her post on account of ill health and was succeeded by Mrs. Elias.

142. *Alwar.*—The Dufferin Hospital at Alwar was in charge of Lady Doctor Miss Turkhud, M.B., B.S., throughout the year. There was an increase of 1,789 in the number of both in and out-door patients during the year under report owing to prevalence of malarial fever in an epidemic form; 126 obstetric cases were attended by the hospital staff against 109 in 1907.

143. Eight Dhai pupils were reported as under training at the beginning of the year but it appears that only 3 attended; these were discharged, as they were said to be unfitted for the grant of a certificate though they had been under training for 4 years.

144. *Bharatpur.*—Female Hospital Assistant Bibi Rup Kuar has been in charge of the Female Hospital at Bharatpur throughout the year. There were 402 in and 7,422 out-patients treated against 289 in and 7,651 out-patients in 1907.

145. The Dhai class was kept up, but owing to the prevalence of malaria, attendance was small and irregular and consequently no Dhai was considered fit for examination.

146. *Udaipur.*—Miss MacGlashan has been in charge of the Walter Female Hospital during the year. Some slight improvement is noted in the class of patients attending.

147. A woman who was trained in 1907 has been appointed to act as a female compounder.

148. *Jaipur.*—Female Hospital Assistant Birji Bai was in charge of the Female ward of the Mayo Hospital, Jaipur, till the 1st August 1908, when Miss L. Sykes, M. D., was appointed as Assistant Surgeon on probation.

149. The Dhai class is being worked on the same lines as in previous years.

150. *Kotah.*—Miss J. Newton, L. R. C. P. & S. has been in charge of the Victoria Jubilee Hospital, Kotah, throughout the year. There was a considerable increase in the out-door patients treated in the hospital due to malarial fever after the rains. There were 320 operations performed against 286 in 1907 of which 42 were major against 34 in the previous year.

151. The Dhai class was re-opened on 10th April and closed on 21st October 1908. six pupils attended, 2 left without examination and 4 passed. One was said to be a purdahnashin woman.

152. *Tonk.*—The Lady Doctor Miss K. Reed, L.M.S., in charge of the Walter Female Hospital is on leave to England to qualify for a British medical degree the hospital being left in charge of Hospital Assistant Rosie Joseph.

153. A new operating room has been erected during the year in the hospital compound. The hospital is an excellent one.

154. *Dhai Class, Ajmer.*—Mrs. M. Kane, Lady Superintendent, has been in charge of the Dhai training class, Ajmer, throughout the year. The 5 pupils who were under training at the beginning of the year under report were examined by the Civil Surgeon, Ajmer, on the 18th April 1908, all of them passed and obtained their certificates and the usual honorarium given to successful candidates.

155. Mrs. Kane's training of these Dhais is excellent and practical.

156. The Lady Superintendent reports that out of 29 passed midwives from the opening of the class, *viz.*, 1st April 1903 to 31st December 1908, 17 were practising at the following stations; of the balance there is no trace.

3	Dhai training class, Ajmer.
1	Victoria Hospital, Ajmer.
2	at Beawar.
2	at Kishangarh.
1	Mission Hospital, Jodhpur.
1	Jaswant Hospital for Women, Jodhpur.
2	at Shahpura.
1	at Udaipur.
3	at Sirohi.
1	Adam's Memorial Hospital, Abu.
Total .	17

157. The additional house rented at Rs. 12 per mensem had to be vacated from the 1st October 1908, at the request of the proprietor. The present accommodation is most inadequate, and unsuitable, and the Civil Surgeon, Ajmer, has been asked to try and obtain better and roomier quarters.

Imperial Service Troops.

158. The hospitals of the Native States Imperial Service Troops have been inspected regularly by the Chief Medical Officer in Rajputana. They are all well equipped. These, with the exception of those of the 2 regiments Imperial Service Lancers at Jodhpur, are in medical charge of well-qualified Military Hospital Assistants. Each regiment of the latter is in medical charge of a State-enlisted Assistant Surgeon. The hospital for the 2nd Lancers is still under consideration, the men being treated from an out-patient dispensary in their lines.

159. From a military administrative point of view it would be of advantage if all regiments were supplied with Military Assistant Surgeons or Hospital Assistants with a working knowledge of military service conditions.

Lunatics.

160. *Ajmer.*—There were 2 lunatics in the Central Jail, Ajmer, on 1st January 1908, and 10 were admitted during the year under report, total 12. Of these 2 were discharged as cured, 1 was transferred to the Lunatic Asylum at Lahore, 1 entrusted to the Secretary, Dayanand Orphanage, Ajmer, and 5 were made over to their friends and relatives. Three lunatics remained in the jail on the 31st December 1908.

161. *In Native States.*—One hundred and sixty-one lunatics were under treatment and observation in 1908 of whom 24 were cured, 17 were made over to their friends and relatives, 21 died and 6 were transferred to the Lunatic Asylums at Agra and Lahore. Ninety-three lunatics remained under treatment.

162. There are special lunatic asylums in :—

Jaipur	A very good one.
Alwar	Small.
Jodhpur	
Bikaner	

163. In other Native States lunatics are as far as possible segregated in jails.

APPENDIX A.

REVIEW OF AJMER JAIL REPORT, 1908.

The office of the Superintendent, Central Jail, was held almost throughout the year by Lieutenant-Colonel P. J. Lumsden, I.M.S.; Lieutenant-Colonel H. R. Woolbert, I.M.S., assumed charge on 23rd December 1908.

2. The first statement attached to this report is the General Summary which shows the distribution of prisoners of all classes confined in the jail during the year under review.

Population.

3. At the commencement of the year there were 369 prisoners of all classes. The total number of admissions was 1,023 against 974 in 1907. The number of prisoners discharged was 1,054 as compared with 1,016 in the preceding year. The number in confinement at the end of the year was 337 or 32 less than at the beginning of the year. The daily average jail population for the year was 358·54 as compared with 386·90 in 1907.

Disposal of convicts.

4. Statement No. 1 shows the number of convicts and their disposal during the year. The number of convicts admitted to the jail in 1908 was 526 as compared with 497 during 1907. The table below compares the disposal of convicts with that of the previous year:—

PARTICULARS.	YEARS. 1907.	YEARS. 1908.	REMARKS.
Released on appeal	14	22	
Released on expiry of sentence	393	363	
Released on payment of fine	17	19	
Released under remission rules	131	155*	* Includes 3 Banswara prisoners released on 26th June 1908, the official date for the celebration of the Birthday of His Majesty the King-Emperor of India, and 26 prisoners released on 2nd November in honour of the fiftieth Anniversary of the assumption of the direct administration of India by the Crown.
Transferred to other jails	7	10	
Transferred to Andamans	1	3	
Died in jail	6	5	
TOTAL	569	577	

At the close of the year 311 convicts remained in the jail as against 342 on the last day of the year 1907.

Disposal of under-trial prisoners.

5. The total number of under-trial prisoners was 490, of these 104 were released, 312 were convicted, 49 transferred, and 25 remained in the jail at the close of the year.

Disposal of civil prisoners.

6. There were 13 civil prisoners of whom 12 were discharged and 1 remained under detention at the end of the year.

Classification of convicts.

7. Of 526 convicts admitted during the year, 175 were Mahomedans, 339 Hindus, 11 Native Christians, and 1 Eurasian.

According to age classification 16 were under 16 years of age, 465 between 16 to 40 years, 39 between 40 to 60, and 6 above 60 years of age.

Agriculturists	148
Labourers	168
Shopkeepers and traders	39
Domestic servants	44
Miscellaneous occupations	8
Government servants	63
Without occupation	34
	504

There were 504 male convicts as detailed according to previous occupation on the margin. Most of the prisoners admitted to jail were as usual agriculturists and labourers.

There were 22 female convicts against 34 in the previous year.

Nature of sentences.

8. Of the 526 convicts sentenced to imprisonment during the year, 67 were awarded simple imprisonment and 425 rigorous imprisonment as against 17 and 463 in the preceding year. Solitary confinement was awarded to 25 convicts in addition to rigorous imprisonment, and rigorous imprisonment with whipping was inflicted on 9 convicts.

The number of convicts sentenced to terms of imprisonment, not exceeding one month, was 181; exceeding one month but not exceeding three months, 139; above three months but not exceeding six months, 84; above six months but not exceeding one year, 58; above one year but not exceeding two years, 45; above two years but not exceeding five years, 13; above five years but not exceeding ten years, 6; and above ten years, *nil*.

Previous conviction.

9. The number of previously convicted prisoners admitted during the year was 123 as compared with 94 in 1907. The percentage of habituals to the total number of admissions was 23·38 as compared with 18·91 in the preceding year.

Employment of convicts.

10. The daily average number of convicts sentenced to labour or working days was 294·47 of whom 165·40 were employed on manufactures, 53·21 on prison duty, 19·58 as prison officers, and 10·99 were exempted from labour on account of their health; 5·01 were sick, 35·62 were engaged as prison servants, and 4·66 were employed on gardening.

Conduct of prisoners.

11. The number of jail punishments of all kinds rose from 182 in the preceding year to 201 during the year. Discipline was well maintained. The punishments inflicted are classed as below:—

(i) Solitary confinement	5
(ii) Reduced diet	40
(iii) Corporal punishment	4
(iv) Other punishment	152
TOTAL	201

Escapes.

12. No person escaped from the jail.

Health.

13. The health of the prisoners was very good during the year. The number of admissions to the Jail Hospital fell from 167 in the preceding year to 123 during the year. There were 5 deaths as compared with 6 in the preceding year.

Juvenile offenders.

14. There were 18 juvenile offenders confined in the jail against 31 in the preceding year. Of these, 15 were released on expiration of their sentence during the year and 3 remained in the juvenile ward at the close of the year.

There were 12 prison offences among the boys against 10 in the preceding year.

Jail manufactures.

15. The profit from the jail manufactures amounted to Rs. 3,866-0-3 as against Rs. 3,270-14-4, during the previous year. The average earning per head of prisoners actually employed on manufactures rose from Rs. 16-11-10 in 1907 to Rs. 23-6-0 during the year.

Expenditure.

16. The total expenditure in guarding and maintaining the prisoners fell from Rs. 48,507 in 1907 to Rs. 32,662 in 1908, a decrease of Rs. 15,845. The decrease chiefly occurred under "Public Works Department charges". The sum includes the charges incurred by Magistrates in guarding and maintaining under-trial prisoners and the expenditure incurred by the Public Works Department, Rs. 7,746-6-8 on building and repairs. The average cost per prisoner during the year was Rs. 91-1-7 against Rs. 125-10-6 in the preceding year, and Rs. 87-13-10 in 1906.

Net cost to Government.

17. Including the cost of under-trial prisoners incurred by Magistrates the net cost of the jail to Government was Rs. 30,242 as compared with Rs. 45,958 in the preceding year.

General remarks.

18. There was no over-crowding in the jail during the year under review. The jail was inspected by the Chief Medical Officer, Rajputana, and the Commissioner, Ajmer-Merwara. It was also inspected by the Inspector-General of Prisons of the United Provinces.

The tread mill was done away with and replaced by 18 hand mills on the recommendation of the Inspector General of Prisons of the United Provinces during the year.

W. STRATTON, *Lieut.-Colonel,*
Commissioner, Ajmer-Merwara.

Total	123,051	336·21	342	526	869	20	...	888	10	3	22	3·3	19	...	...	155	...	...	...	...	5	311

* Of this number 15 boys under 16 years. † Of this number 1 girl under 15 years.

NOTE. 1.—This and the other statements numbered 1 to 7 only convicted prisoners are to be included.
2.—Debtors and others detained for default of Government revenue will appear in No. 8.
3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the month.
4.—The "Total population," column 8, is the sum of columns 6 *plus* 7, and necessarily includes many who are counted more than once.
5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the month, *vide* column 2, and dividing the whole by the number of days in the month.
6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7 B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.
It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.
7.—When the gangs are employed extra-murally under the orders of Government No. 1032—43, dated 28th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

NOTE.—It is of importance that the particulars given in this, and also in No. 3, should not include the same individual more than once, and hence all transfers should be omitted.
The Totals should correspond with the number in column 5, Statement I; "Imprisoned during the month." But they should do so with the "Total" Column 6, for January only, as the number remaining on the last day of the previous year (31st December) is to be included in that month.

STATEMENT No. III.—*Statement showing the convicts admitted into the Jail at Ajmer during the year 1908 and those remaining on the 31st December of that year, according to the nature and length of sentence.*

The Female column should be filled in italics.

Total	336·21	...	56	90	55	...	5	...	40	4	152	201	59·78

The nature of the Criminal offences committed should be noted on the back of this return.
* In contradistinction to offences against prison discipline.

H. R. WOOLBERT, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER JAIL OFFICE;
The 5th March 1909.

STATEMENT No. VIII.—*Statement showing the employment of convicts as Prison Officers in the Central Jail at Ajmer for the year 1908.*

1	2	3	4	5	6	7
SEX.	Average No. of convicts.	Average number employed as Prison officers.	Ratio of column 6 to column 2.	Total number employed as Prison officers.	Number of reductions or other punishments.	REMARKS.
						No.
Male . . .	328·76	19·58	5·96	19	28	Convict Warders . . . 3 Do. Overseers . . 14 Do. Writer . . 1 Do. Mohurrir . . 1
Female . . .	7·45	...	...	...	...	Total . . 19
TOTAL	336·21	19·58(c)	5·82	19(a)	28(b)	

(a) The nature of the offices held by convicts should be given in column of remarks.

(b) Detail of the nature of punishments ordered should be given as directed in paragraph 19 of the Government Review on the Jail Reports for 1884.

(c) Column 3 should tally with column 7B of Return No. XII. Column 5 should show the total number of convicts employed as Warders, etc., and not merely the total sanctioned number of situations.

STATEMENT No. IX.—*Statement showing the Scales of Diet in force in the Ajmer Central Jail during the year 1908.*

1	2	3	4
Diet Scales of Labouring Prisoners.	Diet scale of non-labouring prisoners.	Punishment Diet Scale.	Note of any change effected in diet scales during the year.
Atta of Gram 1/3 „ Barley 2/3 „ Wheat 1/3 } 12 Chittaks daily. Dâl alternately . . 2 Chittaks. Vegetables alternately 8 „ Oil with vegetables 4/25 „ Salt „ „ 1/4 „ „ „ Dâl . . 1/6 „ Cillies with vegetables 2 M. „ Dâl 1 „ Fuel . . . 4 „	Atta 8 Chittaks on Sundays and Mondays and 10 Chittaks on other days. Other articles are same as for labouring prisoners.	Labouring prisoners 8 Chittaks atta, with the usual quantity of salt; the period of this diet is ninety-six consecutive hours.	Prisoners on Mills are given 14 Chittaks of atta instead of 12 Chittaks, *vide* paragraph 7 of letter No. $\frac{14}{418}$ II, dated 20th July 1899, from the First Assistant to the Honourable the Agent to the Governor-General for Rajputana.

NOTE.—A complete statement of all the Diet Scales in use for labouring prisoners according to length of sentence should be given in column 1, with details as to the articles used, and the variations in different days of the week.

H. R. WOOLBERT, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER JAIL OFFICE;
The 5th March 1909.

STATEMENT No. X (FINANCIAL).—*Showing the expenditure in guarding and maintaining the prisoners in the Central Jail at Ajmer during the year 1908, excluding the cost of building new Jails, of Additions, Alterations, or Repairs.*

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1909,

AND ON

VACCINATION FOR THE YEAR 1909-1910.

Published by Authority.

CALCUTTA
SUPERINTENDENT GOVERNMENT PRINTING, INDIA
1910

No. 2211, dated 1st June 1910.

From—The Residency Surgeon and Chief Medical Officer, Rajputana,

To—The First Assistant to the Honourable to the Agent to the Governor-General, Rajputana.

I have the honour to submit the Annual Report on Sanitation, Dispensaries and Jails in Rajputana for the year 1909, and on Vaccination for the official year 1909-1910.

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1909

AND ON

VACCINATION FOR THE YEAR 1909-1910.

SECTION I.—SANITATION AND VACCINATION.

METEOROLOGY AND ITS RELATION TO FOOD SUPPLY.

Rainfal in Ajmer.

During the year under report the rainfall of Ajmer was 30·47 inches against 36·22 inches in 1908, still it was 11·79 inches above the average of the previous six years. It provided sufficient water in all tanks and wells throughout the district, and the ground water level in the wells rose considerably.

Rainfall in Native States.

2. Although the rainfall recorded in most of the Native States has been less than in the previous year, all tanks and wells almost throughout the Province filled, and there was generally a full sufficiency of water supply. In Bikaner however the rainfall was greater than in the preceding year. The Kharif Crops were mostly good and grass has been fairly abundant. The Rabi Crops are very satisfactory.

3. A statement is appended showing the average annual rainfall in each State.

VITAL STATISTICS, BIRTHS AND DEATHS.

Births in Ajmer-Merwara.

4. There were 18,021 births registered in Ajmer-Merwara in 1909 against 20,261 in 1908, a decrease of 2,240, which is due to the fact that owing to prevalence of plague in Ajmer District since August 1909, a large proportion of the inhabitants left their homes for surrounding Native States. Of the total births registered 9,698 were males and 8,323 females, the birth rate was 37·78 per mille of population against 42·48 per mille in the previous year. The percentage of male to female births was 116·52 against 114·67 in 1908. The birth rate exceeded the death rate in 14 out of 23 circles as in the previous year.

Deaths in Ajmer-Merwara.

5. During the year there were 24,292 deaths registered against 19,093 in 1908, an increase of 5,199 which increase is attributed to plague. The death rate per mille of population was 50·94 against 40·03 in the previous year. Plague accounted for 5,176 deaths.

6. The mortality from fever shows an increase of 1,127 as compared with previous year, the figures for 1907 and 1906 being 11,117 and 12,292 respectively; this increase is largely due to malarial fever the result of heavy rainfall; fever was prevalent from August to December.

7. The mortality from small-pox was 16 against 863 in 1908, a decrease of 847. These deaths were reported in Merwara only.

8. The mortality among children under five years of age was 30 per cent. of the total deaths against 51 per cent. in the previous year.

9. Deaths exceeded births by 13·15 per mille of population in 1909, while in 1908 births exceeded deaths by 2·45 per mille.

TABLE I.—*Births and Deaths in Native States.*

NOTE.—The information required for this table cannot be obtained in full from Jaisalmer and Dungarpur. The total therefore of column 16 does not agree with total of 9 preceding columns.

10. Registration has been attempted in 20 Native States as in the previous year and endeavours are said to be made by the States to improve the agencies for collecting Vital Statistics.

TABLE II.—*Number of Cholera cases and deaths reported in Native States of Rajputana during the year 1909.*

CHOLERA.

Ajmer-Merwara.

11. There were no cases of Cholera reported in Ajmer-Merwara during the year under report.

Native States.

12. During the year only 747 cases of Cholera were reported from the Native States of Rajputana of which 403 proved fatal against 1,230 cases and 737 deaths in the previous year.

13. Cholera broke out in Kotah on 9th May at Sangode, being imported by a resident who had visited Ujjain while Cholera was epidemic there. Two hundred and ninety-eight cases and 169 deaths were reported up to 27th June in the State, when it totally ceased. Eighty-five cases and 59 deaths occurred in Kotah City from 20th May to 14th June.

14. Dungarpur City was infected by a party of gold-smiths returning from a local fair; 234 cases occurred of which 86 proved fatal from 7th May to 28th June, when the epidemic ceased.

15. The usual measures for its control and eradication were taken.

16. As the Cholera outbreak in Rajputana was comparatively slight, no map has been attached to the report.

SANITATION.

17. *Ajmer.*—Both the Foy Sagar and the Anasagar filled during the rainy season and contain a sufficient water supply for the city and suburbs as well as for the railway workshops.

18. The Commissioner, Ajmer-Merwara, reports that the scheme for the improvement of the water supply in the City of Ajmer was submitted in 1908 to the Government of India who have, before passing final orders, asked for

certain further information, for the collection of which necessary steps are being taken.

19. The scheme for improving the Ajmer conservancy system also awaits orders of the Government of India.

20. The following are the chief questions in sanitation which are now claiming the attention of the Ajmer Municipal Committee, but the loss of revenue, the result of the plague epidemic, has crippled the financial resources of the Municipality and its ability to effect reforms:—

(1) The construction of an open drain to convey the sewage water from the Tramway Station to the filter beds.

(2) A supply of new conservancy carts of a durable and convenient pattern.

(3) The disposal of the question of the insanitary dwellings which have been allowed to spring up in the south-eastern suburban district.

21. The covered drains in the bazaars and principal streets in the city are still insanitary for want of sufficient funds.

22. The conservancy tramway has worked satisfactorily on the whole during the year.

23. Disposal of refuse and night-soil by incinerators was tried successfully, but there was much opposition and the project has been temporarily abandoned.

24. *Beawar City.*—The Municipal Committee supervise sanitation in Beawar. The arrangements for the disposal of the night-soil, etc., are satisfactory.

Native States.

25. *Jaipur.*—The light railway continues to perform valuable work in connection with general sanitation. Rubbish and city sweepings are burnt locally in incinerators to save the expense of removal.

26. *Jodhpur.*—There has been a good supply of water throughout the year. All tanks and wells in Jodhpur and in the districts are well filled. Conservancy arrangements are in the hands of a Municipal Committee.

27. *Alwar.*—During the year four wells were deepened and cleaned at a total cost of ₹660 by the Municipality who also supervise conservancy arrangements.

28. *Bharatpur.*—A scheme for improving the Bharatpur City conservancy system has been prepared but has not yet been taken in hand. This includes (1) a tramway for removal of night-soil and refuse to trenches, (2) a surface drainage system for the city, (3) the introduction of a complete system of public latrines and removal of contents, (4) the limitation of flooding around the city and cleansing of the city moat.

29. *Dholpur.*—A sanitary Board has been established in Dholpur City during the year.

30. *Kotah.*—It is a matter of regret that the incinerators started for the disposal of night-soil, etc., had to be discontinued for want of sufficient rubbish and city sweepings as fuel. No action has yet been taken on the scheme proposed for the systematic drainage of Kotah public gardens.

31. A scheme for improving sanitation in the districts has been sanctioned provisionally and is being tried in the following towns under the supervision of a local sanitary Committee presided over by the Nazim.—Baran, Sangode, Khanpur, Iklera, Manoher Thana and Bakani.

32. *Mewar.*—In view of the plague epidemic a scheme for the thorough systematic cleansing and disinfection of the City of Udaipur has been submitted to the Darbar. The sanitation of this city is in the hands of the local police.

33. *Karauli.*—The general sanitation of Karauli is well looked after and the city wonderfully clean, though more could be done to clean the surrounding nallas.

34. *Bikaner.*—The sanitation is in the hands of the Municipal Committee.

VACCINATION.

STATEMENT I.

35. The total number of persons vaccinated in Ajmer-Merwara including Nasirabad fell from 12,801 in 1908-09 to 11,960 in the year under report. There was also a decline in the number of successful primary operations, average number of persons vaccinated by each vaccinator and the average number of persons successfully vaccinated per 1,000 of population which were 11,533,797 and 24·34 against 12,182,853 and 26·13 respectively in the preceding year. The total number of re-vaccinations in 1909-10 was 85 against 304 in 1908-09 and that of successful re-vaccination 74 and 280 respectively. It will thus be seen that there was a decrease under all heads chiefly due to the severe epidemic of plague in Ajmer City and districts of Ajmer-Merwara.

General Operations in Ajmer-Merwara.

36. The number of vaccinators was 15, the same as in the previous year, with one Native Superintendent.

STATEMENT II.

37. The total expenditure on vaccination during 1909-10 was R3,032-12-4 against R2,974-13 in 1908-09. The increase is due to the fact that glycerinated lymph was obtained on payment from the Government Bovine Lymph Depôts. The cost of each successful vaccination in this Division in 1909-10 was 50 pies against 46 pies in 1908-09.

Expenditure on Vaccination.

38. The Civil Surgeon, Ajmer, inspected 333 children against 394 in 1908-09, all of whom were found successfully vaccinated, and the Superintendent of Vaccination at Nasirabad examined 421 children against 603 in the previous year.

39. The Native Superintendent inspected 260 villages and 6,018 vaccinations against 6,144 in 1908-09. The percentage of success amongst cases seen by him was 98·87 against 98·75 in the preceding year.

40. The vaccination returns from the Native States show that there was a decrease under all heads except that relating to re-vaccination, which is attributed to the prevalence of plague in most of the States in Rajputana during the season. The total number of primary vaccinations in Native States was 255,990, of which 251,990 were successful against 261,945 primary and 257,998 successful operations in the preceding year. Re-vaccination rose from 311 in 1908-09 to 325 in the year under report, but the percentage of successful re-vaccinations fell from 86·82 to 82·46 in 1909-10.

General operations in Native States. (Statement I.)

41. There were 161 vaccinators employed against 162 in the previous year, 2 less in Tonk and 1 less in Jhalawar and one additional vaccinator in Jaipur and Marwar. No vaccinator was employed in Deoli Cantonment during the season as vaccinations were performed entirely by the Hospital Assistant attached to the Agency Hospital, Deoli.

42. *Western Rajputana States.*—Of the work performed in Marwar 2,157 primary vaccinations were done by Hospital Assistants in dispensary towns, with a percentage of success of 95·36. The Hospital Assistants at Sirohi and Sheoganj performed 268 successful primary operations and the Hospital Assistant at Jaisalmer 192.

43. *Kotah and Jhalawar.*—Arm to arm vaccination has been discarded and all vaccinations have been carried out with glycerinated vaccine obtained from the Vaccine Depôt, Belgaum. The results have been excellent. The advantages of this vaccine are:—

(1) The vesicles have been more satisfactory.
(2) Surrounding inflammation is less and subsides rapidly.
(3) It appears to heal more quickly and causes less irritation to the child.
(4) A higher percentage of success is noted.

44. The cost to the Department is naturally greater, but it has many advantages; there is so much less inflammatory trouble to the children than

from arm to arm vaccination, especially as vaccinators are often careless as to the sources they take their vaccine; mothers prefer it, as they often object to the subsequent collection of vaccine from their children and do not know from what caste their children are vaccinated, also the vaccine being pure causes less trouble to the children.

45. The Native Superintendent of these States was sent to Belgaum for special instruction, a plan which might be adopted in other States with advantage.

STATEMENT II.

46. The total expenditure on vaccination during 1909-10 was R29,070-0-6 against R28,946-12-7 in 1908-09, an increase of R123-3-11, which is probably due to the increased expenditure on contingencies. The average cost of each successful vaccination in different States varied from 11 pies in Sirohi to 90 pies in Jaisalmer. The high cost of vaccination in Jaisalmer is attributed to the fact that there is only a small population living in scattered villages in a large area.

47. The following table shows the number of towns and villages inspected and successful vaccinations seen by Agency or Residency Surgeons in Native States:—

Designation.	Number of towns and villages inspected.	Number of vaccination cases seen.
Residency Surgeon, Jaipur	347	6,793
Residency Surgeon, Western Rajputana States	470	7,492
Civil Surgeon, Bikaner	85	4,137
Agency Surgeon, Eastern Rajputana States	514	6,174
Agency Surgeon, Alwar	33	4,483
Agency Surgeon, Haraoti and Tonk	4	360
Agency Surgeon, Kotah and Jhalawar	648	5,055
Residency Surgeon, Mewar	114	3,700
Agency Surgeon, Kherwara	11	152

48. The Native Superintendents of Vaccinations or other inspecting officers inspected 112,617 against 115,937 in the preceding year. The percentage of inspections to total number vaccinated was 44·08 against 44·21 in 1908-09. The percentage of inspected cases found successful to total number seen in 1909-10 was 99·22 against 98·89 in the preceding year.

49. The Residency Surgeon and Chief Medical Officer in Rajputana in his winter tour of inspection examined 2,861 vaccinated children. The majority inspected were of good quality.

50. Humanized lymph is generally used throughout Rajputana, but in Ajmer, Abu, Alwar, Tonk, Shahpura, Deoli, Kotah, Jhalawar and Dungarpur glycerinated vaccine lymph was obtained during the year under report from the Government Bovine Lymph Depôts and proved generally satisfactory.

51. Several States commence their vaccination season with buffalo calf lymph under local arrangements, also during the season, persons so desiring it can be vaccinated from lymph collected from calves direct.

SECTION II.—DISPENSARIES.

STATEMENT A.

Number of Dispensaries.

52. During the year under report there were 170 hospitals and dispensaries in Rajputana against 172 in the previous year: the Agency Hospital at Bikaner was closed on the 30th September and the Female Hospital at Karauli on the 16th September 1909.

53. The dispensaries are classified as under:—

I. State Public	9
II. State Special	12
III. Private non-aided, *i.e.*, Native States	149

Besides these there are six Mission and six Railway dispensaries open for the treatment of patients.

54. *Ajmer.*—Marble flooring was provided in the upper operation room in the Victoria Hospital.

Improvements.

55. *Alwar.*—The new Alexandra Hospital was opened by His Excellency the Viceroy on the 26th October 1909, and was taken into use on November 14th, 1909.

56. *Bharatpur.*—Sanction has been accorded to the erection of new buildings for the Female Hospital and to improvements in the Victoria Hospital itself, and work has commenced.

57. *Kotah.*—The new dispensary building at Bakani is nearing completion and another has been begun at Manoher Thana.

58. *Mewar.*—A *post-mortem* room is being built at Bhilwara and the building and repairs required at the Mandalgarh dispensary are being taken in hand.

59. *Dungarpur.*—Quarters for the Dispensary Establishment, a cook-house and store-room are to be completed shortly.

Statement B.

Medical Relief.

60. During the year 1,545,204 patients were treated at State Public, State Special and Private non-aided, *i.e.*, Native States dispensaries and hospitals against 1,562,319 in 1908 and 1,292,254 in 1907; this decrease is chiefly attributed to plague. The in-door attendance increased from 16,253 in 1907 to 18,485 in 1908 and 19,141 in 1909, while the out-door, which rose from 1,276,001 in 1907 to 1,543,834 in 1908, fell to 1,526,063 in 1909.

61. The number noted as cured rose from 11,494 in 1907 to 13,679 in 1908 and 14,169 in 1909. The number relieved was 1,584, 1,633 and 1,644 and those discharged otherwise was 1,572, 1,679 and 1,760 respectively, and the ratio of deaths per cent. of total treated fell from 4·23 in 1907 to 4·10 in 1908 and to 3·81 in 1909.

Statement C.

62. Of the 40 classes of diseases noted 20 show a decrease in the number of treated as compared with 1908. The most noticeable decreases are malaria from 423,912 in 1908 to 361,550 in 1909, syphilis from 22,608 to 22,164, dysentery and diarrhœa from 54,900 to 42,196 and tubercular diseases from 2,065 to 1,964 throughout the Province.

Leprosy.

63. There were 500 patients treated for leprosy in Rajputana hospitals and dispensaries in 1909 against 431 in 1908 and 398 in 1907. No special methods of treatment have been adopted and no reports on the use of "Nastine" have been received in the Province.

Snake poisoning.

64. Calmettes anti-venine is kept in stock for the treatment of snake-bite and Lauder Brunton's lancet with Permanganate of Potash have been largely indented for.

Labour Cases.

65. Under the orders contained in Government of India, Home Department, letter No. 994, dated the 1st September 1908, labour cases, normal and

abnormal, treated in hospitals have been shown separately in statement C. There were 110 normal and 52 abnormal confinements reported from hospitals during the year as compared with 14 and 17, respectively, in 1908.

PLAGUE.

66. During the year from 1st April 1909 to 31st March 1910, 30,549 cases of plague and 26,223 deaths were reported and 627 towns and villages were infected in Rajputana including Ajmer-Merwara as compared with 5,619 cases and 4,944 deaths and 200 infected towns and villages in 1908-09. The percentage of total plague deaths to population was 0·99, *vide* table attached, which shows the comparative severity of epidemics in Rajputana since 1896.

67. Twenty-one thousand nine hundred and twenty-seven inoculations were performed during the year under report at the following places :—

Ajmer City	5,788
Ajmer-Merwara Districts	7,092
Deoli Cantonment	3,695
Udaipur City	2,411
Chitore	187
Kishangarh City	1,124
Bharatpur City	825
Jaipur City	730
Marwar	75

Plague existed in Rajputana throughout the year.

68. *Ajmer-Merwara.*—There were 8,746 attacks and 7,929 deaths reported in Ajmer and Merwara districts in 1909-10 including 2,444 cases and 2,379 deaths in Ajmer City against 171 cases and 109 deaths in 1908-09. There were 196 infected villages in the district against nine infected villages in the previous year. The disease was in existence in Ajmer district throughout the year, except in July.

69. Plague broke out in epidemic form in Ajmer City in August commencing in the southern portion of the town. In October and November it was at its worst in the city, but later, as the inhabitants vacated the city, it increased in the surrounding villages and district in which there is no doubt many of the citizens took refuge and spread the disease. Many also carried infection to the neighbouring Native States and elsewhere.

70. In October a special plague staff was organized in addition to those previously on plague inspection duty at the Ajmer Railway Station, under Major W. Rothney Battye, I.M.S., who was appointed Special Plague Medical Officer on the 15th October 1909.

71. *Merwara District.*—The disease appeared in this district in October; it was imported from Ajmer. There were 1,793 cases and 1,209 deaths reported and 37 towns and villages were infected during the year under report. The disease is still in existence in a less degree in both districts.

72. The measures adopted in dealing with the epidemic were as follows :—

Inoculation.—This was started early by the Civil Surgeon and his regular staff and by the Railway Medical Staff, though at the beginning the public were chary of the remedy; later on, largely through the personality and energy of the Civil Surgeon, it became somewhat more popular, and by the time the special plague staff were in harness many objections to it had been overcome.

Poor persons were re-imbursed for loss occasioned by inability to carry on their usual duties on account of inoculation, but latterly this was not necessary as many came forward of their own free will and made no claim; Rs263-12 was paid out in this manner.

Disinfection.—The disinfectants used in disinfecting houses were kerosine oil emulsion and pesterine, and in the city disinfection was carried out systematically.

Evacuation.—Although huts were constructed by the Municipality for the inhabitants of Ajmer City they were never occupied. The great majority of the population left the city for the district and elsewhere.

In the district, however, inhabitants of villages made their own arrangements, evacuating their houses and living in temporary shelters, assistance being given when necessary.

Rat extermination.—This was tried by means of traps during the course of the epidemic but to little effect except in Railway limits, as a large and influential section of the community objected to it on religious grounds.

73. There were 21,803 cases of plague and 18,294 deaths reported from Native States of Rajputana during 1909-10 against 5,448 cases and 4,835 deaths in 1908-09. Of these 167 cases with 131 deaths were imported and 21,636 cases and 18,163 deaths were indigenous.

Native States.

74. The epidemic affected 10 States and 430 towns and villages, including Deoli Cantonment, against 9 States and 191 towns and villages in the previous year.

75. *Jaipur State.*—Plague was in epidemic form in the State during the year under report; 7,552 cases and 6,898 deaths were reported in 144 towns and villages, of which 1,643 attacks and 1,643 deaths occurred in the City of Jaipur.

76. In Bharatpur 5,235 cases and 4,311 deaths were reported in 109 towns and villages.

77. In Marwar, 4,628 seizures and 3,911 deaths in 95 towns and villages.

78. In Mewar, 2,208 cases and 1,566 deaths in 32 towns and villages.

79. In Alwar, 1,362 cases, of which 991 proved fatal, in 33 towns and villages.

80. In infected villages of the Native States, evacuation, disinfection and segregation were carried out, largely by the people themselves, the poorer being State aided. The villagers are gradually appreciating the advantage of early evacuation on finding dead rats or on plague making its appearance.

81. In a few of the States a certain number of persons came forward for inoculation and doubtless more will do so later on, when they have greater experience of its advantage.

82. Measures for rat destruction can seldom be adopted in most of the Native States as the people are prejudiced against the practice.

83. A plague map showing the districts where outbreaks occurred, the date of first and last cases, and the death rate per 10,000 of population is attached.

Statement F.

84. Shows the classes and sexes of both in and out-door patients treated in the hospitals and dispensaries of Ajmer-Merwara and of Native States in Rajputana as follows:—

	1908.	1909.
Europeans and Eurasians	2,635	2,194
Hindus	1,062,939	1,040,027
Musalmans	396,189	400,935
Other classes	100,556	102,048

Statement G.

85. The number of surgical operations performed in Ajmer-Merwara and in Native States during the year under report was 67,178 against 65,204 operations in 1908 and 66,551 in 1907. The number of patients operated on was 66,969 as compared with 64,815 in the previous year. The cures amounted to 66,180 against 64,317 in 1908 and the numbers relieved, discharged otherwise and died were 286,182 and 81 respectively against 292,151 and 79 in the previous year, while 240 remained under treatment on 31st December 1909, as compared with 195 in 1908.

86. Of the operations performed 1,587 were extraction of the lens for cataract of which 1,487 or 93·81 per cent. proved successful, 48 lithotomies, 149 litholapaxies, and 158 amputations against 1,277 extractions of the lens for cataract, 55 lithotomies, 143 litholapaxies and 161 amputations in 1908.

87. It may be noted that in spite of plague being epidemic for a considerable portion of the year with its consequent effect on hospital practice the operative work during 1909 shows a satisfactory increase.

88. In Ajmer-Merwara however the panic from plague very detrimentally affected operative work, especially in Ajmer City, where during one time of the epidemic at least two-thirds of the population had left.

STATEMENT H.

89. Shows the income and expenditure of Government dispensaries and hospitals and the expenditure only on those in Native States.

90. The total income of hospitals and dispensaries in Ajmer-Merwara was R19,686, as compared with R18,580 in 1908; this increase of R1,106 is attributed to the fact that arrears of contribution were paid by certain Istimrardars during the year under report. The value of the invested Capital of the dispensaries in this division remained the same as in 1908.

91. In Ajmer-Merwara the total expenditure rose from R15,994 in 1908 to R17,104 in 1909; this increase is mainly due to increase in Public Works Department charges from R178 to R1,146, this being R598, the cost of the flooring of the upper operation room in the Victoria Hospital, Ajmer, and R537 for construction of a *post-mortem* room at Todgarh. This raised the debit balance against the Victoria Hospital to R1,591, which was subsequently reduced to R591 by re-appropriation of R1,000 from the Deolia Dispensary cash balance.

92. The total expenditure on hospitals and dispensaries in Native States of Rajputana rose from R3,56,678 in 1908 to R3,63,854 in 1909, which is shown under heads Establishment, Medicines and Miscellaneous.

Native States.

93. Of the total cost on hospitals and dispensaries in these States R74,432 were expended in Jaipur, R49,883 in Marwar, R39,886 in Bharatpur, R36,515 in Bikaner, R34,742 in Mewar, R33,593 in Kotah, R32,375 in Alwar, R9,987 in Tonk, R8,398 in Dholpur, R6,506 in Karauli, R4,058 in Kishangarh, R3,593 in Bundi, R3,093 in Banswara, R2,476 in Dungarpur, R2,358 in Jaisalmer, R1,877 in Shahpura, R1,760 in Pertabgarh and R932 in Kushalgarh. These figures do not include expenditure on new hospitals and dispensaries incurred in Public Works Departments of the States.

94. The average cost of each case treated in Ajmer-Merwara and in the Native States hospitals and dispensaries was 39 pies and 48 pies against 35 pies and 46 pies respectively.

95. A scheme for improving the position and pay of compounders and dressers in Ajmer-Merwara and other Government medical institutions is still under consideration, as also the question of the increased requirements of the Ajmer Victoria Hospital both in "personnel" and income, etc.

MISSION HOSPITALS.

96. During the year under report there were six Mission hospitals in Rajputana as in 1908.

97. The following table shows the total number of in and out-door patients treated and operations performed in these institutions in 1909:—

Name of Hospital.	Out-door patients.			In-patients.	Operations.	Remarks.
	Old.	New.	Total.			
Ajmer (male) .	89,948	19,320	1,09,268	20	2,225	
Ajmer (female) .	5,834	3,883	9,717	167	190	235 were visited at their homes.
Nasirabad . .	23,369	9,794	33,163	282	723	
Ashapura . .	4,019	1,343	5,362	120	36	
Udaipur . .	36,743	15,841	52,584	315	1,205	
Jodhpur . .	1,19,297	11,119	1,30,416	128	1,169	802 were visited at their homes.
Total .	2,79,210	61,300	3,40,510	1,032	5,548	

98. It should be noted that these medical statistics are for the *Mission* financial year from 1st October 1908 to 30th September 1909.

Railway Hospitals.

99. There were 797 in and 32,304 out-door patients treated and 636 operations performed during the year under report in *six* Railway dispensaries on the Rajputana-Malwa Railway within the limits of Rajputana as per detail below :—

Station.	No. of in-patients treated.	No. of out-patients treated.	Operations performed.
Abu Road	167	3,191	123
Sojat Road	...	2,243	87
Ajmer	153	14,071	192
Phulera	141	6,981	169
Bandikui	336	5,818	65
Total	797	32,304	636

100. One thousand three hundred patients were visited at their homes at Ajmer by the Railway Medical Staff.

Inspections.

101. The Residency Surgeon and Chief Medical Officer in Rajputana inspected the hospitals and dispensaries during the past season in the cities noted below :—

Udaipur, Ajmer, Jaipur, Jodhpur, Bharatpur, Dig, Dholpur, Karauli, Hindaun, Kotah, Jhalawar, Tonk, Kishangarh, Alwar and Abu Road.

Jails.

102. *Ajmer.*—Although the daily average number of prisoners in the Ajmer Jail fell from 358·54 in 1908 to 340·45 in 1909, the total number of cases admitted into hospital rose from 123 in 1908 to 175, the daily average sick from 5·08 to 5·93, the mortality from 5 to 7 and the ratio per mille of average strength from 13·95 to 20·56, which is largely due to the prevalence of malaria during rainy season. Plague was guarded against by a ten days' quarantine on all newly arrived prisoners. Those who were thought likely to have been exposed to infection were inoculated.

103. Prophylactic doses of 15 grains of quinine weekly were given to all prisoners during October and November as a prophylactic against malaria.

104. Of the 7 deaths which occurred among convicts and under-trials against 5 in the previous year, 4 were due to pneumonia, 1 to acute catarral bronchitis, 1 to acute obstruction due to biliary calculi and 1 rupture of spleen.

105. The review by the Commissioner, Ajmer-Merwara, on the strength, classification, health, employment and conduct of prisoners, nature of sentences, jail manufactures and expenditure of the Ajmer Jail is given as Appendix A of the Report, together with statements.

106. The daily average number of prisoners in the jails in the Native States fell from 4,289·90 in 1908 to 4,194·91 in 1909, the number of admissions to hospitals from 2,484 to 1,726 and the daily average number of sick from 99·87 to 76·99.

Native States.

107. There was no cholera or other epidemic diseases in any of the jails in Rajputana in 1909.

108. *Jaipur.*—There has been no overcrowding in the Central Jail throughout the year. The daily average sick rose from 9·85 in 1908 to 11·81 in 1909, mortality from 11 to 15 and ratio per mille of average strength from 20·85 to 30·25 ; this increase is due to prevalence of malarial fever and bowel complaints.

109. In the District Jail there is also increase under these heads as compared with the previous year.

110. Steady improvement in the condition of prisoners and in the management of these jails are being made under the superintendence of Rai Sahib Nowrang Rai, Superintendent of Jails.

111. *Jodhpur.*—The daily average number of prisoners in the Central Jail, Jodhpur, fell to 562·05 from 630·25 in 1908 and the number of sick admitted to the hospital to 140 from 250 in the previous year.

112. The mortality and the death rate in this jail rose from 8 and 12·69 in 1908 to 13 and 23·13 per mille of average strength in 1909, which is due to the fact that many of the deaths occurred amongst recently admitted prisoners to the jail who arrived in a practically hopeless condition.

113. The improvement in jail administration and discipline since Mr. MacGrath took over charge is very marked.

114. *Bikaner.*—The jail is as usual quite up to date.

115. The daily average number of prisoners fell from 287·28 in 1908 to 269·05 in 1909, number admitted into hospital from 5 to 4 and daily average number of sick from 1·01 to 0·67 respectively.

116. *Alwar.*—The health of this jail has improved considerably within the year. The daily average number of prisoners rose from 370·50 in 1908 to 432·33, but the total number of cases admitted into hospital fell from 325 in 1908 to 129 in 1909; the daily average sick from 14·70 to 6·05, mortality from 13 to 10 and the death rate per mille from 59·09 to 23·13.

117. *Bharatpur.*—The new additions to the jail mentioned in the Report for 1908 are practically ready and will very shortly be taken into use.

118. The mortality and death rate rose from 9 and 34·33 in 1908 to 19 and 67·03 in 1909 which is largely due to the fact that many prisoners were admitted into the jail suffering from phthisis, which is very prevalent in the city and district, and that most of the Bharatpur inhabitants are impregnated with malaria.

119. *Udaipur.*—There has been overcrowding in the jail throughout the year, but the health of the prisoners has been very good. There were only 10 deaths in 1909 against 21 in 1908 and 20 in 1907, of which 3 were due to pneumonia, 3 to old age and debility, 1 to phthisis, 1 to dysentery, 1 to malarial fever and 1 to cerebral thrombosis.

120. *Pertabgarh.*—A new jail has been completed and will be taken into use shortly.

121. There were no deaths reported in the jails at Shahpura, Jaisalmer, Pertabgarh and Bundi.

122. The Residency Surgeon and Chief Medical Officer in Rajputana inspected the jails at Udaipur, Ajmer, Jaipur, Jodhpur, Bharatpur, Dholpur, Karauli, Kotah, Jhalawar, Tonk, Kishangarh and Alwar.

Qualified Medical Staff.

Commissioned Medical Officers.

123. There were 12 Commissioned Medical Officers in appointments in Rajputana in 1909 against 11 in the previous year. Captain (now Major) W. R. Battye, I.M.S., was posted as Special Plague Medical Officer in Ajmer-Merwara from the 16th October 1909.

124. Major (now Lieutenant-Colonel) A. L. Duke, I.M.S., was appointed temporarily as Residency Surgeon, Western Rajputana States, from 15th March to 25th April 1909, during absence on privilege leave out of India of Lieutenant-Colonel R. C. Macwatt, I.M.S.

125. Major (now Lieutenant-Colonel) E. W. Hore, I.M.S., was appointed as Agency Surgeon, Eastern Rajputana States, from 14th April 1909, in succession to Major Fisher on deputation to Europe with His Highness the Maharaja of Bharatpur.

126. The post of Medical Officer, Mewar Bhil Corps, was converted from a Military to a Civil one, with effect from 18th January 1909, and the designation of the appointment to "Agency Surgeon, Kherwara."

127. Major P. B. Haig, I.M.S., was transferred from Alwar to Bhopal from 4th November 1909, and Captain C. M. Goodbody, I.M.S., posted as Agency Surgeon, Alwar, from 29th November 1909.

Additional Charge.

128. The Civil Surgeon, Ajmer, holds collateral charge of the 44th Merwara Infantry and the Agency Surgeon, Haraoti and Tonk, is similarly in additional charge of the 42nd Deoli Regiment.

Warrant Officers.

129. Honorary Captain W. Thomson, I.S.M.D. (retired), was on plague duty at Ajmer and Dr. D. G. Newland, L.R.C.P. and S., Edinburgh, at Abu Road throughout the year.

130. *Military Assistant Surgeons.*—Assistant Surgeon H. F. de Penning was deputed for plague duty in Ajmer-Merwara from 6th December 1909. Assistant Surgeon A. W. Dyer was in charge of the Northern India Salt Revenue Dispensary at Sambhar up to 12th November 1909, when he went on three months' privilege leave. Assistant Surgeon R. J. K. Stone, I.S.M.D., took over charge of that dispensary on the forenoon of the 19th December 1909.

131. *Civil Assistant Surgeons.*—There were five Government Assistant Surgeons, two employed in the Ajmer-Merwara district, one at Jaipur, one at Khetri and one at Bharatpur.

132. The six Assistant Surgeons who were on the unpensionable graded list are now purely Darbar servants and their names have been expunged from the Government list.

133. *Military Hospital Assistants.*—There were ten Military Hospital Assistants employed with the Imperial Service Corps in Rajputana as in the previous year in the following regiments :—

Alwar 1st Lancers	2	Bharatpur Infantry	2
Alwar Fatteh Paltan	2	Jaipur Transport	1
Bharatpur Transport	2	Bikaner Camel Corps	1

Civil Hospital Assistants.

134. On the 31st December 1909, 188 Government Hospital Assistants were on the rolls against the sanctioned strength of 194, there being six vacancies, three on Government Reserve List and three on Native States Reserve List. These vacancies, it is hoped, will be filled up from pupils at the Agra Medical School, five of whom should pass out in May. Out of 194 Hospital Assistants, 23 were permanently employed by the British Government and 171 lent to Native States. There are now only three local class Native Doctors and one locally entertained Hospital Assistant under this Department in Native States, against four and one respectively in 1908. The appointment of one Native Doctor was struck off the sanctioned strength owing to the transfer of the Pokaran Dispensary to the Thakur Sahib as a private institution.

135. *Lady Doctors.*—There were six Lady Doctors employed in the following States in Rajputana as in the previous year :—

Jodhpur	1	Tonk	1
Kotah	1	Alwar	1
Jaipur	1	Udaipur	1

136. *Female Hospital Assistants.*—There were 11 Female Hospital Assistants attached to the female hospitals and women's wards against 12 in 1908. Owing to local objections and on financial grounds, the Female Dispensary at Karauli was closed and the services of the Female Hospital Assistant in charge were dispensed with from the 17th September 1909.

Female Hospitals and Dhai Class for Women.

137. *Ajmer.*—During the year under report no qualified Female Hospital Assistant was appointed to the medical charge of the female wards of the Victoria Hospital, Ajmer, for want of funds.

138. *Beawar.*—Female Hospital Assistant Mrs. J. Martin was in charge of the female ward of the Charitable Dispensary throughout the year. There was slight decrease in the number of both in and out-door patients treated as compared with the figures in 1908, which is due to plague in Merwara.

139. The returns received from the female hospitals in Native States of Rajputana show on the whole an increase of work done during the year under report in these institutions.

140. *Alwar.*—Miss V. A. Turkhud, M.B., B.S.C., was in charge of the Dufferin Hospital at Alwar till the 14th February 1909, when she resigned and was relieved by Female Hospital Assistants Balabai and Sugnabai. Miss T. Canagasaby, L.R.C.P. and S., was appointed as Lady Superintendent to the hospital from the 13th April 1909 and is still in charge. There were 300 in

and 14,212 out-door patients treated and 426 operations performed against 439 in and 14,991 out-door patients and 565 operations in 1908. The decrease in the attendance of both in and out-patients treated and operations performed is attributed to the fact that the hospital was under repairs for nearly three months and there was no Lady Doctor for two months during the year.

141. Lieutenant-Colonel Crooke-Lawless inspected the hospital on behalf of Her Excellency Lady Minto and expressed his pleasure at the work done in this institution.

142. *Jodhpur.*—Miss J. Marsh, M.D., was in charge of the Jaswant Hospital for Women at Jodhpur up to 5th May 1909, when, on being relieved by Female Hospital Assistant Mrs. Ellias, she went on six months' leave to England. Her absence was the cause of a decrease in the number of in-door patients treated during the year under report. She returned on the 13th November 1909.

143. *Tonk.*—Female Hospital Assistant Rosie Joseph was in charge of the Walter Female Hospital at Tonk till April 1909, when Miss K. Reed returned from England and resumed charge of the hospital; while in England she obtained the degrees of L.R.C.P. & S., Edinburgh, L.F.P. & S., Glasgow, and L.M.R.C.P., Ireland.

144. There were 279 in and 8,922 out-patients treated in 1909 against 221 in and 6,229 out-door patients in 1908. This increase is due to the popularity of the Lady Superintendent who has thoroughly obtained the confidence of the people.

145. The Dhai Class was reopened in August 1909 after arrival of Miss Reed from England; 4 pupils are under training, 2 of whom belong to the class of local midwives who practise in the City of Tonk. The course is for one year.

146. Lady Superintendent reports that some of the Dhais who were trained in the class before her departure on leave are doing good work in the city.

147. *Kotah.*—Miss J. Newton, L.R.C.P. & S., has been in charge of the Victoria Hospital at Kotah throughout the year. There was a considerable increase in the number of out-door attendance due to malarial fever after the rains. Female Hospital Assistant Miss Helen Baldeo Singh is popular and liked by the women of Kotah.

148. A new operating table for the hospital was provided during the year.

149. A class for the training of Dhais was started during the early part of the year and lasted for three months. On completing the course they were examined by the Agency Surgeon, Kotah; four of them passed, two with credit. Six pupils are now under training in the class.

150. A scheme for the instruction and encouragement of suitable Dhais has been sanctioned by the Darbar provisionally for one year and made known throughout the State.

151. *Udaipur.*—Miss McGlashan, M.B., Ch. B., was in charge of the Walter Zenana Hospital, Udaipur, up to 22nd September 1909, when she went on special leave for three months. The work of the hospital during her absence was carried on by Female Hospital Assistant Shitabobai. There is a considerable increase in the number of both in and out-door patients treated in 1909 as compared with the previous year, which is satisfactory. It is undoubted that the Zenana Hospital under the present Lady Doctor is better attended than formerly.

152. Her Excellency Lady Minto inspected the hospital on 3rd November 1909.

153. *Jaipur.*—Miss L. E. Sykes, M.D., has been in charge of the female ward of the Mayo Hospital, Jaipur, throughout the year. There was an increase in both in and out-door attendance and in the number of those who were visited at their homes, which is due to the fact that there is now a qualified Lady Doctor in charge who takes a personal interest in her patients. A new Female Compounder has been added to the staff and the nursing is now entirely in the hands of women.

154. The Dhai Class is being worked on the same lines as in previous year.

155. *Bharatpur.*—Female Hospital Assistant Bebi Rup Kunwar has been in charge of the Female Hospital at Bharatpur throughout the year.

There were 422 in and 7,672 out-door patients treated in 1909 against 402 in and 7,422 out-patients in 1908.

156. Sanction has been accorded to the erection of new buildings for the Female Hospital at Bharatpur.

157. Five out of 13 Dhais who were under training last year were examined by the Agency Surgeon, Eastern Rajputana States, Bharatpur, and granted certificates; 2 died, 2 left the class and 4 are still under instruction. The course is for 2 years.

158. *Karauli.*—The Female Dispensary at Karauli was closed on the 16th September 1909 for financial reasons, the outlay being in excess of the value of work done.

159. *Dhai Class, Ajmer.*—Mrs. M. Kane, Lady Superintendent, has been in charge of the Dhai Training Class at Ajmer throughout the year. The 4 pupils who were under instruction at the beginning of the year under report were examined by the Civil Surgeon, Ajmer, on the 29th April 1909; all of them passed and obtained their certificates and the usual honorarium given to successful candidates.

160. Four pupils (midwives), two from Jhalawar and two from Ajmer, were admitted into the class.

161. A more commodious building has been obtained on rent. It is much more suitable for the purpose than the original house vacated.

162. The Dhai pupils attended 145 maternity cases against 124 in the previous year; of these 10 were in-door, 62 out-door and 73 private cases.

163. The teaching in this institution is very thorough and the pupils are fully trained.

IMPERIAL SERVICE TROOPS.

164. These hospitals are in medical charge of qualified Military Hospital Assistants with the exception of the Jaipur Transport whose Senior Medical Officer is the Assistant Surgeon of the Mayo Hospital, and the two regiments, Imperial Service Lancers at Jodhpur, which are in medical charge of State, enlisted Assistant Surgeons. The hospital for the 2nd Lancers, Jodhpur, has been completed and will shortly be taken into use. These hospitals have all been visited by the Chief Medical Officer in Rajputana. They are all well equipped and the majority are well up to date as military hospitals.

LUNATICS.

165. *Ajmer.*—There were 3 lunatics in the Central Jail, Ajmer, on 1st January 1909, and 20 were admitted during the year. Of these 4 were transferred to Lahore Lunatic Asylum, 12 were made over to their friends and relatives, 3 discharged as cured and 1 died. Three lunatics remained in the jail on the 31st December 1909.

166. *Native States.*—There were 175 lunatics under treatment and observation in 1909 against 161 in 1908, of whom 27 were discharged as cured, 19 were made over to their friends and relatives, 24 died and 10 were transferred to the lunatic asylums at Lahore and Agra. Ninety-five lunatics remained under treatment in the jails on the 31st December 1909.

167. There are special lunatic asylums in Jaipur, Jodhpur, Alwar and Bikaner. In other Native States lunatics are as far as possible segregated in jails.

APPENDIX A.

REVIEW OF AJMER JAIL REPORT FOR 1909.

The office of the Superintendent, Central Jail, was held throughout the year by Lieutenant-Colonel H. R. Woolbert, I.M.S.

2. The general summary attached to the report shows the distribution of prisoners of all classes confined in the jail during the year under review.

Population.

3. At the commencement of the year there were 337 prisoners of all classes including convicts, under-trials and civil prisoners. The total number of admissions was 1,140 against 1,022 in 1908. The number discharged was 1,171 as compared with 1,054 in the preceding year. The number in confinement at the end of the year was 306 or 31 less than at the beginning of the year. The daily average jail population for the year was 340·45 as compared with 358·54 in 1908.

Disposal of convicts.

4. Statement No. 1 shows that the number of convicts admitted to the jail in 1909 was 580 as compared with 526 during 1908. The table below compares the disposal of convicts during the current year with that of the previous year:—

Particulars of convicts.	Year. 1908.	Year. 1909.	Remarks.
Released on appeal	22	26	
„ expiry of sentence	363	446	
„ payment of fine	19	42	
„ under remission rules	155	102	
Transferred to other jails	10	23	
Transferred to Andamans	3	...	
Died in jail	5	5	
TOTAL	577	644	

At the close of the year 275 convicts remained in the jail as against 311 on the last day of the year 1908.

Disposal of under-trial prisoners.

5. The total number of under-trial prisoners was 537; of these 106 were released, 330 were convicted, 68 were transferred, 2 died and 31 remained in the jail at the close of the year.

Disposal of civil prisoners.

6. There were 21 civil prisoners, all of whom were discharged—none remaining under detention at the end of the year.

Classification of convicts.

7. Of 580 convicts admitted during the year, 139 were Mahomedans, 434 Hindus, 2 Europeans, 1 Eurasian and 4 Native Christians.

Agriculturists	194
Labourers	226
Shop keepers and traders	27
Domestic servants	27
Miscellaneous occupations	4
Government servants	25
No occupation	35
	538

According to age classification, 2 were under 16 years of age, 503 between 16 and 40 years, 69 between 40 and 60 and 6 above 60 years of age. Of the 538 male convicts the majority, as will be seen by the detail in the margin, were as usual agriculturists and labourers. There were 42 female convicts as against 22 in the previous year.

Nature of sentences.

8. Of the 580* convicts admitted during the year 82 were awarded simple imprisonment and 486 rigorous imprisonment as against 67 and 425 in 1908. Solitary confinement was awarded to 11 convicts in addition to rigorous imprisonment and rigorous imprisonment with whipping was inflicted in one case.

* *Vide* paragraph 4 *supra*.

The number of convicts sentenced to terms of imprisonment not exceeding one month was 234, exceeding one month but not exceeding three months 121, above three months but not exceeding six months 105, above six months but not exceeding one year 64, above one year but not exceeding two years 25, above two years but not exceeding five years 17, and above five years but not exceeding ten years 13. One convict was sentenced to transportation for life during the year 1909.

Previous conviction.

9. The number of previously convicted prisoners admitted during the year was 96 as compared with 123 in 1908. The percentage of habituals to the total number of admissions was 30·87 as compared with 23·38 in the preceding year.

Employment of convicts.

10. The daily average number of convicts sentenced to labour on working days was 267·59 of whom 149·45 were employed on manufactures, 46·13 on preparing articles for consumption in jail, 0·07 on jail repairs and 9·46 on gardening—15·90 were engaged as prisoner officers and 34·77 as servants—11·81 were exempted from labour, being sick and convalescent.

Conduct of prisoners.

11. The number of jail punishments of all kinds rose from 201 in the preceding year to 214 during the year under review. The discipline of the jail continued to be good. The punishments inflicted are classed as below:—

(i) Solitary confinement	11
(ii) Reduced diet	66
(iii) Corporal punishment	4
(iv) Other punishment	133
TOTAL	214

Escapes.

12. No person escaped from the jail.

Health.

13. The health of the prisoners was good throughout the year. The number of admissions to the Jail Hospital was 175 against 123 in 1908. There were in all 7* deaths as compared with 5 in 1908 amongst the total number of the inmates of the jail.

* Including the 5 convicts shown in the table in paragraph 4 *supra*.

Juvenile offenders.

14. Five juvenile offenders were confined in the jail as against 18 in the preceding year. Of these 2 were released under the remission rules and 2 on expiration of their sentence, during the year, leaving only one in the juvenile ward at the close of the year. There were 2 prison offences among the boys as against 12 in 1908.

Jail manufacture.

15. The profit from the jail manufactures amounted to R2,462-4-0 as against R3,866-0-3 during the preceding year. The average earning per head of prisoners actually employed on manufactures fell from R23-6 in 1908 to R16-7-7 during the year.

Expenditure.

16. The total expenditure in guarding and maintaining the prisoners fell from R32,662 in 1908 to R26,361 in 1909, showing a decrease of R6,301. The decrease chiefly occurred under heads "Dietary charges" and "Public Works Department charges." The sum includes the charges incurred by Magistrates in guarding and maintaining under-trial prisoners and the expenditure incurred by the Public Works Department, R4,551-15-3, on buildings and repairs. The average cost per prisoner during the year was R77-6-10 against R90-13-6 in the preceding year and R125-10-6 in 1907.

Net cost to Government.

17. Includig the cost of under-trial prisoners incurred by Magistrates, the net cost of the jail to Government was R23,899 as compared with R30,242 in the preceding year.

General remarks.

18. There was no overcrowding during the year under review. The jail was inspected twice by the Chief Medical Officer, Rajputana, and twice by the Commissioner, Ajmer-Merwara. It was also inspected twice by the Assistant Commissioner, Ajmer.

W. C. R. STRATTON, *Lieut.-Col.*,
Commissioner, Ajmer-Merwara.

Female	2,618	7·17	7	†42	49	1	...	50	1	...	...	34	3	...	...	2	...	...	...	...		9
Total	112,586	308·45	311	580	891	28	...	919	23	...	26	446	42	...	...	102	...	...	...	...	5	275

* Of this number 2 boys under 16 years. † Of this number 1 girl under 15 years.

NOTE. 1.—This and the other statements numbered 1 to 7 only convicted prisoners are to be included.
2.—Debtors and others detained for default of Government revenue will appear in No. 8.
3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the year.
4.—The "Total population," column 8, is the sum of columns 6 *plus* 7, and necessarily includes many who are counted more than once.
5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the year, *vide* column 2, and dividing the whole by the number of days in the year.
6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.
It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.
7.—When the gangs are employed extra-murally under the orders of Government No. 1632—43, dated 28th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

H. R. WOOLBERT, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER JAIL;
The 12th February 1910.

	GRAND TOTAL	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	21,809	...	...

When prisoners of different classes are confined in the same Jail, the expenditure on establishment and other items with which all are concerned should be divided over all. The cost per head under any item of expenditure is to be calculated on prisoners actually concerned in it or contributing to it, and not otherwise. Hospital charges (col. 7) should include rations and also the cost of medicines supplied from the Bazar and the Medical Store Depôt. In this series (Financial) annas and pies are only to be shown where there are columns for them.

STATEMENT No. XII.—*Showing the employment of convicts in the Jail at Ajmer during the year 1909.*

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1910,

AND ON

VACCINATION FOR THE YEAR 1910-1911.

Published by Authority.

CALCUTTA
SUPERINTENDENT GOVERNMENT PRINTING, INDIA
1911

No. 2409, dated 2nd May 1911.

From—Lieutenant-Colonel W. H. B. ROBINSON, I.M.S., Residency Surgeon and Chief Medical Officer in Rajputana,

To—The First Assistant to the Agent to the Governor General in Rajputana.

I have the honour to submit the Annual Report on Sanitation, Dispensaries and Jails in Rajputana for the year 1910 and on Vaccination for the official year 1910-1911.

Exd.—R. S. W.

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1910

AND ON

VACCINATION FOR THE YEAR 1910-1911.

SECTION I.—SANITATION AND VACCINATION.

METEOROLOGY AND ITS RELATION TO FOOD SUPPLY.

1. During the year under report 17·19 inches of rain were registered in Ajmer against 30·47 inches in 1909, a rainfall of 3·53 inches less than the average of previous six years.

Rainfall in Ajmer.

2. In most of the Native States of Rajputana the rainfall was less than the previous year. The outturn of the khariff crop was above the average and that of the rabi crop is expected to be fairly good. Grass is abundant in all these States.

Rainfall in Native States.

VITAL STATISTICS, BIRTHS AND DEATHS.

3. According to the birth-return there were 20,355 births registered in Ajmer-Merwara in 1910 against 18,021 in 1909, an increase of 2,334 which may be attributed to the return to normal condition after the malarial prevalence and the plague epidemic which declined in April 1910. Of the total births registered 10,802 were males and 9,553 females, the birth-rate was 42·68 per mille of population against 37·78 per mille in the previous year. The percentage of male to female births was 113·07 against 116·52 in 1909. The birth rate exceeded the death-rate in 9 out of 23 circles of registration against 10 in the previous year.

Births in Ajmere-Merwara.

4. There were 23,882 deaths registered in Ajmer-Merwara in 1910 against 24,292 in 1909, a decrease of 410. The death-rate per mille of population was 50·08 against 50·94 in the previous year. The Civil Surgeon, Ajmer, reports that although there was a large mortality from plague, deaths from other causes diminished, after April 1910 a return to more normal conditions became established.

Deaths in Ajmer-Merwara.

5. The mortality among children under 5 years of age was 33 per cent. of the total deaths against 30 per cent. in the previous year. Between the ages of 50 and upwards the percentage was 16, a decrease of 3 per cent. as compared with that in 1909.

6. The mortality from small-pox was 78 as compared with 16 in the previous year, an increase of 62, of these, 65 deaths were reported in the Ajmer District and 13 in Merwara.

7. The deaths exceeded births in 14 circles.

TABLE I.—*Number of cholera cases and deaths reported in Ajmer-Merwara and Native States of Rajputana, during the year 1910.*

Name of District or State.		April.		May.		August.		September.		Total.		Percentage of deaths to cases.
		Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	
Ajmer-Merwara	Ajmer City	..	..	..	..	1	1	2	1	3	2	66·66
	Total	..	..	..	..	1	1	2	1	3	2	66·66
Native States	Alwar City	..	..	..	..	3	3	1	1	4	4	100·00
	Bharatpur City	2	1	3	2	1	..	..	..	6	3	50·00
	Karauli City	..	..	1	1	..	..	..	..	1	1	100·00
Total Native States		2	1	4	3	4	3	1	1	11	8	72·72
Grand Total		2	1	4	3	5	4	3	2	14	10	71·43

8. There were no cases of cholera reported in Ajmer-Merwara during the year with the exception of three imported cases with two deaths in Ajmer City during the months of August and September 1910.

Ajmer Merwara.

9. During the year only 11 cases of cholera were reported from the Native States of Rajputana of which eight proved fatal against 747 cases and 403 deaths in the previous year.

Native States.

10. Usual measures for its eradication were taken.

11. No cholera map is necessary.

SANITATION.

12. *Ajmer City.*—Water was sufficient for the supply of the city and suburbs as well as for the railway workshops during the year.

13. The Commissioner, Ajmer-Merwara reports that the scheme for the improvement of the water-supply in the Ajmer City is under consideration and steps are being taken to collect the further information asked for by the Government of India in this respect.

14. A scheme for improving the Ajmer trenching ground and the disposal of night soil is also under consideration.

15. Six new conservancy carts and six new trollies with receptacles have been supplied and 50 carts and 40 trollies with receptacles have been ordered from the Empire Company, Cawnpore.

16. Three new one-seated moveable galvanized iron urinals have been provided in the city.

17. Three incinerators on trial are still in use.

18. Drainage is still defective.

19. The slaughter house and meat markets are still in an unsatisfactory condition. An improvement scheme is under consideration.

20. The sanitary tramway has worked fairly satisfactory during the year.

21. *Beawar City.*—The Municipal Committee continues to supervise sanitation in Beawar.

NATIVE STATES.

22. *Jaipur.*—The light railway continues to perform valuable work for all conservancy purposes. Rubbish and city sweepings are burnt locally in incinerators.

23. *Jodhpur.*—Water-supply was sufficient throughout the year. The sanitation is in the hands of the Municipal Committee.

24. *Bikaner.*—The Municipal Committee supervise sanitation in Bikaner City.

25. *Alwar.*—Eleven wells were deepened and cleaned at the cost of ₹415 by the Alwar Municipality. Sanitation is in charge of the Municipality.

26. *Kotah.*—Local Sanitary Committees have been formed in the districts and the sanitary staff placed under the various Sub-Assistant Surgeons who are Executive Officers for all sanitary work.

VACCINATION.

STATEMENT I.

27. In Ajmer-Merwara the number of successful primary vaccinations during 1910-1911 was 12,475 against 11,533 in 1909-1910 and successful re-vaccination 273 against 74 in the previous season.

28. The average work per vaccinator was 881 operations against 797 and the average cost of each successful case was 47 pies against 50 pies in the previous year.

29. The number of vaccinators was 15, the same as in 1909-1910 with one Native Superintendent.

30. The Civil Surgeon, Ajmer, inspected 670 children against 333 in 1909-1910, of whom 656 were found successful and the Superintendent at Nasirabad examined 553 children against 421 in the previous year.

31. The Native Superintendent inspected 273 villages and examined 6,807 vaccinated children against 6,018 in 1909-1910. The percentage of success amongst cases seen by him was 98·44 against 98·87.

32. In the returns of previous years the number of persons vaccinated corresponded with the total number of primary vaccinations and re-vaccinations as the number of vaccination operations performed was taken as equal to the number of persons vaccinated and re-vaccinated. This method of calculation was changed under the orders contained in the Government of India, Home Department letter No. 169—176 (Sanitary), dated the 29th January 1909, and an individual on whom a second operation is performed on account of failure on the first occasion is now shown as one person only but the second operation is included in the total of vaccinations.

33. The Vaccination Returns from the Native States also show an increase in primary vaccinations, *viz.*, 261,739 against 255,990 in 1909-1910 which indicates satisfactory progress. Re-vaccinations fell from 325 in 1909-1910 to 220 in 1910-1911; 83·49 of these were successful.

34. There were 164 vaccinators employed against 161; 5 additional vaccinators were employed in Tonk and 1 less in Jaipur. No Vaccination Returns were received from the Kushalgarh Estate in which there was one vaccinator employed in 1909-1910.

35. The average number of operations performed by each vaccinator fell from 1,587 to 1,581 but the work varied in different States from 3,382 operations in Sirohi to 471 in Jaisalmer.

36. The diminished number of vaccinations in Jaipur, Bharatpur and Mewar was due entirely to stoppage of work on account of plague which was epidemic throughout these States.

37. In Alwar in spite of plague, the number of vaccination increased.

38. The Residency Surgeon, Western Rajputana States, reports that of the work performed in Marwar, 795 primary vaccinations were done by the Sub-Assistant Surgeons in the Marwar Dispensary Towns with a percentage of success of 97·48. The Sub-Assistant Surgeons in the Sirohi State performed 299 operations and the Sub-Assistant Surgeon at Jaisalmer 40 only.

STATEMENT II.

39. The total expenditure on vaccination in Native States was ₹29,978-4-9 compared with ₹29,070-0-6 in 1909-1910 an increase of ₹908-4-3 which is due

to the increased expenditure on establishment and contingencies. The average cost of each successful vaccination in different States varied from 10 pies in Sirohi to 147 pies in Jaisalmer which is due to the fact that there is only a small population living in villages scattered over a large area.

40. During the year under report a revised scale of pay of vaccinators was introduced in the Eastern Rajputana States according to which a vaccinator can by degrees rise to R15 a month, the maximum pay previously being R12 per mensem.

41. The following table shows the number of towns and villages and successful vaccinations seen by Residency or Agency Surgeons in Native States :—

Designation.	Number of towns and villages inspected.	Number of succesful vaccination cases seen.
Residency Surgeon, Jaipur	304	6,259
Agency Surgeon, Kotah and Jhalawar . . .	495	3,467
Agency Surgeon, Eastern Rajputana States . .	263	3,045
Civil Surgeon, Bikaner	7	2,944
Residency Surgeon, Mewar	83	2,863
Agency Surgeon, Alwar	254	2,582
Residency Surgeon, Western Rajputana States .	20	1,397
Agency Surgeon, Haraoti and Tonk . . .	5	200
Agency Surgeon, Kherwara, and Medical Officer Dungarpur.	3	74

42. The Native Superintendents of vaccination or other Inspecting Officers inspected 96,025 vaccinations against 112,617 in the preceding year. The percentage of inspected cases found successful to total number seen in 1910-1911 was 98·65 against 99·22 in 1909-1910.

43. Lymph is generally maintained throughout the year in most of the important States by arm to arm vaccination, but glycerinated vaccine lymph was obtained during the year under report from the Government Bovine Lymph Depôts and proved generally successful.

44. Fresh buffalo lymph is also used in many States with good results.

SECTION II.—DISPENSARIES.

STATEMENT A.

Number of Dispensaries.

45. The year opened with 170 hospitals and dispensaries and closed with 171, an increase of 1 the Southern Rajputana Agency Hospital.

46. The dispensaries are classified as under :—

I. State Public	9
II. State Special	12
Private non-aided, *i.e.*, Native States	150

Besides these there are six Mission and six Railway dispensaries open for the treatment of patients.

47. *Ajmer.*—The sum of R1,167 was expended in 1910 upon the construction of servants' quarters and certain improvements and repairs in the Victoria Hospital.

48. *Jodhpur.*—New buildings were provided for the 1st Branch Dispensary, Jodhpur City, and for the Pali Dispensary, both these were occupied during the year.

49. *Alwar.*—A hot and cold water-supply has been laid on to the Alexandra Hospital, paid for out of savings on the Medical Budget. Estimates to complete the wards, lighting and compound have been submitted to His Highness the Maharaja for sanction.

50. *Bharatpur.*—The new building for the Female Hospital at Bharatpur is still under construction.

51. *Kotah.*—The new dispensary buildings at Bakani and Manoher Thana have not yet been completed. A new dispensary building has been sanctioned for Chechat.

52. *Jhalawar.*—The dispensary building at Dag has not yet been completed.

53. *Dungarpur.*—Quarters for the dispensary establishment, a cook-house, a store room and well in the dispensary compound have been added.

STATEMENT B.

Medical Relief.

54. There were 1,474,377 patients treated at the Ajmer-Merwara and the Native States dispensaries and hospitals against 1,545,204 in 1909 and 1,562,319 in 1908, this decrease is chiefly due to a healthier year. Of the total number of patients treated 17,608 were in-door and 1,456,769 out door-against 19,141 and 1,526,063 respectively in the previous year. The total deaths fell from 730 in 1909 to 675 in 1910.

STATEMENT C.

55. Under the orders contained in Government of India, Home Department letter No. 380—388, Medical, dated the 1st April 1910, the revised Annual Dispensary Statements C (*i*) and C (*ii*) have been prepared in accordance with the 4th edition of the Nomenclature of Diseases, 1906, and adopted in the Annual Report of Civil Hospitals and Dispensaries in Rajputana and Ajmer-Merwara for 1910.

56. In accordance with the instructions contained in the Government of India Home Department Memorandum No. 1056—1065 (Medical), dated the 14th September, 1910 "Pyrexia of uncertain origin" has been shown by itself in column 12 of the revised forms C(1) and C(2) and that the heading "All other infective diseases" has been removed from its present position in the forms and placed by itself as the heading of an additional column which follows the column headed "other tubercular diseases," in the forms.

STATEMENT C (1).

57. Shows the diseases for which in-patients were treated in the hospitals and dispensaries in Rajputana in 1910. There were 17,608 in-patients treated of whom 675 proved fatal. Forty-three normal and 45 abnormal confinements were reported from hospitals as compared with 110 and 52 respectively in 1909.

STATEMENT C (2).

58. Shows the diseases for which out-door patients were treated in the hospitals and dispensaries in Rajputana. There were 1,456,769 cases treated during the year under report.

SCURVY.

59. There were 1,087 scurvy cases treated against 1,147 cases in 1909.

LEPROSY.

60. There were 426 patients treated for leprosy in the Rajputana hospitals and dispensaries as compared with 500 in 1909, and 431 in 1908. The following reports on the use of "Nastin" have been received.

Special treatments.

61. At Jaipur "Nastin" was used from July in 10 cases, some improvement was noticed in all cases but as the treatment is long and tedious, the lepers generally

tire of it; severe epistaxis was reported in two cases. Chalmogra oil was taken internally and locally applied to the sores. B. I. Nastin was used chiefly throughout the treatment.

62. "At Alwar four cases were regularly treated and all are reported to show decided improvement, the treatment was being continued, the injections were given once weekly."

"On C. C. B. O. Nastin for three weeks, then B. I. for three weeks and afterwards B. 2. o apparent re-action either local or general was noted. No other treatment was combined with the injections. Except patients are under control in an institution or belong to the better class the full results of the Nastin treatments are difficult to gauge, certainly all patients expressed a marked feeling of well being during the course, acid fast bacilli could still be found in the ulcerations up to the submission of the report."

63. All Medical Officers serving in Rajputana have been asked to try the treatment and report the results.

Relapsing fever.

64. There was a mild outbreak of this disease in the jail, regiments and in the City of Alwar. The Agency Surgeon, Alwar, reports that "the disease was of a severe type and was easily diagnosed by the recognition of the spirochoets in the blood. It is of interest to note that the occurrence of the disease coincided with the outbreak of an epidemic of bugs but the careful examination of many of these insects failed to reveal the parasite in their intestine.

Snake-Poisoning.

65. Calmette's Anti-Venine is kept in stock for the treatment of snake bite and Lauder Brunton's lancets fitted with Permanganate of Potash have been largely indented for.

Cancer.

66. Reports on cancer investigation have been necessarily incomplete owing to local difficulties in research and no remarks of any special value can be deduced from them.

Plague.

67. During the year from 1st April 1910 to 31st March 1911, 38,809 cases of plague and 32,523 deaths were reported and 871 towns and villages were infected in Rajputana including Ajmer-Merwara District as compared with 30,549 cases and 26,223 deaths and 627 towns and villages in 1909-1910. The percentage of total plague deaths of population was 1·32, *vide* table attached against 0·99 in the previous year.

68. Twelve thousand one hundred and thirty two anti-plague inoculations were done during the year under report at the following places:—

Ajmer City	1,050
Jaipur City	126
Kishangarh City	259
Jodhpur City	25
Marwar State	2,126
Alwar City	4,188
Bharatpur City	1,511
Udaipur City	1,751
Mewar State	120
Deoli Cantonment	976
Total	12,132

Plague existed in Rajputana throughout the year and is still prevalent.

69. In the Ajmer-Merwara District there were 989 seizures and 918 death reported against 8,746 cases and 7,929 deaths in 1909-1910. There were 95 infected villages in the District as compared with 196 in 1909-1910. The disease

Ajmer-Merwara.

was in existence in the Ajmer District throughout the year excepting in June and July but totally disappeared from Merwara in May. It was most prevalent in April 1910.

70. People are learning the value of evacuation of infected quarters and generally leave their houses of their own accord when dead rats appear about. This early evacuation is naturally more freely practised in the villages than in the towns.

71. Considering the high degree of immunity afforded by inoculation it is remarkable that people are still so reluctant to avail themselves of this valuable protection.

72. The special staff engaged on plague duty in the Ajmer-Merwara District was abolished on 1st July 1910, with the exception of one Sub-Assistant Surgeon for duty in the Plague Camp at Ajmer as well as to visit infected villages, to inoculate and advise the inhabitants regarding sanitation generally.

73. The plague Inspecting Staff at the Ajmer railway station was also abolished on the 16th September 1910, as its existence was not considered of much value in view of the fact that the Ajmer and Merwara Districts are surrounded by Native States generally plague infected and that the disease is introduced chiefly by apparently healthy persons by means of infected fleas in their bedding and clothing.

74. Disinfection continued to be practised as before. Houses or quarters are emptied, the floors treated with kerosine emulsion, walls are whitewashed, light and air being admitted as far as circumstances permit.

Native States.

75. There were 37,820 cases of plague and 31,605 deaths reported from Native States during 1910-1911 against 21,803 cases and 18,294 deaths in 1909-1910.

76. The epidemic affected 14 States and 776 towns and villages including the Deoli Cantonment against 10 States and 431 towns and villages in the previous year, *i.e.*, out of 19 Native States in Rajputana from which returns are received only 5 States were free from the disease.

77. *Jaipur.*—Plague continued in epidemic form in the State of Jaipur from 1st April 1910 to 7th June and again from 4th August to 31st March 1911. Ten thousand and forty seven cases and 9,371 deaths were reported in 164 towns and villages as compared with 7,552 cases and 6,898 deaths in 144 towns and villages in 1909-1910. In the City of Jaipur there were 761 attacks and 761 deaths in 1910-1911. The disease was in an epidemic form in April 1910 and ceased by the end of May.

78. In Alwar, 9,040 cases and 7,249 deaths were reported in 161 towns and villages (of these 2,486 cases and 2,076 deaths occurred in the city of Alwar) against 1,302 seizures and 991 deaths in 33 towns and villages in 1909-1910.

79. In Bharatpur 6,751 cases and 5,821 deaths were reported in 174 infected towns and villages against 5,235 cases and 4,311 deaths in the previous year, of these only 52 attacks and 35 deaths occurred in the City of Bharatpur.

80. In Marwar 4,245 cases were reported of which 3,455 proved fatal in 100 towns and villages against 4,628 cases and 3,911 deaths in 95 towns and villages in 1909-1910.

81. In Mewar 3,605 seizures and 2,314 deaths were reported in 128 infected towns and villages including 225 cases occurred in Udaipur City, of which 211 proved fatal, against 2,208 cases and 1,566 deaths in the previous year.

82. In Tonk 3,489 cases were reported in nine infected towns and villages of which 2,924 proved fatal.

83. In Bikaner plague broke out in April 1910 and ceased in May. One hundred and three cases and 77 deaths were reported in eight towns and villages in the Lunkaransar, Hanumangarh and Nohar Tahsils as the inhabitants of these Tahsils were in constant communication with infected towns of the Punjab, by road as well as by railway. At Lunkaransar the disease was imported from Sirsa where a marriage party had gone in March.

84. *Jhalawar.*—Plague was imported into the Jhalawar State from Garoth in the Indore State. The first case occurred at Sarod in the Tahsil of Pachpahar on the 28th March, the last on the 18th April 1910. The disease fortunately remained localised to Sarod and there were no cases in any other part of the State. Total cases 13 were reported of these 7 proved fatal.

85. The disease was in existence in Mewar, Alwar and Marwar throughout the year as well as in Jaipur and Bharatpur except in July and August. It is still in existence in a less degree in these States.

86. In the infected villages of the Native States, evacuation, disinfection and segregation was carried out, also freely airing and exposing to the sun all garments, bedding, grain, etc., removed from evacuated houses. Evacuation was the most popular of the methods employed against the disease and was readily resorted to by the villagers when rats were found dying or plague appeared.

87. Inoculation was carried out in the places mentioned above (paragraph 68) but was steadily opposed by the majority of the people in the Native States on account of their prejudices and ignorance of the connected facts with it.

88. Pamphlets in English and Vernacular were circulated and distributed widely throughout the towns and villages.

89. Measures for rat destruction can seldom be adopted in the Native States as the people are against the practice.

90. A plague map showing the districts where outbreaks occurred, the date of the first and last cases and the death-rate per 10,000 of population is attached.

STATEMENT F.

91. From this statement it will be seen that 801,036 men, 285,965 women, 231,214 male children and 156,162 female children were treated as compared with 844, 158; 316, 887; 229, 747; and 154,412 respectively in the previous year.

Class and sex of patients.

STATEMENT G.

92. During the year under report a total number of 68,446 operations were performed on 68,177 persons in Ajmer-Merwara and in Native States against 67,178 operations done on 66,969 persons in the previous year. The cures amounted to 67,356, the numbers relieved 332, discharged otherwise 181, and died 90 against 66, 180, 286, 182 and 81 respectively in 1909 while 218 remained under treatment on 31st December 1910 as compared with 240 in 1909.

93. Of the operations performed 1,460 were extractions of the lens for cataract of which 1,178 or 80·70 per cent. proved successful, 38 lithotomies, 145 litholapaxies and 189 amputations against 1,587 extractions of the lens for cataract, 48 lithotomies, 149 litholapaxies and 158 amputations in 1909.

94. There were 375 abdominal operations performed of which 6 were laparotomy with 3 deaths 4 abdominal sections with 2 deaths, 15 for abscess of liver with 1 death and 28 hernia with 2 deaths.

95. It is worthy to note that the operative work during 1910 shows a satisfactory increase in spite of plague being epidemic during the greater part of the year.

STATEMENT H.

96. Shows the income and expenditure of Government dispensaries and hospitals and the expenditure only on those in Native States.

97. The total income of hospitals and dispensaries in Ajmer-Merwara was Rs20,495 as compared with Rs19,686 in 1909, this increase is due to the fact that arrears of contribution were paid by certain Istimirardars and Jagirdars. The cash balance at the close of the year stood at Rs4,707. The value of the invested capital of the dispensaries in this division remained the same as in 1909.

98. In Ajmer-Merwara the total expenditure fell from Rs17,104 in 1909 to Rs15,866 in 1910 which shows a marked decrease in expenditure under head "Dieting" but the expenditure under heads "Buildings and Repairs" rose from Rs1,146 in 1909 to Rs1,296 in 1910.

99. The expenditure of the Victoria Hospital at Ajmer under head "Building and Repairs" rose from Rs598 in 1909 to Rs1,160 in 1910, owing to the constructions of servants' quarters and certain improvements and repairs in the hospital building.

100. The total expenditure on hospitals and dispensaries in Native States of Rajputana rose from Rs363,854 in 1909 to Rs372,397 in 1910 which is due to increase under all heads except under column "Dieting."

Native States.

101. Of the total cost on hospitals and dispensaries in these States ₹76,973 were expended in Jaipur, ₹50,588 in Marwar, ₹40,095 in Bharatpur, ₹37,735 in Mewar, ₹37,313 in Kotah, ₹36,238 in Bikaner, ₹28,718 in Alwar, ₹10,785 in Tonk, ₹9,391 in Jhalawar, ₹8,043 in Dholpur, ₹5,669 in Karauli, ₹3,573 in Kishangarh, ₹3,481 in Dungarpur, ₹3,395 in Banswara, ₹3,310 in Sirohi, ₹2,423 in Jaisalmer, ₹2,326 in Bundi and ₹2,142 in Partabgarh.

102. The average cost of each case treated in Ajmer-Merwara and in the Native States hospitals and dispensaries was 43 pies and 52 pies respectively against 39 pies and 48 pies in 1909.

103. In accordance with the sanction of the Hon'ble the Agent to the Governor-General, Rajputana, the Government Sub-Assistant Surgeon was withdrawn on account of the financial position of the Kushalgarh Estate: no annual returns of dispensary and jail of the Estate for 1910 have been received.

Mission Hospitals.

104. During the year under report the number of Mission Hospitals in Rajputana was the same as in 1909, *viz.*, six.

105. The following table shows the total number of in and out-door patients treated and operations performed in these institutions in 1910:—

Name of Hospital.	Out-door patients.			In-patients	Operations	Remarks.
	Old cases.	Newcases.	Total.			
Ajmer (Male)	67,911	16,587	84,498	47	1,337	
Ajmer (Female)	8,610	3,655	12,265	217	216	1,830 were visited at their homes.
Nasirabad	17,306	7,245	24,551	200	103	
Udaipur	27,983	13,760	41,743	262	1,162	
Jodhpur	123,528	10,617	134,145	79	1,093	386 were visited at their homes.
Piploda	5,473	2,576	8,049	..	97	173 were visited at their homes.
Total	250,811	54,440	305,251	805	4,008	

106. These figures are for the Mission financial year from 1st October 1909 to 30th September 1910.

Railway Hospitals.

107. There were six Railway Dispensaries on the Rajputana Malwa Railway within the limits of Rajputana, *viz.*, 1 at Abu Road, 1 at Sojat Road, 2 at Ajmer, 1 at Phalera and 1 at Bandikui.

108. There were 607 in and 30,119 out-door patients treated and 835 operations performed as per detail below against 797 in and 32,304 out-door patients and 636 operations in the previous year.

Station.	Number of in-patients treated.	Number of out-patients treated.	Operations performed.
Abu Road	119	2,978	127
Sojat Road	....	2,078	104
Ajmer	127	13,511	283
Phalera	119	6,816	229
Bandikui	242	4,736	92
Total	607	30,119	835

109. One thousand and nineteen patients were visited at their homes at Ajmer.

C

JAILS.

110. *Ajmer.*—The daily average number of prisoners in the Ajmer Jail fell from 340·45 in 1909 to 296·65 in 1910. The total number of admissions into hospital and the daily average number of sick during the year under report was 219 and 7·78 against 175 and 5·93 in the previous year. The number of deaths fell from 7 in 1909 to 3 in 1910. Although the admission rate is somewhat higher the smallness of the mortality is very satisfactory. Only 3 deaths occurred amongst the convicts, due to Hyperæmia of intestines (1), pneumonia (1), and chronic Diarrhœa (1).

Additions and alterations to buildings.

111. The following additions and alterations to buildings were made during the year by the Public Works Department at a cost of R3,115-2-6.

(1) Pacca sleeping berths in jail barracks.

(2) Masonry drains in front of barracks Nos. 10 to 14 and old cells.

(3) A verandah to jail dead house.

(4) Kit racks to guard room.

112. The Review by the Commissioner, Ajmer-Merwara, on the strength, classification, health, employment, and conduct of prisoners, nature of sentences, jail manufactures and expenditure of the Jail is given as Appendix A of the report together with statements.

Native States.

113. The daily average number of prisoners in the Jails in the Native States fell from 4,194·91 in 1909 to 3,944·60 in 1910, the number of admissions to hospitals from 1,726 to 1,502 and the mortality from 112 to 77.

114. There was no cholera or other epidemic disease in any of the jails in Rajputana in 1910.

115. There were no deaths in the jails at Jhalrapatan, Jaisalmer and Pertabgarh.

116. *Jaipur.*—There has been no overcrowding in the Central Jail throughout the year.

117. The total number of cases admitted into hospital fell from 236 in 1909 to 197 in 1910, the daily average number of sick from 11·81 to 10·56, the mortality from 15 to 8 and the ratio per mille of average strength from 30·25 to 15·11. In the District Jail there were only 2 deaths as compared with 6 deaths in 1909. The steady improvement in the health, condition of the prisoners and the management of these Jails still continues.

118. *Jodhpur.*—The mortality in this jail decreased from 13 in 1909 to 4 in 1910, deaths were due to dysentery 1, tubercular diseases 1, respiratory diseases 1, and scurvy 1.

119. *Bikaner.*—The jail is in excellent order. There were only 3 deaths against 4 in 1909.

120. *Alwar.*—The health of this jail has improved considerably within the year. The daily average number of prisoners rose from 432·33 in 1909 to 464·81, but the total number of cases admitted into hospital fell from 129 in 1909 to 76 in 1910, the mortality from 10 to 4 and the death rate per mille from 23·13 to 8·60.

121. *Udaipur.*—There has been overcrowding throughout the year. The mortality and death-rate rose from 10 and 20·14 in 1909 to 20 and 40·53 in 1910.

122. The Residency Surgeon reports "that in September an outbreak of acute phthisis appeared in the jail of 16 prisoners who contracted the disease, 7 died; a separate shed was erected to segregate and treat these cases." The 20 deaths occurred were due to the following causes:

Pneumonia 1, phthisis 8, dysentery 3, diarrhœa 1, cirrhosis of liver 2, Brights disease 2, old age and debility 2 and surgical kidney and calculus 1.

123. The daily average number of sick during the year was 5·98. The ratio of deaths per mille was 40·53.

124. *Partabgarh.*—The new jail was opened on the 14th April 1910 and the prisoners from the old jail were transferred to it. There was no death amongst the prisoners of this jail.

125. *Banswara.*—There was only one death amongst the inmates of this prison as compared with 6 in 1909.

126. *Dungarpur.*—The health of the prisoners in the jail was satisfactory. The daily average number of prisoners fell from 65·78 in 1909 to 61·04 in 1910 and the total admissions into hospital fell from 81 to 62 only in 1910.

Qualified Medical Staff.

127. There were 11 Commissioned Medical Officers employed in Rajputana at the end of the year. The appointment of the Medical Officer on special plague duty in the Ajmer-Merwara District was abolished on the 29th April 1910, on the transfer of Major W. R. Battye, I.M.S., to Udaipur as Residency Surgeon, Mewar.

Commissioned Medical Officers.

128. Lieutenant-Colonel P. Durrel Pank, I.M.S., held charge of the duties of the Residency Surgeon, Jaipur, from 1st January to 16th May 1910, when he retired on pension. Lieutenant-Colonel W. H. B. Robinson, I.M.S., held charge from 17th May to 25th November and Major J. Fisher D.S.O., I.M.S., from the 26th November to the end of the year.

129. Lieutenant-Colonel R. C. Macwatt, I.M.S., Residency Surgeon, Western Rajputana State, Jodhpur, held charge of the current duties of the office of the Civil Surgeon, Bikaner, in addition to his own, from 15th May to 26th August 1910 when Major J. W. Watson was posted as Civil Surgeon, Bikaner.

130. Consequent on the retirement from the service of Lieutenant-Colonel H. N. V. Harington, I.M.S., on the 27th November 1910, Lieutenant-Colonel W. H. B. Robinson, I.M.S. was appointed as Residency Surgeon and Chief Medical Officer in Rajputana, with effect from the 28th November 1910.

131. The Civil Surgeon, Ajmer holds collateral charge of the 44th Merwara Infantry, the Agency Surgeon, Haraoti and Tonk, is similarly in additional charge of the 42nd Deoli Regiment, the Agency Surgeon, Kherwara is in Medical Charge of the Dungarpur State and the Medical Officer, 43rd Erinpura Regiment inspects the Shoganj Dispensary adjacent to the Cantonment of Erinpura.

Additional Charge.

132. Doctor D. G. Newland, L.R., C.P. & S., Edinburgh, was on plague duty at Abu Road throughout the year. Owing to the abolition of the Medical Inspection of passengers at the Ajmer Railway Station the services of Honorary Captain W. Thompson were dispensed with from the 16th September 1910.

133. *Military Assistant Surgeons.*—Assistant Surgeon H. F. de-Penning reverted to his Military appointment at Bareilly in July 1910 on the disappearance of plague in the Ajmer-Merwara District. Assistant-Surgeon A. W. Dyer was in charge of the Northern India Salt Revenue Dispensary at Sambhar up to 31st August, 1910 when he was transferred to the Baster State in Chattisgarh Division and Military Assistant Surgeon R. J. K. Stone, I.S.M.D., took over charge of that dispensary on the forenoon of the 19th September 1910.

134. *Civil Assistant-Surgeons.*—There were five Government Assistant-Surgeons, two employed in the Ajmer-Merwara District, one at Jaipur, one at Khetri, and one at Bharatpur.

135. In accordance with the orders of the Government of India the title "Sub-Assistant-Surgeon" has been adopted in lieu of "Hospital Assistants."

136. *Military Sub-Assistant Surgeons.*—The following Regiments, Imperial Service Corps in Rajputana have Military Sub-Assistant Surgeons attached to them :—

Alwar 1st Lancers . . .	2	Bharatpur Infantry .	2
Alwar Fateh Paltan . .	2	Jaipur Transport. .	1
Bharatpur Transport . .	2	Bikaner Camel Corps .	1

137. In the two Jodhpur Imperial Service Regiments, medical arrangements are made by the State.

138. The Mewar Imperial Service Squadron was put in medical charge of the Sub-Assistant-Surgeon attached to the Central Jail Hospital, Udaipur, for such time as the squardon is stationed in the lines near the Jail.

Civil Sub-Assistant-Surgeons.

139. On the 31st December 1910, there were 185 Government Sub-Assistant Surgeons on the rolls against the sanctioned strength of 195, there being 10 vacancies, 2 on the Government reserve list and 8 on the Native States reserve list. Out of 195 Sub-Assistant Surgeons, 23 were permanently employed on the Government List and 172 working in the Native States. There is now only one local class Native Doctor and one locally entertained Sub-Assistant Surgeon under this Department, against three and one respectively in 1909, two of the Native Doctors were replaced by qualified Government Sub-Assistant Surgeons owing to the transfer of one to the Vaccination Department in Mewar and to the death of another in Bharatpur.

140. *Lady Doctors.*—The following States employ a Lady Doctor as Superintendent of the Zenana Hospital or in medical charge of the women's wards at Jodhpur, Jaipur, Alwar, Tonk, Kotah and Udaipur.

141. *Female Hospital Assistants.*—There were 11 Female Hospital Assistants attached to the women's wards and female hospitals at the following institutions as in the previous year:—

Jodhpur	Jaswant Hospital for women	1
,,	Hewson Hospital	1
Alwar	Lady Dufferin Hospital	2
Kotah	Victoria Jubillee Hospital	1
Tonk	Walter Female Hospital	1
Udaipur	Walter Zenana Hospital	1
Bharatpur	Victoria Hospital	1
Jaipur	Mayo Hospital	1
Bikaner	Bhagwan Das Hospital	1
Beawar	Beawar Dispensary	1

Female Hospital and Dai Class.

142. There is no qualified female Hospital Assistant appointed to the medical charge of the female wards of the Victoria Hospital, Ajmer, for want of funds. A Lady Doctor superintends the Mission Hospital for women where many patients are treated.

143. *Beawar.*—Female Hospital Assistant Mrs. J. Martin was in charge of the female ward of the Charitable Dispensary throughout the year. There was a decrease in the number of both in and out-patients as compared with the figures in 1909, which was probably due to plague at Beawar for the first four months of the year.

144. *Native States.*—The returns received from the female hospitals in the Native States of Rajputana show on the whole a considerable decrease of work done during the year under report which is probably due to plague and the decrease of malarial fevers.

145. *Alwar.*—Miss. T. Canagasaby, L.R.C.P. & S., was in charge of the Dufferin Hospital at Alwar till the 24th June 1910, when she resigned and was relieved by Female Hospital Assistant Bala Bai. Mrs. C. S. Gaudoin was appointed as Lady Superintendent to the hospital from the 15th August 1910. There were 307 in and 11,786 out-door patients treated against 300 in and 14,212 out-door patients in the previous year, a decrease of 2,426 in the attendance of out-patients which is mainly due to there being no Lady Doctor for about two months of the year as well as to the non-prevalance of malarial fevers.

146. There were 442 operations performed against 426 in 1909.

147. The Dai class was re-opened on 15th January 1910, there is only one dai pupil.

148. *Jodhpur.*—Miss. J. Marsh, M.D., held charge of the Jaswant Hospital for women at Jodhpur throughout the year. There was a decease of 702 in the attendance of both in and out-door patients, due to a healthier year.

149. Three hundred and seventy-seven operations were done against 383 in 1909.

150. Female Hospital Assistant, Mrs. Elias, resigned her post in June and her place was filled up by Miss Hannal Paul, trained in the Medical Mission School, Ludhiana, in the Punjab.

151. A dark room has been arranged for optholmoscopic and laryngeal examinations, etc., and a Mackenzie rack movement lamp with bulls-eye lens frontal chimney has been supplied from England by the generosity of His Highness the Maharajah.

152. *Kotah.*—Miss J. Newton, L.R.C.P. & S., has been in charge of the Victoria Jubillee Hospital at Kotah throughout the year. There was a considerable increase in the number of out-door patients treated in the hospital. There were 340 operations performed against 293 in 1909.

153. Female Hospital Assistant, Miss Helen Buldeo Singh, is popular and liked by the women of Kotah.

154. Three Dais passed the examination conducted by the Agency Surgeon with credit during the year and are now receiving R2 per mensem as bonus money, the fourth being dull did not go up for examination.

155. The Agency Surgeon expects more women to be admitted in the class next year from the various Nizamats, who, after they have undergone a course of instruction will be attached to the dispensaries of their District so that the Sub-Assistant-Surgeon may have their services whenever necessary.

156. *Tonk.*—Miss K. Reed, L.R.C.P. & S., Edinburgh, has been in charge of the Walter Zenana Hospital throughout the year. There were 237 in and 6,748 out-door patients treated against 279 in and 8,922 out-patients in 1909, this considerable decrease is due to the severe epidemic of plague in the Tonk City. There were 331 operations done as compared with 378 in the previous year.

157. *Udaipur.*—Female Hospital Assistant Shitabo Bai was in charge of the Walter Female Hospital at Udaipur till the 17th January 1910, when Miss McGlashan, M.B., Ch. B., returned from leave and resumed charge of the hospital. There was a falling off in the number of both in and out-door patients treated as compared with the previous year which is due to the severe outbreak of plague in the Udaipur City during the year under report.

158. There was an increase in the number of patients visted at their homes which it is hoped means that purdah women patients may in time take more advantage of the presence of female medical aid. The Lady Doctor states that the Female Hospital Assistant is well received amongst the purdah-nashin ladies.

159. *Jaipur.*—Miss L. E. Sykes, M.D., has been in charge of the female wards of the Mayo Hospital at Jaipur throughout the year. There was a decrease in both in and out-door patients and in those who were visited at their houses, owing to the severe epidemic of plague in Jaipur City during the year under report. Operations on women were 569 as compared with 689 in 1909.

160. The compounding, dressing and nursing work in the female wards is now done by females only.

161. During the year the old class for illiterate hereditary Dais has been abolished and some educated girls were secured for this training. At present a class of 4 such pupils has been opened and it is proposed that under Miss Sykes, M.D., in addition to midwifery they will be taught compounding of medicines, dressing of surgical cases and sick nursing so as to render them as efficient as possible for the mixed duties of any hospital. These pupils get their scholarship at R4 per mensem from the funds of the Jaipur State.

162. *Bharatpur.*—Female Hospital Assistant Bibi Rup Kunwar has been in charge of the Female Hospital at Bharatpur throughout the year. There were 370 in and 8,080 out-door patients treated in 1910 against 422 in and 7,672 out-door patients in 1909.

163. The new buildings for this hospital are under construction.

164. *Bikaner.*—Female Hospital Assistant, Mrs. Elizabeth Moji Ram, was in charge of the female wards of the Bhagwan Das Hospital, Bikaner, from 1st January to 2nd February and from 1st October to 31st December 1910. Meanwhile, she had resigned her post on account of her state of health.

165. There were 170 in and 7,190 out-door patients treated as compared with 197 in and 9,595 out-patients in the previous year, this considerable decrease is due to the fact that there was no female Hospital Assistant in charge for about 8 months.

166. *Dai Class, Ajmer.*—Mrs. M. Kane, Lady Superintendent, has been in charge of the Dai training class, Ajmer, throughout the year. The 4 pupils who were under training at the beginning of the year under report were examined by the Civil Surgeon, Ajmer, on the 27th April 1910; all of them passed and obtained their certificates and the usual honorarium given to successful candidates.

167. Only 4 local pupils from Ajmer were admitted into the class in July 1910 as no pupils from the Native States came for training in spite of the Local Government's request to the various Durbars.

168. During the year 17 in-door and 49 out-door patients were treated, all these were maternity cases. Eighty-eight persons sought advise and treatment for various other complaints.

Imperial Service Troops.

169. The three Regiments of Cavalry, the Camel Corps, the two Transport Corps and the two Regiments of the Imperial Service Infantry af Alwar, Jodhpur, Bikaner, Jaipur and Bharatpur have well-equipped hospitals. These hospitals are in medical charge of qualified Military Sub-Assistant-Surgeons with the exception of the two regiments, Imperial Service Lancers at Jodhpur which are in medical charge of State entertained Assistant-Surgeons. The Mewar Imperial Service Squadron at Udaipur has been put in medical charge of the Civil Sub-Assistant-Surgeon attached to the Jail Hospital there for the time it is stationed in the lines near the Central Jail.

Insanes.

170. *Ajmer.*—There were 3 lunatics in the Central Jail, Ajmer, on 1st January, 1910 and 16 were admitted during the year. Of these 6 were transferred to the Lunatic Asylum at Lahore, 6 were made over to their friends and relatives, 5 discharged as cured and 1 died. Only one lunatic remained at the Jail at the close of the year.

171. *Native States.*—There were 194 lunatics treated in 1910 of whom 34 were cured, 9 made over to their friends, 25 discharged otherwise, 1 transferred to the Agra Asylum from Kotah, 16 died and 109 remained under treatment.

W. H. B. ROBINSON, *Lieutenant-Colonel, I.M.S.,*
Residency Surgeon and Chief Medical Officer,
Rajputana.

Mount Abu:
The 2nd June, 1911.

Table showing the severity of the epidemic in certain Native States and Ajmer-Merwara District as well as the rapidity of its spread in recent years and the percentage of total plague deaths to population since 1896.

Serial Number.	Name of District or State.	Particulars regarding epidemics up to 31st March 1908.			Outbreaks of 1909—1911.						Total Number of Plague cases and deaths.		Population according to the census of 1901.	Percentage of total plague deaths to population.

APPENDIX A.

REVIEW OF THE AJMER JAIL REPORT FOR THE YEAR 1910.

The charge of the office of the Superintendent, Central Jail, was held throughout the year by Lieutenant-Colonel H. R. Woolbert, I.M.S.

Population.	
*Convicts	275
Undertrials	31
	306

†(Including 25 received from other Jails).

(2) At the commencement of the year there were *306 prisoners including convicts and undertrials. The number of persons admitted to Jail during the year was 1,065 of whom† 546, were convicts (against 580 in 1909) 500 undertrials and 19 Civil prisoners.

The number of prisoners discharged from all causes during the year was 1,107, *i.e.*, 587 convicts (against 644 in 1909), 502 undertrials and 18 Civil prisoners.

The number of prisoners remaining at the end of the year was 264, *viz.* 234 convicts (against 275 in 1909), 29 undertrials and 1 Civil prisoner.

The daily average number of prisoners was 296·65, *i.e.* :—

Convicts	272·40	against 308·45 in	1909
Undertrials	22·90	„ 30·26	„
Civil prisoners	1·35	„ 1·74	„

Disposal of convicts.

(3) The following table compares the disposal of convicts (587) during the year under review with that of the preceding year :—

Particulars.	1909.	1910.	REMARKS.
Released on appeal	26	24	
Released on expiry of sentence	446	388	
Released on payment of fine	42	47	
Released under remission rules	102	101	
Transferred to other Jails	23	24‡	‡ (Was transferred for transportation beyond seas).
Transferred to Andamans	..	..	
Died in Jail	5	3	
TOTAL	644	587	

(4) Excluding the 25 prisoners received from other Jails, the remaining 521 convicts admitted in the Jail are classified as follows :—

Classification of convicts.

Mahomedans	136
Hindus	383
Eurasians	2
Agriculturists	163
Labourers	127
Shopkeepers and traders	59
Domestic servants	44
Miscellaneous occupations	2
Government servants	17
No occupation	25
Railway employes	40
	477

According to age classification 25 were under 16 years, 439 between 16 and 40 years, 50 between 40 and 60 years and 7 above 60 years of age. Of the 477 male convicts the majority as will be seen by the detail in the margin were agriculturists and labourers.

There were 44 female convicts as against 42 in the previous year.

(5) Of the said 521 convicts admitted during the year 93 were awarded simple imprisonment, 412 rigorous imprisonment as against 82 and 486 in 1909. Solitary confinement was awarded to 15 convicts in addition to rigorous imprisonment and rigorous imprisonment with whipping was inflicted in 1 case.

Nature of Sentences.

The number of convicts sentenced to terms of imprisonment not exceeding one month was 194; exceeding one month but not exceeding three months 132, above three months but not

exceeding six months 105, above six months but not exceeding one year 42, above one year but not exceeding two years 26, above two years but not exceeding five years 13, above five years but not exceeding ten years 7. Two convicts were sentenced to transportation for life.

Previous conviction.

(6) The number of previously convicted prisoners admitted during the year was 110 as compared with 96 in 1909. The percentage of convicts having previous convictions (to the said 521 convicts) was 21·11 as compared with 30·87 in the preceding year.

Employment of convicts.

(7) The daily average number of convicts sentenced to labour on working days was 233·44, of whom 131·49 were employed on manufactures, 37·39 on preparing articles for consumption in Jail, 8·96 on gardening, 13.95 were engaged as prison officers and 30·87 as servants and 9·75 were exempted from labour.

Conduct of prisoners.

(8) The number of Jail punishments of all kinds was 119 as compared with 214 in the preceding year. The discipline of the Jail continued to be good.

The punishments inflicted are classed as below :—

(1) Solitary confinement	8
(2) Reduced diet	20
(3) Corporal punishment	1
(4) Other punishments	90
Total	119

Escapes.

(9) No person escaped from the Jail during the year under review.

Health.

(10) The health of the prisoners was good throughout the year. The number of admissions to the Jail Hospital was 219 against 175 in 1909. There were three deaths as compared with seven in the preceding year.

Juvenile offenders.

(11) There were 26 Juvenile offenders including 1 left at the close of the last year in the Jail as against 5 in 1909. Of these 21 boys and 2 girls were released on expiration of their sentences and 3 boys remained in Jail on the 31st December 1910. Only one offence of a trivial nature was recorded against them during the year against 2 in the previous year.

Jail manufacture.

(12) The profit from Jail manufactures amounted to R2,508-6-5 as against R2,462-4-0 during the preceding year. The average earning per head of prisoners actually employed on manufactures rose from R16-7-7 in the previous year to R19-1-3 during the year under review.

Expenditure.

(13) The total expenditure in guarding and maintaining the prisoners fell from R26,361 in 1909 to R23,226 in 1910 showing a decrease of R3,135. This decrease chiefly occurred under heads "Rations" and "Public Works Charges." The sum includes the charges incurred by Magistrates in guarding and maintaining undertrial prisoners and the expenditure incurred by the Public Works Department, *viz.*, R3,115-2-6 on buildings and repairs. The average cost per prisoner during the year was R78-4-4 as against R77-6-10 in the previous year and R90-13-6 in the year 1908.

Net cost to Government.

(14) Including the cost of undertrial prisoners incurred by Magistrates and deducting R1,707-3-5 payable by Native States on account of their prisoners, the net cost of the Jail to Government was R21,518-12-7 as compared with R23,899 in the preceding year.

General remarks.

(15) The Jail was inspected twice by the Commissioner and Inspector General of Jails, Ajmer, and was visited twice by the Assistant Commissioner, Ajmer.

W. STRATTON, *Lieutenant-Colonel,*
Commissioner, Ajmer-Merwara.

Total	99,425	272·40	275	521	796	25	...	821	23	1	24	388	47	...	...	101	...	...	...	...	3	234

* Of this number 23 boys under 16 years. † Of this number 2 girls under 15 years.

NOTE. 1.—This and the other statements numbered 1 to 7 only convicted prisoners are to be included.
2.—Debtors and others detained for default of Government revenue will appear in No. 8.
3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the year.
4.—The "Total population," column 8, is the sum of column 6 *plus* 7, and necessarily includes many who are counted more than once.
5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the year, *vide* column 2, and dividing the whole by the number of days in the year.
6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.
It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.
7.—When the gangs are employed extra-murally under the orders of Government No. 1692—49, dated 29th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

H. R. WOOLBERT, *Lieut.-Col., I.M.S.*,
Superintendent, Central Jail, Ajmer.

AJMER JAIL OFFICE;
The 20th February 1911.

STATEMENT No. II.—*Statement showing the religion, age, and previous occupation of the Convicts in the Jail at Ajmer for the year 1910.*

Female	...	...	...	6	38	...	...	2	33	8	1															
TOTAL	...	2	...	136	383	...	...	25	439	50	7	...	163	127	59	...	44	3	57	25	26	4	13	1	477	44	521

NOTE.—It is of importance that the particulars given in this, and also in No. 3, should not include the same individual more than once, and hence all transfers should be omitted.
The Totals should correspond with the number in column 5, Statement I: "Imprisoned during the year." But they should do so with the "Total" Column 6, for January only, as the number remaining on the last day of the previous year (31st December) is to be included in that month.

STATEMENT No. III.—*Statement showing the convicts admitted into the Jail at Ajmer during the year 1910 and those remaining on the 31st December of that year, according to the nature and length of sentence.*

The Female column should be filled in italics.

When prisoners of different classes are confined in the same Jail, the expenditure on establishment and other items with which all are concerned should be divided over all. The cost per head under any item of expenditure is to be calculated on prisoners actually concerned in it or contributing to it, and not otherwise. Hospital charges (col. 7) should include rations and also the cost of medicines supplied from the Bazar and the Medical Store Depôt. In this series (Financial) annas and pies are only to be shown where there are columns for them.

STATEMENT No. XII.—*Showing the employment of convicts in the Jail at Ajmer during the year 1910.*

1912

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1911,

AND ON

VACCINATION FOR THE YEAR 1911-1912.

SECTION I.—SANITATION AND VACCINATION.

METEOROLOGY AND ITS RELATION TO FOOD SUPPLY.

Rainfall in Ajmer.

1. During the year under report 8·59 inches of rain were registered in Ajmer against 17·19 inches in 1910, the average for the previous six years being 20·74 inches. The rainfall during the monsoon season from June to September was 9·23 inches less than the previous year when the fall was 16·47 inches during the period.

Rainfall in Native States.

2. The rainfall recorded in Rajputana generally was unusually deficient owing to which both the Kharif and Rabi crops suffered; scarcity of fodder prevailed throughout the province.

VITAL STATISTICS, BIRTHS AND DEATHS.

Births in Ajmer-Merwara.

3. There were 22,700 births registered in Ajmer-Merwara in 1911, against 20,355 in 1910, an increase of 2,345 which is due to a general healthier year. Of the total births registered, 11,984 were males and 10,716 females, the birth rate was 47·60 per mille of population against 42·68 per mille in the previous year. The percentage of male to female births was 111·83 against 113·07 in 1910. The birth rate exceeded the death rate in 17 out of 23 circles against 9 in the previous year.

Deaths in Ajmer-Merwara.

4. During the year there were 21,182 deaths registered in Ajmer-Merwara against 23,882 in 1910, a decrease of 2,700, which is attributed to the absence of plague and malaria. The death rate per mille of population was 44·41 against 50·08 in the previous year.

5. The mortality among children under five years of age was 54 per cent. of the total deaths against 33 per cent. in 1910. Measles and small-pox prevailed during the year. The mortality from small-pox was 1,432 as compared with 78 in the previous year. Of these 1,243 deaths were reported in the Ajmer District and 189 in Merwara, the epidemic was confined to unvaccinated persons.

6. Deaths from bowel complaints also show an increase due probably to the scarcity of rainfall and deterioration of water supplies.

7. Deaths exceeded births in six circles which contain all the larger towns in the district. The Civil Surgeon, Ajmer, reports that "this appears to indicate that registration of births in the towns is defective, another element is bad sanitation in the towns, overcrowding causing tuberculosis, etc."

TABLE I.—*Number of cholera cases and deaths registered in Ajmer-Merwara and Native States of Rajputana during the year 1911.*

Ajmer-Merwara.

8. There were 55 cases of cholera reported in Ajmer-Merwara of which 50 proved fatal. Of these 47 cases with 42 deaths were reported in Ajmer City in November 1911, and eight fatal cases in Pushkar. The disease first broke out in Ajmer City among pilgrims returning from the Pushkar fair. Immediate precautions were taken to check further spread of the disease.

Native States.

9. During the year 90 cases of cholera were reported from the Native States of Rajputana of which 85 proved fatal against 11 cases and 8 deaths in the previous year—of these 36 cases and 33 deaths were reported in Jaipur from 27th June to 17th August, 7 cases and 6 deaths in Bharatpur from 29th September to 4th October, 42 fatal cases in Mewar from 28th November to 31st December and 5 cases and 4 deaths in Marwar from 5th to 6th November 1911.

10. Usual measures for its eradication were taken.

11. No cholera map is necessary.

SANITATION.

12. *Ajmer City.*—Owing to scanty rainfall both the Foysagar and the Anasagar had not a sufficient water supply for the city and suburbs as well as for the railway workshops.

13. Forty-six conservancy carts and 56 trolleys with receptacles have been purchased and 4 new public urinals have been added.

14. The Commissioner, Ajmer-Merwara, reports in connection with the scheme for the improvement of the water supply in the city of Ajmer, that steps are being taken to collect the further information asked for by the Government of India. The Local Government has lately accepted the offer of Messrs. Lane Brown and Hewlett, Civil Engineers, Lucknow, for the preparation of a detailed estimate of the new scheme at a lump sum of ₹7,500 and also sanctioned a sum of ₹15,000 for carrying out pumping tests in the Sagarmati valley during the hot weather of 1912.

15. As regards the scheme for improving the Ajmer trenching ground and night soil system, a Notification under section 6 of Act I of 1894 has been issued by the Local Government, for the acquisition of 4,848 acres of land for enlarging the ground.

16. On the whole the rules for the improvement of village sanitation in the villages of the Ajmer District have worked satisfactorily.

NATIVE STATES.

17. *Jaipur.*—The light railway continues to perform valuable work for all conservancy purposes. Rubbish and city sweepings are burnt in incinerators.

18. Jaipur has an excellent drinking water supply obtained from a series of wells in the river bed and distributed through pipes to most parts of the city; there is also a good well water supply which is carefully supervised.

19. *Jodhpur.*—The water supply throughout the year was good. Tanks and wells in Jodhpur were not filled during the year owing to defective rains.

20. The sanitation is in the hands of the Municipal Committee.

21. *Bikaner.*—Sanitation in Bikaner city is supervised by the Municipal Committee.

22. *Bharatpur.*—A tramway has been nearly completed to carry all excreta, rubbish and sewage water to the trenching ground, some miles away to the west of the city.

23. Corrugated iron rubbish bins have been placed throughout the city, as well as a number of masonry urinals.

24. It is proposed to provide galvanised iron latrines with Bailey's patent moveable seats for the Bharatpur city, some have been supplied during the year and the remainder will be provided in the following year.

25. *Kotah.*—The sanitation of Kotah city is making general progress.

(1) Some of the streets have been paved and drained.
(2) A number of broken down houses have been removed.
(3) The slaughter house has been improved and stone slabs provided for chopping meat.

26. The local sanitary committee at Baran, Sangod, Khanpur, Iklera, Manohar Thana and Bakani have worked very smoothly.

VACCINATION.

STATEMENT I.

27. In Ajmer-Merwara the number of primary vaccinations rose from 13,100 in 1910-1911 to 15,486 in 1911-1912 and re-vaccination from 306 in 1910-1911 to 1,034 in 1911-1912, this increase is mainly due to the small-pox epidemic in the district.

28. The number of vaccinators was 15 and one Native Superintendent, the same as in the previous year, each vaccinator performed an average of 1,108 against 881 vaccinations in 1910-1911 and the cost of each successful case was 38 pies against 47 pies in the previous season.

29. The Civil Surgeon, Ajmer, inspected 506 children against 670 in 1910-1911, all of whom were found successful and the Superintendent at Nasirabad examined 1,411 children against 553 in the previous year—of whom 1,179 were successful.

30. The Native Superintendent inspected 252 villages and examined 7,013 vaccinated children as compared with 6,807 in 1910-1911. The percentage of success amongst cases seen by him was 98·33 against 98·44 in the previous year.

31. The vaccination returns from the Native States show a falling-off in primary vaccinations—this is mainly due to the figures of the Tonk State and the Kushalgarh Estate not being received this year and in a lesser degree to the prevalence of plague in Jaipur, Bharatpur and Mewar. The average total number of primary vaccinations in Native States was 255,325 against 261,739 in 1910-1911. Re-vaccinations rose from 220 in 1910-1911 to 1,199 in 1911-1912 owing to the prevalence of small-pox in epidemic form.

32. In Alwar in spite of plague the number of vaccination increased.

33. There were 158 vaccinators against 165 in the previous year, as the vaccinators employed in Tonk have not been shown in these returns. No vaccinator was employed in Deoli Cantonment during the season vaccinations were performed entirely by the Sub-Assistant Surgeon attached to the Agency Hospital.

34. In the Marwar State 795 primary vaccinations were performed by Sub-Assistant Surgeons in dispensary towns with a recorded percentage of success of 98·74. 172 vaccination operations were done by two Sub-Assistant Surgeons at Sirohi and Sheogunj and 7 at Jaisalmer.

35. The Residency Surgeon, Jaipur, reports that the defects in the vaccination work done in the different Thikanas still exist, but they are kept in view and attempts are constantly being made to remedy them.

STATEMENT II.

36. The total expenditure on vaccination in Native States was ₹30,107-5-5 as compared with ₹29,978-4-9 in 1910-1911, an increase of ₹129-0-8 which is due to the increased expenditure on establishment. The average cost of each successful vaccination in different States varied from 12 pies in Sirohi to 113 pies in Jaisalmer, in the latter there is only a scanty population scattered over a large area.

37. The following table shows the number of towns and villages and successful vaccinations seen by Residency or Agency Surgeons in Native States:—

Designation.	Number of towns and villages inspected.	Number of successful vaccination cases seen.
The Residency Surgeon, Jaipur	558	5,991
The Residency Surgeon, Western Rajputana States .	36	2,314
The Principal Medical Officer, Bikaner State . .	10	3,506
The Agency Surgeon, Eastern Rajputana States .	35	1,287
The Agency Surgeon, Alwar	316	4,226
The Agency Surgeon, Kotah and Jhalawar . .	415	3,596
The Residency Surgeon, Mewar	61	1,565
The Agency Surgeon, Kherwara and Medical Officer, Dungarpur	6	106

38. The Native Superintendents of vaccination or other inspecting officers inspected 104,192 vaccinations against 96,025 in 1910-1911. The percentage of inspected cases found successful to total number seen in 1911-1912 was 98·38 against 98·65 in 1910-1911.

39. Lymph is generally maintained throughout the year in most of the important States by arm to arm vaccination; glycerinated vaccine lymph was obtained during the year from the Government Bovine Lymph Depôts and was generally successful.

40. The manufacture of glycerinated buffalo lymph has been commenced at the Mayo Hospital Laboratory, Jaipur, and the results obtained were good, 153 operations were done with the result of 148 success.

41. The Residency Surgeon, Jaipur, writes: "that with a small extra cost it could be supplied all over the district and thus do away with arm to arm vaccination."

42. In accordance with the instructions contained in the Government of India, Department of Education, letter No. 1507—1515 (Sanitary), dated the 16th August 1911, a summary has been added to Statement I showing the particulars of vaccination. As no vaccinations are performed by "Dispensary Staff" or by "other agencies" in Rajputana, except in the Western Rajputana States where this work is done only by Sub-Assistant Surgeons in dispensary towns, the information asked for in the Summary is not available.

SECTION II.—DISPENSARIES.

STATEMENT A.

Number of Dispensaries.

43. During the year there were 170 hospitals and dispensaries in Rajputana against 171 in the previous year. The Pokran dispensary worked privately by the Thakur of that place submitted no returns this year.

The dispensaries are classified as under:—

I.—State Public	9
II.—State special	12
V.—Private non-aided, *i.e.*, Native States	149

Besides these there are 8 Mission and 6 Railway dispensaries on the Rajputana-Malwa Railway, and 2 on the Nagda-Muttra Railway within Rajputana limits.

Improvements and additions to hospitals and dispensaries.

44. *Bikaner.*—A new female hospital at Bikaner is in course of construction and also one for the Imperial Service Troops which is badly needed, as the Bhagwan Dass hospital is much overcrowded.

45. *Kotah.*—The building of the new dispensaries at Bakani, Monoher Thana, and Chechat was completed. At Baran an extra ward and an operating theatre in addition to two upstair rooms to the Assistant Surgeon's quarters have been sanctioned by the Kotah Darbar.

46. *Mewar.*—The hospital buildings at Untala are now ready but quarters for the inferior staff have yet to be built. Arrangements are being made to open the hospital there as early as possible.

STATEMENT B.

Attendance at Hospital.

47. During the year 1911 the number of patients treated at State Public, State special, and private non-aided, *i.e.*, Native States dispensaries and hospitals amounted to 1,404,152 against 1,474,377 patients in 1910, and 1,545,204 in 1909. The attendance at general dispensaries fell to 1,368,168 from 1,430,256 in 1910 and 1,492,985 in 1909 while that at female dispensaries fell to 35,984 from 44,121 in 1910, and 52,219 in 1909. The total in-door attendance decreased to 16,798 from 17,608 in 1910 and 19,141 in 1909, and the out-door attendance fell to 1,387,354 from 1,456,769 in 1910 and 1,526,063 in 1909. The deaths show a decrease from 720 in 1909 and 675 in 1910 to 633 in 1911 and the ratio of deaths per cent. of total treated also fell to 3·77, as compared with 3·83 and 3·81 in the two previous years. Owing to the scanty rainfall there was no malarial prevalence during the year.

STATEMENT C.

Diseases Treated.

48. The statement has been divided into two parts, one for the in-door and the other for the out-door patients; in addition the number of deaths under each head of disease treated in the in-door department is shown in Statement C (*i*). There was 16,798 in-patients treated, amongst whom 633 proved fatal; 46 normal and 34 abnormal confinements were reported from the various hospitals, as compared with 43 and 45, respectively in 1910. 1,387,354 out-door patients treated in 1911 are shown in Statement C (ii) against 1,456,769 in 1910.

SCURVY.

49. There were 1,503 scurvy cases treated against 1,087 in 1910 and 1,147 in 1909.

LEPROSY.

50. There were 436 patients treated for Leprosy as compared with 426 in 1910 and 500 in 1909. No special reports on the use of Nastin have been received.

PLAGUE.

51. During the year from 1st April, 1911, to 31st March, 1912, 9,883 cases of plague and 8,353 deaths were reported and 384 towns and villages were infected in Rajputana including Ajmer-Merwara District as compared with 38,809 seizures and 32,523 deaths and 871 towns and villages in 1910-1911. The percentage of total plague deaths to population was 1·31, *vide* table attached, against 1·32 in the previous year. The disease was in mild type.

52. The number of inoculations performed in 1911-1912 was 2,738 against 12,132 in 1910-1911 and 21,927 in 1909-1910 at the following places :—

Bharatpur City	514
Udaipur City	2,224
TOTAL .	2,738

53. Plague existed in Rajputana throughout the year and is still going on.

Ajmer-Merwara.

54. There were 192 seizures and 177 deaths reported in the Ajmer District of which 19 cases and 10 deaths occurred in Ajmer City. In Merwara, only one imported case occurred at Beawar as compared with 989 cases and 918 deaths in the previous year. The disease was prevalent in April and May only after which no cases were reported till November when one case was imported into Ajmer from Mhow.

55. The plague segregation camp in Ajmer is still in existence and a Sub-Assistant Surgeon is in charge of it.

Native States.

56. There were 9,691 cases of plague and 8,176 deaths reported from Native States against 37,820 cases and 31,605 deaths in 1910-1911.

57. The epidemic affected 12 States and 365 towns and villages as compared with 14 States and 776 towns and villages in the previous year.

58. *Jaipur.*—Plague prevailed in epidemic form from 1st April to 30th June 1911, and again broke out from 2nd October to 23rd November, and then from 1st to 31st March, 1912. 2,224 attacks with 1,996 deaths were reported in 105 towns and villages during the year under report, the mortality was highest in April 1911, *viz.*, 879 deaths. 54 seizures and 31 deaths were reported in the city of Jaipur.

59. *Alwar.*—Plague was prevalent both in the Capital and in District at the commencement of the year and April was the worst month with 1,959 cases and 1,659 deaths.

60. There were 2,598 cases and 2,175 deaths reported in 94 towns and villages against 9,040 cases and 7,249 deaths in 161 towns and villages in 1910-1911.

61. The City of Alwar remained free from infection from May 1911.

62. In Bharatpur 2,469 cases and 2,135 deaths were reported in 74 infected towns and villages as compared with 6,751 cases and 5,821 deaths in 174 towns and villages in 1910-1911, of these 129 cases and 97 deaths occurred in the city of Bharatpur.

63. The destruction of rats was continued in several towns of the Bharatpur State.

64. *Mewar.*—There were 1,102 cases and 935 deaths reported in 29 infected towns and villages in Mewar against 3,605 seizures and 2,314 deaths in the previous year.

65. Plague continued to linger in Udaipur City from the previous year, 470 cases and 458 deaths were reported during the year. The Residency Surgeon, Mewar, reports that the work done by the Police Superintendent Lala

Amritlal and his staff has been most valuable. They have worked indefatigably in house disinfection and street cleaning.

66. During the year the Banswara and Partabgarh remained free from the disease.

67. *Marwar.*—There were 764 cases and 580 deaths reported in 37 infected towns and villages against 4,245 cases and 3,455 deaths in 100 towns and villages in 1910-11. The disease remained prevalent during the months of April and May from which date only 15 cases and 11 deaths were reported to the close of the year.

68. *Tonk.*—In Tonk 359 cases were reported in 10 infected towns and villages of which 241 proved fatal against 3,489 cases and 2,924 deaths in the previous year.

69. *Jhalawar.*—Plague was brought into Sri Chaturpur in Jhalawar on the Bombay, Baroda and Central India Railway by a case from one of the infected places in the Indore State. The first case was reported on the 11th January and the last case on 21st February 1912. During that period there were 44 cases and 29 deaths.

70. *Kotah.*—The disease on the 28th February 1912 broke out in Dharnawad village in the Kotah State 2 miles from Sri Chaturpur. Only 27 cases and 17 deaths were reported.

71. *Dholpur.*—During April and May 1911 Dholpur State returned 38 seizures and 30 deaths in 3 infected villages.

72. Lieutenant-Colonel P. Carr-White, I.M.S., reports "it is satisfactory to note that villagers thoroughly understand the value of evacuation of houses; they also allow disinfection when plague has broken out but precautionary measures in the way of inoculation, rat exterminations, etc., are practically barred."

73. A plague map showing the districts where outbreaks occurred, the date of the first and last cases and the death rate per 10,000 of population is attached.

STATEMENT F.

74. Shows the classes and sexes of both in-door and out-door patients treated in the dispensaries of Ajmer-Merwara and of Native States of Rajputana. The following shows the classes of patients treated in 1910 and 1911 :—

Class.	1910.	1911.
Europeans and Eurasians	2,181	2,072
Hindus	993,936	957,541
Muhammadans	377,108	353,758
Others	101,152	90,781
TOTAL	1,474,377	1,404,152

STATEMENT G.

75. The number of surgical operations performed in Ajmer-Merwara and in Native States during the year was 70,185 against 68,446 in 1910. The number of patients operated on was 69,888 as compared with 68,177 in the previous year, of these the cases cured amounted to 69,208, the numbers relieved 220, discharged otherwise 137 and died 80 against 67,356, 332, 181 and 90 in 1910, while 243 remained under treatment on 31st December 1911 against 218 in 1910.

76. Of the operations performed 1,793 were extractions of the lens for cataract of which 1,526 or 85·11 per cent. proved successful, 50 lithotomies, 143 litholapaxies and 213 amputations against 1,460 extractions of the lens for cataract, 38 lithotomies, 145 litholapaxies and 189 amputations in 1910.

77. There were in all 2,101 surgical operations performed in the Mayo Hospital, Jaipur, which are distributed as follows :—

Major J. Fisher, I.M.S., Residency Surgeon	610
Assistant Surgeon Daljang Singh Khanka	308
„ „ Panna Lal Dass	71
„ „ Miss Sykes, M.D.	600
Other members of the staff	512

78. Major Fisher testifies to the good work done by Assistant Surgeon Daljang Singh Khanka, M.B., House Surgeon, Mayo Hospital, Jaipur. A good deal of the well deserved reputation for high efficiency of the Mayo Hospital is due to his long and unremitting zealous work in this institution.

The following special treatments were reported :—

79. Major C. M. Goodbody, I.M.S., Principal Medical Officer, Bikaner State :—

80. *Salvarson* has been used in 7 patients. The method used was intra-muscular injection into the gluteus maximus. In some cases the result was very striking with ·06 grm. All improved but some relapsed necessitating a second dose. No ill effects were noted.

81. *Van Pirquet's test* has proved most unsatisfactory, a positive reaction being obtained in only one case (a child) though the tubercle bacillus has been frequently demonstrated in the sputum.

82. *Chinosol* has been used in the treatment of 7 cases of Guineaworm with satisfactory results.

83. Major J. W. Watson, I.M.S., then Agency Surgeon, Alwar, has noted the following interesting cases in his report :—

84. *Tetanus*, 5 cases treated during the year, all recovered. Treatment—injection of Anti-Tetanic Serum and Carbolic Acid. In only one were any symptoms of carbolic acid poisoning (albuminuria and desquamation) noted.

85. *Salvarson* was used for the first time this year with very good results. A man with a peculiar tic of the neck and face, not typical spasmodic torticollis, who gave a history of syphilis, was completely cured.

86. Contrary to any expectations excellent results in tertiary syphilis were obtained.

87. The method used was the intra-muscular, one-third of the contents of one tube (0·06 grm.) was injected every week for three weeks.

Statements H and J.

Financial Statements.

88. Statement H shows the income and expenditure of the Government dispensaries and hospitals and the expenditure only on those in the Native States.

89. The total income of hospitals and dispensaries in Ajmer-Merwara was R19,726 as compared with R20,495 in 1910; this decrease is due to the fact that the annual contributions were not paid by the Raja of Pisangan and the Thakur of Deolia and subscriptions from Natives fell from R4,857 in 1910 to R2,520. No subscription was paid by European gentlemen during the year under report. The invested capital of the dispensaries shows no alterations.

90. In Ajmer-Merwara the total expenditure rose from R15,866 in 1910 to R15,927, this shows a little variation in the cost of establishment (R7,956 against R7,411 in 1910). Diet charges rose from R861 in 1910 to R991 in 1911 and expenditure on buildings and repairs rose from R1,296 in 1910 to R1,305 in 1911, but the cost of medicines fell from R3,562 in 1910 to R3,420 in 1911 and of miscellaneous charges from R2,736 in 1910 to R2,255 in 1911.

91. *Native States.*—The total expenditure on hospitals and dispensaries in Native States of Rajputana rose from ₹372,397 in 1910 to ₹377,138 in 1911, which is due to increase under heads "Establishment and Medicine." Under the Government of India, Foreign Department, letter No. 1658-Est. A., dated the 3rd June 1911, the revised grading and maximum scale of pay suggested in Government of India, Home Department, letter No. 1011—1019, dated the 17th August 1909, was sanctioned for Sub-Assistant Surgeons serving in Rajputana with effect from the 1st March 1911.

92. Of the total cost on hospitals and dispensaries in these States ₹72,125 were expended in Jaipur, ₹52,357 in Marwar, ₹42,329 in Bharatpur, ₹39,840 in Mewar, ₹39,435 in Kotah, ₹37,268 in Bikaner, ₹30,051 in Alwar, ₹9,693 in Dholpur, ₹9,379 in Jhalawar, ₹6,261 in Karauli, ₹4,748 in Tonk, ₹3,672 in Kishangarh, ₹3,449 in Banswara, ₹3,431 in Bundi, ₹3,361 in Sirohi, ₹2,720 in Jaisalmer, ₹2,501 in Shahpura, ₹2,235 in Dungarpur, ₹2,057 in Partabgarh, and ₹928 in Kusalgarh.

93. The average cost of each case treated in Ajmer-Merwara and in the Native States hospitals and dispensaries was 45 pies and 55 pies respectively, against 43 pies and 52 pies in 1910.

Mission Hospitals.

94. During the year under report the number of Mission Hospitals in Rajputana was 8 against 6 in 1910.

95. The following table shows the total number of in and out-door patients treated and operations performed in these institutions in 1911 :—

Name of Hospital.	Out-door patients.			In-patients.	Operations.	Remarks.
	Old cases.	New cases.	Total.			
Ajmer (Male) . .	61,220	15,094	76,314	71	1,332	
Ajmer (Female) . .	10,813	5,781	16,594	305	402	1,259 were visited at their homes.
Nasirabad . . .	16,153	7,702	23,855	347	1,016	
Udaipur . . .	30,061	14,721	44,782	332	1,215	
Jodhpur . . .	90,705	9,663	100,368	91	1,235	241 were visited at their homes.
Jaipur . . .	1,766	1,461	3,227	1	2	384 were visited at their homes.
Piploda . . .	3,904	2,302	6,206	...	72	
Beawar . . .	634	388	1,022	22	21	384 were visited at their homes.
Total .	215,256	57,112	272,368	1,169	5,295	

Railway Hospitals.

96. During the year under report the total number of in and out-door patients treated and operations performed in the Nagda-Muttra Railway dispensaries within the Rajputana limits are shown below :—

	In-door.	Out-door.	Operations.
Kotah Junction Dispensary . . .	76	3,530	73
Gangapur Dispensary	...	3,086	64

97. There were 6 Railway dispensaries on the Rajputana-Malwa Railway within the limits of Rajputana, *viz.*, 1 at Abu Road, 1 at Sojat, 2 at Ajmer, 1 at Phulera, and 1 at Bandikui.

98. There were 506 in and 25,264 out-door patients treated and 860 operations performed as per details below against 607 in and 30,119 out-door patients and 835 operations in the previous year:—

Station.	Number of in-door patients treated.	Number of out-door patients treated.	Operations performed.
Abu Road	98	3,368	178
Sojat Road	...	1,683	117
Ajmer	126	10,113	223
Phulera	105	5,634	258
Bandikui	177	4,466	84
TOTAL	506	25,264	860

99. Eight hundred and forty-three patients were visited at their homes at Ajmer.

JAILS.

100. *Ajmer.*—The daily average number of prisoners in the Ajmer jail rose to 319·13 from 296·65 in 1910. The total number of admissions into hospital and the daily average number of sick during the year under report was 227 and 9·17 as compared with 219 and 7·78 in the previous year. The number of deaths fell from 3 in 1910 to 2 in 1911 due to (1) Tuberculosis of the lungs among convicts and (2) to Pneumonia among under-trials.

101. The review by the Commissioner, Ajmer-Merwara, on the strength, classification, health, employment and conduct of prisoners, nature of sentences, Jail manufactures, and expenditure of the jail is given as appendix A of the Report together with statements.

Native States.

102. The daily average number of prisoners in the jails in the Native States fell from 3,944·60 in 1910 to 3,902·23 in 1911, the daily average number of sick from 77·12 to 69·84, the mortality from 77 to 72, and the ratio of deaths per mille of strength from 19·52 to 18·45—this shows the healthiness of the year.

103. There was no cholera or other epidemic disease in any of the jails in Rajputana in 1911.

104. There were no deaths in the Jails at Jhalrapatan, Partabgarh and Dungarpur.

105. *Bharatpur.*—The total number of cases admitted into Hospital fell from 66 in 1910 to 65 in 1911, the mortality from 5 to 2 and the ratio of deaths per mille of average strength from 24·90 to 10·64, on the whole this shows the health of the prisoners in this Jail was satisfactory.

106. *Udaipur.*—The health was very good except for an epidemic of mumps which appeared among the prisoners. It was introduced by a batch of Sansi prisoners sent from Morella Jail for admission into the Central Jail. The cases were segregated and treated in a separate shed.

107. There were only 8 deaths in 1911 against 20 in 1910 of which 2 were due to Dysentery, 1 to acute Colitis, 1 Bright's disease, 1 to Cerebral abscess, 1 to Enteric Fever, 1 to Hyperpyrexia and 1 to Pyæmia.

108. Steady improvement in the condition of prisoners and the management of this Jail are being made under the superintendence of Babu Ram Saran Jailor.

QUALIFIED MEDICAL STAFF.

Commissioned Medical Officers.

109. There were 11 Commissioned Medical Officers' appointments in Rajputana in 1911 as in the previous year.

110. Lieutenant-Colonel W. H. B. Robinson, I.M.S., Residency Surgeon and Chief Medical Officer in Rajputana, held charge of the current duties

of the office of the Residency Surgeon, Western Rajputana States, Jodhpur, in addition to his own, from 26th October 1911 when Major J. W. Grant, I.M.S., was on deputation with the brother of His Highness the Maharajah of Jodhpur to Egypt.

111. Major J. Fisher, D.S.O., I.M.S., Residency Surgeon, Jaipur, held the general Medical and Sanitary charge of the Rajputana Camps at Delhi in connection with the Coronation Durbar from the 2nd October 1911.

112. The Civil Surgeon, Ajmer, holds collateral charge of the 44th Merwara Infantry, the Agency Surgeon, Haraoti and Tonk, is similarly in additional charge of the 42nd Deoli Regiment, the Agency Surgeon, Kherwara, is in Medical charge of the Dungarpur State and the Medical Officer, 43rd Erinpura Regiment, inspects the Sheoganj Dispensary adjacent to the Cantonment of Erinpura.

Additional charge.

113. Mr. D. G. Newland, L.R.C.P. & S., Edinburgh, was on plague duty at Abu Road throughout the year.

114. *Military Assistant Surgeon.*—Assistant Surgeon R. J. K. Stone, I.S.M.D., was in charge of the Northern India Salt Revenue Dispensary at Sambhar throughout the year.

115. *Civil Assistant Surgeons.*—There were 5 Government Assistant Surgeons employed in Rajputana as in the previous year.

116. *Military Sub-Assistant Surgeons.*—There were 10 Military Sub-Assistant Surgeons employed with the Imperial Service Corps in Rajputana as in 1910.

117. In the two Jodhpur Imperial Service Regiments medical arrangements are made by the State.

118. The Mewar Imperial Service Squadron was put in medical charge of the Sub-Assistant Surgeon attached to the Central Jail Hospital, Udaipur, for such period as the Squadron is stationed in the lines near the Jail.

119. On the 31st December 1911, there were 184 Government Sub-Assistant Surgeons on the rolls against the sanctioned strength of 193, there being 9 vacancies, 8 on the Native States Reserve List and 1 on the Government Reserve List. There is only one local class Native Doctor and 1 locally entertained Sub-Assistant Surgeon under this Department as in the previous year.

Civil Sub-Assistant Surgeons.

120. *Lady Doctors.*—During the year there were 5 Lady Doctors employed in the following States in Rajputana against 6 in 1910 :—

Kotah	2
Jaipur	1
Tonk	1
Jodhpur	1

121. There was no Lady Doctor in the Jaswant Hospital for women at Jodhpur from 12th September 1911 to the 17th December 1911; in the Lady Dufferin Hospital, Alwar, since April 1911 and in the Walter Zenana Hospital at Udaipur since February 1911. An additional Lady Doctor was appointed to assist Miss Newton, L.R.C.P. & S., at the Victoria Hospital at Kotah from the 16th June 1911.

122. *Female Sub-Assistant Surgeons.*—There were 11 Female Sub-Assistant Surgeons attached to the Female Hospitals and women's wards at the following institutions as in the previous year :—

Jodhpur Jaswant Hospital for women	1
Jodhpur Hewson Hospital	1
Alwar Lady Dufferin Hospital	2
Kotah Victoria Jubilee Hospital	1
Tonk Walter Female Hospital	1
Udaipur Walter Zenana Hospital	1
Bharatpur Victoria Hospital	1
Jaipur Mayo Hospital	1
Bikaner Bhagwan Dass Hospital	1
Beawar Dispensary	1

FEMALE HOSPITAL AND DAI CLASS.

123. During the year no qualified Female Sub-Assistant Surgeon was appointed to the medical charge of the female wards of the Victoria Hospital, Ajmer, for want of funds. A Lady Doctor superintends the Mission Hospital for women where many patients are treated.

124. *Beawar.*—Female Sub-Assistant Surgeon Mrs. J. Martin was in charge of the Female wards of the Charitable Dispensary at Beawar for only two months and 8 days during the year, as she fell ill. From the 1st November 1911, Female Sub-Assistant Surgeon Pandita Sunder Lali was engaged.

125. *Native States.*—The returns received from the Female Hospitals in the Native States of Rajputana show on the whole a considerable decrease of work done during the year which is probably due to decrease of Malarial fevers, owing to scanty rainfall.

126. *Jodhpur.*—Miss J. Marsh, M.D., was in charge of the Jaswant Hospital for women at Jodhpur till the 9th March 1911 when she resigned her post and her place was filled up by Miss Iles, M.D., on 1st April 1911, she resigned on 12th September 1911. The post of Lady Superintendent remained vacant till the 17th December 1911, when Miss B. Griffin, M.D., B.C.H.; B.A.O., of National University of Ireland assumed charge of the hospital, meanwhile Female Sub-Assistant Surgeon Hennah Paul was put in charge of the hospital. There were 99 in and 2,923 out-door patients treated against 193 in and 4,718 out-door patients in the previous year, this decrease is probably due to the changes and absences of the various superintendents.

127. There were 92 operations performed against 377 in 1910.

128. *Udaipur.*—Miss McGlasshan, M.B., Ch.B., was in charge of the Walter Female Hospital, Udaipur, till the 28th February 1911, when she resigned and was relieved by Female Sub-Assistant Surgeon Shitabo Bai. No lady doctor has since been appointed and the Female Sub-Assistant Surgeon was in sole charge of the institution. The total in-door attendance fell from 101 in 1910 to 84 in 1911 which is partly due to the absence of a qualified Lady Doctor which greatly limits the range of useful work that can be undertaken and partly to the outbreak of plague in Udaipur City.

129. *Alwar.*—Mrs. E. S. Gaudoin was in charge of the Dufferin Hospital at Alwar till April 1911, when she resigned her post and since then no Lady Doctor has been appointed. Female Sub-Assistant Surgeon Bala Bai was in sole charge of the hospital. There were 332 in and 13,650 out-door patients treated as compared with 307 in and 11,786 out-door patients in 1910.

130. *Kotah.*—Miss J. Newton, L.R.C.P. & S., has been in charge of the Victoria Jubilee Hospital at Kotah throughout the year. There was an increase in the total in-door attendance. An Assistant Lady Doctor, Gladys Pawnes, has been appointed to the hospital since the 16th June 1911.

131. The Female Sub-Assistant Surgeon is popular and liked by the women of Kotah.

132. Eleven pupils were admitted into the Dai class at Kotah on the 4th July 1911; of these one left the class on the 15th August and 5 were discharged on the 15th September for being incompetent, the remaining 5 passed their examination on the 16th November 1911. During the course of instructions, each Dai was paid a R5 month scholarship from the State.

133. *Jaipur.*—Miss L. E. Sykes, M.D., has been in charge of the female wards of the Mayo Hospital, Jaipur, throughout the year. There was a slight decrease in the number of in-door patients treated owing to the outbreak of plague in Jaipur City during the year. Operations on women were 561 as compared with 569 in 1910.

134. *Bharatpur.*—Female Sub-Assistant Surgeon Bibi Rup Kuar has been in charge of the female hospital at Bharatpur throughout the year. There were 322 in and 7,315 out-door patients treated against 370 in and 8,080 out-door patients in the previous year. A separate female hospital building has been constructed and occupied on the 1st December 1911.

135. *Bikaner.*—Female Sub-Assistant Surgeon Elizabeth Moji Ram has been in charge of the female wards of the Bhagwan Dass Hospital at Bikaner

throughout the year. There were 143 in and 7,072 out-door patients treated as compared with 170 in and 7,190 out-door patients in the previous year.

136. A new female hospital is in course of construction and will be completed shortly.

137. *Dai Class, Ajmer.*—Mrs. M. Kane, Lady Superintendent, has been in charge of the Dai Training Class, Ajmer, throughout the year. The four pupils who were mentioned in last year's report as being under instruction continued to work, they were examined by the Civil Surgeon on the 30th April 1911, all of them passed and obtained their certificates and the usual honorarium given to successful candidates.

138. Seven pupils were admitted into the current year's class of whom 4 came from Jaipur, 1 from Alwar, 1 from Ajmer and 1 from Banswara, the latter has since been discharged as unlikely to prove efficient. The Honourable the Agent to the Governor General in Rajputana was pleased to raise the scholarships of the pupils who came from the Native States from R5 to R15 per mensem each so as to attract a better class of pupil; he also sanctioned a sum of R100 for furniture, fittings, teaching materials, etc., for the class.

139. During the year 21 in-door and 52 out-door maternity cases were treated and 98 persons sought advice and treatment for various other complaints, chiefly in infants.

140. Since the inauguration of the class altogether 41 pupils have passed, of these several are known to be working in the various dispensaries in Rajputana, others are practising midwifery and doing well, amongst the latter there are 7 at Ajmer, 3 at Kishangarh, 4 at Beawar, 1 at Nasirabad, 2 at Udaipur, 2 at Jodhpur, 2 at Shahpura and 3 at Sirohi. The remainder have been lost sight of.

Imperial Service Troops.

141. These hospitals are in medical charge of qualified Military Sub-Assistant Surgeons with the exception of the two Regiments Imperial Service Lancers at Jodhpur which are in medical charge of State enlisted Assistant Surgeons. The Mewar Imperial Service Squadron at Udaipur has been put in medical charge of the Civil Sub-Assistant Surgeon attached to the Jail Hospital there for the time it is stationed in the lines near Central Jail. They are all well equipped and the majority are up-to-date as Military Hospitals.

Insane.

142. There was one lunatic in the Central Jail, Ajmer, on 1st January 1911, and 17 were admitted during the year. Of these 6 were transferred to Lahore Lunatic Asylum, six were made over to their friends and relatives, 2 discharged as cured and 4 remained in the Jail at the close of the year.

143. *Native States.*—There were 210 lunatics treated in 1911, of whom 39 were cured, 10 were made over to their friends and relatives, 36 discharged otherwise, 19 died and 106 remained under treatment.

W. H. B. ROBINSON, Lieut-Col., I.M.S.,
Chief Medical Officer, Rajputana.

Ajmer,
The 4th June 1912.

Table showing the severity of the epidemic in certain Native States and Ajmer-Merwara District as well as the rapidity of its spread in recent years and the percentage of total plague deaths to population since 1896.

APPENDIX A.

Review on the Jail Report for 1911.

The charge of the office of the Superintendent, Central Jail, was held throughout the year by Lieutenant-Colonel H. R. Woolbert, I.M.S.

2. At the commencement of the year there were 264* prisoners including convicts, civil prisoners and undertrials. The number † of prisoners admitted to the jail during the year was 1,295 against 1,065 in 1910 of whom 669 were convicts, 609 undertrials and 17 civil prisoners.

Population.	
* Convicts	234
Undertrials	29
Civil	1
	264

† Include 49 received from other jails.

The number of prisoners discharged during the year under review from all causes as compared with the previous year is as under :—

	1910.	1911.
Convicts	587	655
Undertrials	502	594
Civil	18	18
	1,107	1,267

The number of prisoners remaining at the close of the year was 292 against 264 in 1910 :—

Convicts	248
Undertrials	44
	292

The daily average number of prisoners was 319·13, *i.e.*—

Convicts	286·86 against 272·40	in 1910.
Undertrials	30·83 „ 22·90	„ 1910.
Civil prisoners	1·44 „ 1·35	„ 1910.

3. The following table compares the disposal of convicts (655) during the year under review with that of the preceding year—

Disposal of convicts.

	1910.	1911.
Released on appeal	24	9
„ „ expiry of sentence	388	438
„ „ payment of fine	47	22
Under remission rules for good conduct	101	63
Transferred to other jails	24	38‡
Died in jail	3	1
Released on commemoration of Delhi Durbar	*Nil*	82
Transferred to Andamans	*Nil*	*Nil*
Executed	*Nil*	2

‡ 7 were transferred for transportation beyond seas.

4. Excluding the 49 convicts received from other jails the remaining 620 convicts admitted in the jail are classified as follows :—

Classification of convicts.

Hindus	421
Mohamedans	188
Eurasians	3
Native Christians	8

According to age classification 20 were under 16 years, 520 between 16 and 40, 68 between 40 and 60 and 12 above 60 years of age. According to sex, 576 were males and 44 females. Of the 576 male convicts the majority were agriculturists and labourers as will be seen by the details in the margin.

Of independent property	3
Agriculturists	189
Labourers	197
Shop-keepers and Traders	40
Domestic servants	65
Miscellaneous—	
Occupations	33
Government servants	22
No occupation	27
	576

5. Of the 620 convicts admitted in the jail—

Nature of sentence.

79 were awarded simple imprisonment.
524 rigorous imprisonment.
15 were awarded solitary confinement.
2 were awarded rigorous imprisonment with whipping.

The number of convicts sentenced to various terms of imprisonment was as follows:—

Particulars.	Simple imprisonment.	Rigorous imprisonment.	Rigorous imprisonment with solitary confinement.	Rigorous imprisonment with whipping.
Not exceeding one month	58	139	...	...
Above 1 but not exceeding three months	13	122	...	...
Above 3 but not exceeding six months	4	101	6	2
Above 6 months but not exceeding 1 year	1	100	3	...
Above 1 but not exceeding 2 years	3	36	4	...
Above 2 but not exceeding 5 years	*Nil.*	16	2	...
Above 5 but not exceeding 10 years	...	2	...	...
Transportation beyond seas	*Nil.*	6	...	...
Sentenced to death	...	2	...	...
TOTAL	79	524	15	2

Previous conviction.

6. The number of previously convicted prisoners admitted during the year under review was 164 as compared with 110 in the previous year, their percentage to the total number of convicts admitted being 26·45.

Employment of convicts.

7. Excluding sick and convalescents from whom occasional labour is taken the daily average number of convicts sentenced to labour on working days was 232·19 of whom 14·15 were employed as prison officers, 30·38 as prison servants, 8·41 on gardening, 37·81 on preparing articles for consumption in Jail, and 142·14 on manufactures. The daily average number exempted from labour was 8·86.

Conduct of prisoners.

8. The number of Jail punishments of all kinds inflicted was 169, as compared with 119 in 1910. They are classed as below:—

Solitary confinement	10
Reduced diet	22
Corporal punishment	2
Other punishments	135
TOTAL	169

Escapes.

9. There were no escapes from the Jail during the year under review.

Health.

10. The general health of the prisoners was good throughout the year. The number of admissions to the Jail hospital was 227 against 219 in 1910. There were two deaths as compared with 3 in 1910.

Juvenile offenders.

11. There were 23 juvenile offenders including 3 left at the close of the year 1910. Of these 23 children 22 were released on expiration of their sentences and 1 in honour of the Delhi Coronation Durbar. There was no juvenile offender in the jail at the close of the year. No prison offence was recorded against them during the year.

Jail manufactures.

12. The profit from Jail manufactures amounted to R487-13-1 against R2,508-6-5 in 1910 and the average earning per head of prisoners employed on Jail manufactures consequently fell from R19-1-3 to R3-6-11. The cause of the falling off has been explained in para. 29 of the Jail report.

Expenditure.

13. The total expenditure in guarding and maintaining the prisoners including that incurred (1) by the Public Works Department on buildings and repairs and (2) by Magistrates in guarding and maintaining undertrials, amounted to R31,416-5-9. The average cost per prisoner during the year was R98-7-1 against R78-4-4 in the preceding year. The increase is chiefly due to the high price of all kinds of food stuffs and clothing materials.

General remarks.

14. The Jail was inspected once by the Honourable the Chief Commissioner, Ajmer-Merwara, once by the Chief Medical Officer and several times by the Commissioner and Inspector General of Prisons.

Rai Bahadur Seth Nemichand very kindly distributed food as also a sum of R50 to those who were needy among the 82 prisoners released on 12th December 1911 in commemoration of the Delhi Durbar.

W. STRATTON, *Lieutenant-Colonel,*

Commissioner, Ajmer-Merwara.

Female	5,551	15·21	7	†43	51	...	...	51	...	...	1	28	...	17	...	1	...	...	...	...	...	4
Total	104,705	286·86	234	620	854	47	2	903	31	7	9	438	23	82	...	63	...	...	...	2	1	248

* Of this number 19 boys under 16 years. † Of this number 1 girl under 15 years.

NOTE. 1.—This and the other statements numbered 1 to 7 only convicted prisoners are to be included.

2.—Debtors and others detained for default of Government revenue will appear in No. 8.

3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the year.

4.—The "Total population," column 8, is the sum of columns 6, *plus* 7, and necessarily includes many who are counted more than once.

5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the year, *vide* column 2, and dividing the whole by the number of days in the year.

6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Provinces without passing through any other Jail in it, they should be entered in column 11.

It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.

7.—When the gangs are employed extra-murally under the orders of Government No. 1032—43, dated 28th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

H. R. WOOLBERT, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER JAIL OFFICE:
The 7th March 1912.

STATEMENT No. II.—*Statement showing the religion, age, and previous occupation of the Convicts in the Jail at Ajmer for the year 1911.*

1	2							3				4												5		
	Religion.							Age.				Previous Occupation.												Total.		
												Male.									Female.					
Sex.	A			B	C	D	E	A	B	C	D	A	B	C	D	E	F	G	H	I	J	K	L	M			
	Christians.																									
	a	b	c	Mahomedans.	Hindus.	Buddhists and Jains.	All other classes.	Under 15 years.	15 to 40 years.	40 to 60 years.	Above 60 years.	Of independent property.	Agriculturists.	Labourers.	Shopkeepers and Traders.	Artizans.	Domestic servants.	Miscellaneous occupation.	Government service.	No occupation.	Married.	Unmarried.	Widowed.	Prostitutes.	Male.	Female.	Total.
	European.	Eurasian.	Native.																							
Male	...	3	8	176	389	...	...	19	487	61	2	3	189	197	40	...	65	33	23	27	24	...	19	1	576	44	620
Female	...	...	...	12	32	...	...	1	33	7	3															
Total	...	3	8	188	421	...	...	20	520	68	12	3	189	197	40	...	65	33	23	27	24	...	19	1	576	44	620

NOTE.—It is of importance that the particulars given in this, and also in No. 3, should not include the same individual more than once, and hence all transfers should be omitted.
The Totals should correspond with the number in column 5, Statement I: "Imprisoned during the year." But they should do so with the "Total" Column 6, for January only, as the number remaining on the last day of the previous year (31st December) is to be included in that month.

STATEMENT No. III.—*Statement showing the convicts admitted into the Jail at Ajmer during the year 1911 and those remaining on the 31st December of that year, according to the nature and length of sentence.*

The Female column should be filled in italics.

(A) Prisoners admitted during the year should only be shown here, *vide* column 5 of monthly statement No. 1, from January to December.
* Classes A, B, C and D should be amalgamated for this total. Prisoners who escaped and were recaptured during the year 1908 should not be shown in this and Annual Statement No. IV.
(a) This figure should tally with those shown in column 16 of Monthly Return No. 1 for December.

H. R. WOOLBERT, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER JAIL OFFICE:
The 7th March 1912.

STATEMENT No. IV.—*Statement showing the convicts admitted into the Ajmer Jail during the year 1911 who had been previously convicted.*

Sex.	1	2				3	4	
		Number previously convicted.					Juvenile prisoners under 16 years of age (Section 399 of the Criminal Procedure Code).	
	Number admitted during the year.	A	B	C	D	Ratio of column 2D to column 1.	A	B
		Once.	Twice.	More than twice.	Total.		Number admitted during the year.	Number previously convicted.
Male	227	77	33	53	163	71·81	19	...
Female	7	1	...	...	1	14·29	1	...
Total	234(*a*)	78	33	53	164	70·09	20 (*b*)	...

(*a*) Note.—In column 1 will be entered the prisoners admitted during the year, *vide* column 5 of Monthly Statement No. 1, from January to December 1911. Numbers in column 2 will be inclusive of the number in column 4.
(*b*) The figures in column 4 A should tally with those shown in column 8A of Monthly Return No. II for the year.

STATEMENT No. V.—*Statement showing the escapes and re-captures of convicts in the Central Jail at Ajmer for the year 1911.*

1	2			3	4			5			6			
	Escaped during the year.				Re-captured during the year.			Remaining uncaptured.			Unexpired portion of sentence of those who escaped during the year.			
Remaining uncaptured on the last day of the past year.	A	B	C	Grand Total.	A	B	C	A	B	C	A	B	C	D
	From inside the Jail.	From outside the Jail.	Total.		Those who escaped in previous years.	Those who escaped during the present year.	Total.	Of previous years.	Of present year.	Total.	Under 1 year.	Above 1 and under 3 years.	Above 3 and under 7 years.	Above 7 years.
...	...	...	...	...	...	...	...	...	...	*Nil.*	...	...	...	...

In column 1, and also in column 5 A, only those should be included who have escaped during the previous seven years. In 4 A, if any are entered who have been at large for upwards of seven years, a special note should be added. A footnote should show how many have been struck off, each having escaped more than seven years previously.

STATEMENT No. VI.—*Showing the offences committed by the convicts, and the punishments inflicted on them in the Jail of Ajmer during the year 1911.*

1	2	3	4			5							6
			Breaches of Jail Rules.			Punishment inflicted.

STATEMENT No. IX.—*Statement showing the Scales of Diet in force in the Ajmer Central Jail during the year 1911.*

1	2	3	4
Diet scales of Labouring Prisoners.	Diet scale of non-labouring prisoners.	Punishment diet scale.	Note of any change effected in diet scales during the year.
Atta of Gram 1/3 „ Barley 2/3 „ Wheat 1/3 } 12 Chittaks daily. Dâl alternately . . 2 Chittaks. Vegetables alternately 8 „ Oil with vegetables 4/25 „ Salt „ „ 1/4 „ „ „ Dâl . . 1/6 „ Chillies with vegetables 2 M. Dâl 1 „ Fuel 5 „	Atta 8 Chittaks on Sundays and Mondays and 10 Chittaks on other days. Other articles are same as for labouring prisoners.	Labouring prisoners 8 Chittaks atta, with the usual quantity of salt; the period of this diet is ninety-six consecutive hours.	Prisoners on Mills are given 14 Chittaks of atta instead of 12 Chittaks, *vide* paragraph 7 of letter No. $\frac{14}{245}$ II, dated 20th July 1899, from the First Assistant to the Honourable the Agent to the Governor-General for Rajputana.

NOTE.—A complete statement of all the Diet Scales in use for labouring prisoners according to length of sentence should be given in column 1, with details as to the articles used, and the variations in different days of the week.

H. R. WOOLBERT, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER JAIL OFFICE:
The 7th March 1912.

STATEMENT No. X (FINANCIAL).—*Showing the expenditure in guarding and maintaining the prisoners in the Central Jail at Ajmer during the year 1911, excluding the cost of building new Jails, of Additions, Alterations, or Repairs.*

When prisoners of different classes are confined in the same Jail, the expenditure on establishment and other items with which all are concerned should be divided over all. The cost per head under any item of expenditure is to be calculated on prisoners actually concerned in it or contributing to it, and not otherwise. Hospital charges (col. 7) should include rations and also the cost of medicines supplied from the Bazar and the Medical Store Depôt. In this series (Financial) annas and pies are only to be shown where there are columns for them.

STATEMENT No. XII.—*Showing the employment of convicts in the Jail at Ajmer during the year 1911.*

1913

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1912,

AND ON

VACCINATION FOR THE YEAR 1912-1913.

SECTION I.—SANITATION AND VACCINATION.

METEOROLOGY AND ITS RELATION TO FOOD SUPPLY.

Rainfall in Ajmer.

1. During the year under report 13·87 inches of rain were registered in Ajmer against 8·59 in the previous year; a rainfall of 7·09 inches less than the average of the previous six years. It did not provide sufficient water in all tanks and wells throughout the district; and the ground water level in the wells fell considerably.

Rainfall in Native States.

2. The rainfall recorded in Rajputana on the whole was satisfactory. All wells and tanks were filled up; but as the precipitation in September was deficient the Kharif Crops suffered in many Native States. The out-turn of the Rabi crops is expected to be fairly good. Grass has been fairly abundant.

VITAL STATISTICS, BIRTHS AND DEATHS.

Births in Ajmer-Merwara.

3. According to the birth return 23,609 births were registered in Ajmer-Merwara in 1912 against 22,700 in 1911; an increase of 909, due to the year being a healthier one than its predecessor. Of the total births registered 12,416 were males and 11,193 females. The birth rate was 47·08 per mille of population against 47·60 per mille in the previous year. The percentage of male to female births was 110·92 as compared with 111·83 in 1911.

4. During the year 19,178 deaths were registered in this Division against 21,182 in 1911; a decrease of 2,004, which is attributed to the absence of plague and malaria. The death-rate per mille of population was 38·25 against 44·41 in the previous year.

5. The mortality among children under five years of age was 61 per cent. of the total deaths against 54 per cent. in 1911. Measles and Small-pox prevailed during the year. The mortality from Small-pox was 3,050 as compared with 1,432 in the previous year. Of these 2,129 deaths were reported in the Ajmer District, and 921 in Merwara. The epidemic was confined to un-vaccinated children. It was most fatal in March when 1,027 deaths were reported.

Population on which the birth and death rates are calculated.

6. The birth and death rates shown in this report have been calculated on the population according to the Census of 1911, which shows for the Ajmer-Merwara Division a total of 501,395. This is more than the population (Census of 1901), according to which the provincial rates for 1911 or the immediately preceding years were calculated by only 24,483.

7. As the Census Report of Rajputana and Ajmer-Merwara for 1911 does not show population according to circles of registration but merely to District and Chief Towns, Annual birth and death returns (form I to XII) of the districts of Ajmer and Merwara for 1912 have been prepared accordingly.

8. A reference to the statement of mortality among children under one and five years of age shows that about two-third of the total mortality for the whole year occurred in children under five years of age.

Number of Cholera cases and deaths reported in Ajmer-Merwara and in Rajputana during the year 1912.

9. Between the 18th August and the 4th September 1912, 14 cases of Cholera were reported in Ajmer of which 13 proved fatal.

Ajmer-Merwara.

10. During the year 644 cases of Cholera were reported from the Native States of Rajputana, of which 414 proved fatal, against 90 cases and 85 deaths in the previous year. Of these, 215 cases and 137 deaths were reported in Kotah State from 8th September to 1st November 1912. The disease was imported from Chabra in the Tonk State and extended to Jhalawar Chaoni, where 46 cases occurred with 32 deaths.

Native States.

11. Cholera broke out in Dholpur on 5th August having been imported from Muttra. 94 cases and 41 deaths were reported up to 5th September 1912 in the State, when it totally ceased. 138 cases and 96 deaths occurred in Tonk from 2nd September to 30th September; and 52 cases and 24 deaths in Alwar State from 14th to 26th September 1912.

12. Disinfection of wells with permanganate of potassium and alum was carried out; and every possible sanitary precaution taken to prevent the spread of the disease.

13. As the Cholera out-break in Rajputana was slight, no map has been attached to the report.

SANITATION.

14. *Ajmer City.*—The chief source of drinking water is by pipes from the Foy Sagar; and, to a lesser degree, from certain wells both in the city and suburbs. Owing to scanty rainfall and a consequent insufficient water supply for the city and suburbs as well as for the Railway Workshops, water was brought from Budha Pushkar by pipes.

15. The conservancy carts and almost all the rolling stock are leaky and unserviceable. 41 Hoppers for liquid and 10 hand carts were purchased during the year.

16. One new five seated galvanized iron urinal and one new four seated galvanized iron latrine have been provided in the city. The Sanitary arrangements are insufficient and very backward.

17. The Commissioner Ajmer-Merwara reports that (1) the scheme for the improvement of the water-supply in the city of Ajmer is under consideration and steps are being taken to collect the further information asked for by the Government of India. In this connection Messrs. Lane, Brown and Hewlett, Civil Engineers, Lucknow have been asked to prepare a detailed estimate of the new scheme. (2) Rules for the improvement of village sanitation were restricted to the villages noted in the margin. (3) On the whole the rules have worked satisfactorily in all the villages of Ajmer-Merwara. (4) Platforms on the wells and demarcation pillars were constructed in the village of Bir by the end of the year under report.

Srinagar.	
Jethana.	
Bir.	

18. *Beawar.*—On account of recurrent scanty rainfall the water level in almost all the wells that supply the town of Beawar has fallen considerably and the necessity for good drinking water is keenly felt. The question is under the consideration of the Municipal Committee with a view to making some permanent arrangement in the near future.

NATIVE STATES.

19. *Jaipur.*—The portable Railway line, Depôts, wagons and plant were maintained in good order. For all conservancy purposes the light Railway performs valuable work. Rubbish and city sweepings are burnt in incinerators. 392 latrines were newly constructed and 266 old latrines were repaired.

20. *Jodhpur.*—There has been a good supply of water throughout the year. All tanks and wells in Jodhpur and in the districts were well filled. Conservancy

arrangements are in the hands of a Municipal Committee. The Residency Surgeon, Western Rajputana States has been appointed consulting and Advisery officer to the Jodhpur Municipality on matters concerned with this Department.

21. *Bikaner.*—The sanitation of the city is in the hands of the Municipal Committee and the Director-Medical Department, Bikaner State is a member.

22. *Bharatpur.*—Assistant Surgeon, Onkar Singh in charge of the Victoria Hospital, Bharatpur has been appointed Health Officer of the Municipality there *vice* Assistant Surgeon Ishan Tosh Mittra who has been transferred from the State.

23. Major J. C. Robertson, I.M.S., Sanitary Commissioner with the Government of India, visited Bharatpur on several occasions and instituted an enquiry as to the cause of unhealthiness of the Bharatpur city, leaving Dr. Khambata, D.P.H., to carry out investigations during his absence. His report is awaited.

24. A tramway line has been brought into use for carrying all excreta, rubbish, etc., to a point about two miles from the city. It is worked by buffaloes.

25. *Kotah.*—Steady improvement has been made in the conservancy arrangements for Kotah city—

(1) All latrines are pucca and provided with iron filth receptacles and Crowley iron carts.

(2) 164 kuchcha cess pits of private latrines have been replaced by pucca ones.

(3) 13 moveable urinals of corrugated iron have been erected.

(4) Five streets have been paved, two of these provided with surface drains.

(5) Nine corrugated iron dust bins have been placed for street sweeping.

(6) 32 broken down houses have been removed.

(7) All wells and Baories were cleaned.

26. The local Sanitary Committees in the district towns have worked smoothly. The Kotah Darbar have sanctioned lectures being given on sanitation and prevention of disease in schools by Sub-Assistant Surgeons. As a commencement six lectures will be given each term in four or five selected towns.

VACCINATION.

STATEMENT I.

27. In Ajmer-Merwara the number of primary vaccinations fell from 15,486 in 1911-12 to 13,825 in 1912-13 and re-vaccination from 1,034 in 1911-12 to 117 in 1912-13. This decrease is partly due to the fact that many inhabitants evade vaccination, and partly that no assistance of any sort is given by the District or Police Officers to vaccinators to collect children for vaccination.

28. The number of vaccinators was the same as in 1911-12 with one Native Superintendent. Each vaccinator performed 911 vaccinations against 1,108 in 1911-12; and the average cost of each successful case advanced from 38 pies to 47 pies.

29. The Civil Surgeon, Ajmer inspected 820 children, against 506 in 1911-12; of whom 692 were found successful: and the Superintendent at Nasirabad examined 834 children, against 1,411 in the previous season, of whom 785 were successful.

30. The Native Superintendent of vaccination inspected 309 villages and examined 6,371 vaccinated children as compared with 7,013 in 1911-12. The percentage of success amongst cases seen by him was 97·68 against 98·33 in the previous year.

31. The vaccination returns from the Native States show an increase in primary vaccination, *viz.*, 258,958 against 255,325, this is mainly due to the figures of the Tonk State and the Kushalgarh Estate being received this year. Re-vaccination rose from 1,199 in 1911-12 to 1,373 in 1912-13 owing to the prevalance of small-pox in some of the Native States.

32. The average number of vaccinators was 159 against 158 in 1911-12 Bikaner and Bundi having each reduced their establishment by one and two vaccinators already employed in Tonk State and one in Kushalgarh Estate having been shown in the Annual Vaccination Statements for the year under report. The cost of each successful case was 24 pies as compared with 23 pies in 1911-12. No vaccinator was employed in Deoli Cantonment during the season. Vaccinations were performed entirely by the Sub-Assistant Surgeon attached to the Agency Hospital; consequently no expenditure was incurred on the establishment. A sum of R3-7-0 shown in column "contingencies" is the cost of the lymph.

33. Of the work performed in Marwar State 480 primary vaccinations were done by the Sub-Assistant Surgeons in Dispensary towns with a successful percentage of 97·71: and the Sub-Assistant Surgeons in the Sirohi State performed 153 vaccinations.

34. 23·87 per thousand of the population in the Native States were successfully vaccinated, against 23·56 per thousand of population in 1911-12.

STATEMENT No. II.

35. The total expenditure on vaccination in Native States was R32,102-12-2 as compared with R30,107-5-5 in 1911-12, the increase in cost being due chiefly to increased travelling allowances to vaccinators in Jaipur and Bikaner States. The average cost of each successful vaccination in different States varied from 11 pies in Sirohi to 180 pies in Jaisalmer. In the latter there is only a scanty population scattered over a large area.

36. The following table shows the number of towns and villages inspected and successful vaccination seen by Residency or Agency Surgeons in Native States:—

Designation.	Number of towns and villages inspected.	Number of successful vaccination cases seen.
The Residency Surgeon, Jaipur	473	8,334
The Residency Surgeon, Western Rajputana States	474	7,727
The Principal Medical Officer, Bikaner State	22	3,876
The Agency Surgeon, Eastern Rajputana States	309	4,576
The State Surgeon, Alwar	708	5,251
The Agency Surgeon, Haraoti	499	3,738
The Residency Surgeon, Mewar	148	2,415
The Agency Surgeon, Kherwara and Medical Officer, Dungarpur	5	210

37. The Native Superintendents of vaccination or other Inspecting officers inspected 115,180 vaccinations against 104,192 in 1911-12. The percentage of inspected cases found successful in total number seen in 1912-13 was 98·40 against 98·38 in 1911-12.

38. Lymph is kept up throughout the year in most of the important States by arm to arm vaccination; glycerinated vaccine lymph was obtained during the year from the Government Bovine Lymph Depôts and was generally successful.

39. The Residency Surgeon, Jaipur writes that Calf Vaccine Lymph was manufactured at the Mayo Hospital Bacteriological Laboratory, Jaipur and the result was good as 235 vaccinations were done with vaccine paste prepared from buffalo calf out of which 206 were successful. With a small extra cost it would be supplied all over the district to do away with arm to arm vaccination.

SECTION II.—DISPENSARIES.

STATEMENT I.

Number of Dispensaries.

40. The year opened with 170 hospitals and dispensaries in Rajputana and closed with 175 an increase of six and decrease of one. Six new dispensaries were opened during the year, four of them in Bharatpur, *viz.*, one at Bareta, one at Sewar, one Agency Hospital and one Raj Forces Hospital, one railway dispensary at Churu in Bikaner and one dispensary at Untala in Mewar. The Northern India Salt Revenue Dispensary at Didwana was closed on the 1st January 1912.

41. On the abolition of the office of the Agency Surgeon, Haraoti and Tonk on the 11th March 1912, the charge of the medical arrangements of the Tonk State was transferred to the Residency Surgeon, Jaipur, that of the Shahpura Chiefship to the Residency Surgeon, Mewar and of Bundi to the Agency Surgeon, Haraoti, Kotah.

42. The dispensaries are classified as under :—

I State Public	9
II State Special	11
V Private non-aided (*i.e.*,) Native States	155
Total .	175

43. Besides these there are now seven Mission Dispensaries; in 1911 there were eight. One dispensary at Beawar appears to have been closed in 1912. The number of Railway Dispensaries on the Rajputana-Malwa Railway and Nagda-Muttra Railway within Rajputana limits is the same as in the previous year.

Improvements and Additions to Hospitals and Dispensaries.

44. *Ajmer.*—A sum of R509 was spent owing to certain alterations and repairs on the dispensary building at Kekri in Ajmer.

45. *Bikaner.*—A new female Hospital and also one for the Imperial Service Troops are nearing completion.

46. The Kotah Darbar contemplate building a new dispensary at Baran in place of the old one and on a more suitable site, and a new one at Kishangunj the present dispensary there being in a dilapidated condition.

47. *Udaipur.*—A scheme for the erection of a new up-to-date Hospital outside the city in place of the present Lansdowne Hospital, Udaipur has been submitted and is still under the consideration of the Mewar Darbar.

48. On November 14th, 1912 the Hospital was honoured by a visit from His Excellency Lord Hardinge, the Viceroy of India.

49. The sum of R1,286 was spent in effecting improvements and additions to the buildings of the Mayo Hospital, Jaipur.

50. The new cottage block built at a cost of R6,766-1-3 as a memorial to late Sir Curzon Wyllie at Jaipur was completed and opened by Her Excellency Lady Hardinge on 21st November 1912. This memorial is a touching testimony to the affection which His Highness the Maharaja bore towards Sir Curzon Wyllie whose name was a household word in Rajputana as expressed

by Her Excellency Lady Hardinge in her address. Provision has been made in the Annual Budget of the Jaipur Medical Department, for the maintenance of this cottage Hospital.

STATEMENT B.

Attendance at Hospitals.

51. During the year 1,500,960 patients were treated at State Public, State special, and private non-aided, *i.e.*, Native States Dispensaries and Hospitals against 1,404,152 patients in 1911 and 1,474,377 in 1910. The attendance at General Dispensaries rose to 1,455,921 from 1,368,168 in 1911 and 1,430,256 in 1910 while that at Female Dispensaries rose to 45,039 from 35,984 in 1911 and 44,121 in 1910. The total in-door attendance increased to 19,233 from 16,798 in 1911 and 17,608 in 1910 and, the out-door attendance rose to 1,481,727 from 1,387,354 in 1911 and 1,456,769 in 1910. The deaths show little variation but the ratio of death per cent. to total cases treated fell to 3·31 in 1912 as compared with 3·77 and 3·83 in the two previous years.

STATEMENTS C(i) (ii).

Diseases treated.

52. In Statement C (i) the number of deaths under each head of disease treated in the in-door department is shown, 19,233 in-patients were treated amongst whom 636 proved fatal as compared with 16,798 in-patients and 633 deaths in the previous year, 145 normal confinements with 3 deaths and 88 abnormal confinements with 6 deaths were reported from various hospitals against 46 with 1 death and 34 with 8 deaths respectively in 1911. 1,481,727 out-door patients treated in 1912 are shown in statement C (ii) against 1,387,354 in 1911 and 1,456,769 in 1910. The cases treated in hospitals and dispensaries in Rajputana under each chief cause during the year 1910, 1911 and 1912 are as follows:—

Disease.	1910.	1911.	1912.
Malarial fever	265,164	175,853	187,071
Diseases of the eye	208,017	197,949	231,917
Dysentery and Diarrhœa	38,797	44,437	51,706
Ulcers	163,140	147,187	151,138
Skin Diseases	202,756	229,014	232,935
Syphilis	20,689	19,088	19,251
Injuries	30,769	32,781	36,531
Tubercle of the lung	1,151	1,289	1,217
Abscess of the liver	158	184	274

Scurvy.

53. 955 cases of scurvy were treated against 1,503 in 1911 and 1,087 in 1910.

Leprosy.

54. 487 Lepers received treatment as compared with 436 in 1911 and 426 in 1910. No special reports on the use of Nestin have been received., except one from Captain White, I.M.S., State Surgeon, Alwar, who states that only one case has submitted to a fair trial. The patient has now so much improved that he refuses to leave.

Plague.

55. During the year from 1st April 1912 to 31st March 1913, 6,037 cases of plague and 5,672 deaths were reported and 83 towns and villages were infected in Rajputana including Ajmer-Merwara District as compared with 9,883 seizures and 8,353 deaths and 384 towns and villages in 1911-12. The percentage of total plague deaths to population according to the census of 1911 was 1·36 *vide* table attached against 1·21 in the previous year.

56. Plague existed in Rajputana throughout the year and is still prevalent.

Ajmer-Merwara.

57. Only 19 cases of plague and 13 deaths were reported in the Ajmer District against 192 attacks and 177 deaths in 1911-12. It continued till June 1912. Only two cases with one death were reported in the Ajmer town and 17 cases and 12 deaths in the Deolia village of the Sawar Circle.

Native States.

58. During the year 6,018 cases and 5,659 deaths were reported from Native States, against 9,691 cases and 8,176 deaths in 1911-12.

59. The epidemic affected 8 Native States and 81 towns and villages as compared with 12 States and 365 towns and villages in the previous year.

60. *Jaipur.*—Plague continued till the end of June 1912 in a fairly mild form. On 31st August a recrudescence occurred and the epidemic became very severe.

61. 4,326 seizures with 4,262 deaths occurred in Jaipur City including plague Camp Hospital near Rawalji's Bund and suburbs and 554 attacks with 510 deaths in 27 infected towns and villages in the District: there were in all 4,880 cases with 4,772 deaths during the year under report.

62. 1,282 inoculations were performed in Jaipur City. It seemed to have found more favour than during any previous year among the poor and middle class people who submitted themselves voluntarily for inoculation.

63. Prophylactic measures to check the epidemic were taken as far as possible by improvement of the sanitation of the city and disinfection of the infected houses. Those of the plague stricken population who could afford to do so and who had no prejudices, evacuated the infected city of their own accord.

64. On 20th November 1912 His Excellency Lord Hardinge visited the Plague Camp Hospital during his stay at Jaipur.

65. In Bharatpur 971 cases and 774 deaths were reported in 40 towns and villages as compared with 2,469 cases and 2,135 deaths in 74 towns and villages in 1911-12. Only one fatal case occurred in the city of Bharatpur.

66. *Karauli.*—Only one case of plague imported from Jaipur was reported in Karauli city in October 1912.

67. *Alwar.*—Plague continued in the State of Alwar from 1st April to June and again broke out in October 1912 and then from 1st to 31st March 1913. 135 attacks with 84 deaths were reported in seven infected towns and villlages against 2,598 cases and 2,175 deaths in 94 towns and villages in 1911-12. The Alwar City remained free from plague.

68. *Bikaner.*—Plague was brought into Rajgarh which is about 160 miles east of Bikaner on the line of the Jodhpur-Bikaner Railway by a case from Sirsa in British territory.

69. The first case reported was on 9th April and the last on the 20th of the same month: during that period 18 cases and 18 deaths were reported in all.

70. *Mewar.*—Plague continued to occur in Mewar up to the 12th April 1912. Only six cases and six deaths were reported.

71. Since the 13th April 1912 Mewar has been free from the disease.

72. *Kotah.*—During April 1912 only three cases and three deaths were reported at Dharnawad village. No other villages were infected.

73. Kotah has been free from plague since May 1912.

74. *Marwar.*—Four imported cases of plague were reported in Marwar during 1912-13 of which two proved fatal.

75. A plague map showing the districts where outbreaks occurred, the date of the first and last cases and death rate per 10,000 of population according to the Census of 1911 is attached.

Snake poisoning.

76. Calmette's Anti-Venine is kept in stock for the treatment of snake-bite and Lauder Branton's Lancets fitted with Permanganate of Potash have been largely indented for.

STATEMENT F.

77. From this statement it will be seen that 2,145 Europeans and Eurasians, 1,014,833 Hindus, 393,852 Muhammadans and 90,130 others were treated in the Dispensaries of Ajmer-Merwara and of Native States of Rajputana as compared with 2,072; 957,541; 353,758; and 90,781 respectively in the previous year.

Class and sex of patients.

STATEMENT G.

78. During the year under report a total number of 72,940 operations were performed on 72,763 persons in Ajmer-Merwara and in Native States against 70,185 operations done on 69,888 persons in 1911. Of these the cures amounted to 71,691, the numbers relieved 518, discharged otherwise 190 and died 102 against 69,208, 220, 137 and 80 in 1911, while 262 remained under treatment on 31st December 1912, as compared with 243 in the previous year.

79. Of the operations performed 2,331 were extractions of the lens for cataract of which 2,209 or 94·77 per cent. proved successful, 42 Lithotomies, 146 Litholapaxies and 177 Amputations against 1,793 extraction of the lens for cataract, 50 Lithotomies, 143 Litholapaxies and 213 Amputations in 1911.

80. 357 abdominal operations were performed of which 259 were paracentesis of abdomen with 7 deaths, 10 abdominal sections with 2 deaths and 13 abscess of liver with 3 deaths.

81. There were in all 1,637 surgical operations performed in the Ajmer Victoria Hospital with 3 deaths as compared with 1,491 operations with 6 deaths in 1911 this shows a noticeable increase in the number of operations.

82. 2,104 surgical operations were done at the Mayo Hospital, Jaipur, with 13 deaths or 1·53 per cent. of all major operations.

83. The operation work was distributed as follows:—

Major J. Fisher, I.M.S.	601
Assistant Surgeon Daljang Singh Khanka . . .	704
Assistant Surgeon Panna Lal Dass	13
Assistant Surgeon Miss L. Sykes, M.D. . . .	159
Other members of the staff	627

84. It is worthy of note that the operative work during 1912 shows a satisfactory increase, notwithstanding the presence of plague in epidemic form during the greater part of the year.

85. Major Fisher, I.M.S., Residency Surgeon, Jaipur, reports that considerable success was obtained in the treatment of tuberculous glands and joints, etc., by inoculation of tuberculin. Sir Almroth Wright's bacillary emulsion was the form of tuberculin always used, a few cases of pulmonary tuberculosis were also treated with marked benefit.

86. Carbon dioxide snow was employed with good results in cases of lupus and oriental sores.

87. It was noticed that after a few inoculations patients attend Hospital eagerly and regularly.

88. The following special treatments were reported :—

89. Major C. M. Goodbody, I.M.S., Principal Medical Officer, Bikaner State :—

Salvarsan—About 12 cases of syphilis were treated with an injection of ·06 gm of salvarsan neutral emulsion into the gluteal region. In some cases the improvement was most striking and in no case was there any bad result. In one case of bad Secondary eruptions all the symptoms disappeared in 2 days and another of caries of the wrist, shoulder and scapula which had been previously scraped without benefit, healed completely after an injection of the drug.

90. Injections of Cyanide of mercury (1 in 4000) as recommended by Colonel Smith have also been used with success in many cases of Nebula, Leucoma, Paunus and chronic Conjunctivitis.

91. Emetine Hydro-chloride has been used in several cases of dysentery and has given striking results in a few instances.

92. Captain M. F. White, I.M.S., State Surgeon, Alwar, has noted the following interesting cases in his report.

Salvarsan was largely used, in all cases by intra-muscular injection into the buttock. No bad effects seen. Some cases showed quite astonishing results. Notably a case of disseminated sclerosis which came in with all the classical signs, and went out with every symptom apparently cured. Also a case of paralysis of lower limbs with complete incontinence of urine. Both symptoms were very much improved so that the man insisted on going out without further treatment.

93. Antistrepto-coccus serum—

An interesting case of severe hemicrania with pyorrhoea alveolaris (also history of syphilis) Hemicrania resisted all treatment; including salvarsan, but finally yielded to rectal injections of antistropto-coccus serum.

STATEMENTS H AND J.

Financial Statements.

94. Statement H shows the income and expenditure of the Government Dispensaries and Hospitals and the expenditure only on those in Native States.

95. The total income of hospitals and dispensaries in Ajmer-Merwara was R21,972 as compared with R19,726 in 1911, this increase is due to the fact that the annual contribution of R300 was paid by the Raja of Pisangan and arrears of contributions R650 for two years were paid by the Thakur of Deolia and subscriptions from Indians rose from R2,520, in 1911 to R4,047 in 1912. No subscription was paid by the European gentlemen during the year under report. The value of the invested capital of the dispensaries in this division remained the same as in 1911.

96. In Ajmer-Merwara the total expenditure rose from R15,927 in 1911 to R17,005 in 1912 which shows a marked increase under head "Salaries of establishment" owing to the pay of Assistant Surgeon and Sub-Asststant Surgeons having been raised during the year: but the expenditure under head "Buildings and Repairs" shows a large decrease as compared with the previous year, the figures for 1911 and 1912 being R1,305 and R1,059 respectively.

97. Native States.—The total expenditure on hospitals and dispensaries in Native States of Rajputana rose from R3,77,138 in 1911 to R4,18,116 in 1912 which is due to increase under all heads except under head "Buildings and Repairs."

98. Of the total costs on hospitals and dispensaries in these States R75,689 were expended in Jaipur, R57,264 in Marwar, R18,148 in Bharatpur, Rs. 47,532 in Mewar, R42,665 in Kotah, R37,767 in Bikaner, R30,675 in Alwar, R13,886 in Dholpur, R11,176 in Tonk, R10,321 in Jhalawar, R7,615 in Karauli, R4,337 in Banswara, R3,815, in Kishangarh, R3,752 in Sirohi, R2,800 in Jaisalmer, R2,671 in Dungarpur,

R2,469 in Bundi, R2,421 in Partabgarh, R2,393 in Shahpura and R776 in Kushalgarh.

99. The average cost of each case treated in Ajmer-Merwara and in the Native States hospitals and dispensaries was 41 pies and 58 pies against 45 pies and 55 pies respectively in 1911.

Mission Hospitals.

100. During the year under report the number of Mission Hospitals in Rajputana was 7 instead of 8 as in 1911. The Dispensary at Beawar remained open for 6 months only in 1912 during which 5,400 patients were treated.

101. The following table shows the total number of in and out-door patients treated and operations performed in these institutions in 1912:—

Name of Hospital.	Out-door patients.			In-patients.	Operations.	Remarks.
	Old cases.	New cases.	Total.			
Ajmer (Male)	68,254	16,352	84,606	1,869	54	...
Ajmer (Female)	12,139	7,186	19,325	408	357	1,292 were visited at their homes.
Nasirabad	23,548	12,188	35,736	644	398	...
Jaipur	5,550	2,945	8,495	292	26	265 were visited at their homes.
Piploda	5,666	3,227	8,893	60	0	381 were visited at their homes.
Jodhpur	82,567	10,030	92,597	1,106	105	271 were visited at their homes.
Udaipur	30,631	13,057	43,688	1,319	338	...
Total	228,355	64,985	293,340	5,698	1,278	

102. Medical statistics of these hospitals are for the Mission financial year from 1st October 1911 to 30th September 1912.

Railway Hospitals.

103. 612 in and 32,140 out-door patients were treated and 975 operations performed during the year under report in 8 Railway Dispensaries on the Bombay, Baroda and Central India Railway within the limits of Rajputana as per detail below:—

Station.	Number of patients treated.			Operations performed.	Remarks.
	In-door.	Out patients.	Total.		
Rajputana-Malwa Railway.					
Ajmer	168	10,616	10,779	288	3 were Major operations.
Phulera	124	6,506	6,630	154	...
Bandikui	156	5,479	5,635	87	...
Sojat Road	...	1,685	1,685	120	...
Abu Road	117	2,855	2,972	179	...
Nagda-Muttra Railway.					...
Kotah Junction	50	2,687	2,737	103	5 were Major operations.
Gungapur	2	2,312	2,314	44	1 was Major operation.
Total	612	32,140	32,752	975	...

104. Seven hundred and seventy-five patients were treated at their homes at Ajmer by Railway Medical men.

JAILS.

105. *Ajmer.*—The daily average number of prisoners in the Ajmer Jail fell from 319·13 in 1911 to 265·03 in 1912. The total number of admissions into Hospital and the daily average number of sick during the year under report was 275 and 11·92 against 227 and 9·17 in the previous year. The number of deaths fell from 2 in 1911 to 1 in 1912. Although the admission rate is somewhat higher the smallness of mortality is very satisfactory. One death which occured amongst the convicts was due to Tuberculosis of the lungs.

106. The Review by the Commissioner, Ajmer-Merwara on the strength, classification, health, employment and conduct of prisoners, nature of sentences, jail manufactures and expenditure of the jail is given as Appendix A of the report together with statements.

Native States.

107. *Jaipur.*—There has been slight overcrowding in the Central Jail throughout the year.

108. In both the Central and District Jails the daily average number of sick was less than in the previous year, an indication of the healthiness of the prisoners.

109. The following works were carried out at the Jaipur Jails :—

Central Jail.—Construction of a new well of 8 feet diameter.

Opening four doors in wards.

Laying water pipes for washing, waste water.

District Jail.—Iron sheet Data and wrench for tank.

110. *Jodhpur*—The mortality in this jail fell from 7 in 1911 to 2 in 1912, the one death being due to dysentery, the other to injuries.

111. *Kotah.*—The total number of cases admitted into Hospital rose from 168 in 1911 to 221 in 1912; the daily average number of sick from 8·72 to 9·80; the mortality from 8 to 18; and the death rate per mille from 22·19 to 49·21. This increase under each head is attributed to the fact that Scurvy broke out in the jail during the year. It was found that the grain supplied was very old and of bad quality. On rectifying this the disease ceased.

112. *Udaipur.*—There was a considerable increase in the total number of cases admitted into Hospital and in the daily average number of sick, due to an epidemic of mumps which continued from January to April 1912.

113. *Dungarpur.*—The additional accommodation in the Jail for under-trial prisoners is now nearly completed.

114. There was no Cholera or other epidemic disease in any of the jails in Rajputana in 1912.

115. There were no deaths in the Jails at Kishangarh, Karauli, Shahpura, Jhalrapatan, Partabgarh and Dungarpur.

Qualified Medical Staff.

116. Captain L. J. M. Deas, I.M.S., was posted, on return from furlough as Agency Surgeon, Eastern Rajputana States with effect from the 26th January 1912, *vice* Major F. A. Smith, I.M.S., transferred to Peshawar.

117. Major S. Hunt, I.M.S., on relinquishing his duties in Nepal was placed on special duty under the orders of the Hon'ble the Agent to the Governor-General in Rajputana from 1st January to 4th March 1912; and held charge of the duties of the Agency Surgeon, Harauti and Tonk from 5th to 10th March 1912.

118. Lieutenant (now Captain) D. G. Cooper, I.M.S., Medical Officer 42nd Deoli Regiment took charge of the Agency Hospital and Charitable Dispensary, Deoli with medical duties connected with the Agency in addition to

his own from 11th March 1912 from Major Hunt transferred to Nowgong in Central India, from that date.

119. Lieutenant-Colonel W. H. B. Robinson, I.M.S., Residency Surgeon and Chief Medical Officer in Rajputana held charge of the duties of the Residency Surgeon, Western Rajputana States in addition to his own up to 4th March 1912, when Major J. W. Grant, I.M.S., on return from Egypt resumed charge of the duties of the Residency Surgeon, Western Rajputana States.

120. Consequent on the abolition of the appointment of Residency Surgeon and Chief Medical Officer in Rajputana, Lieutenant-Colonel W. H. B. Robinson, I.M.S., took over charge of the duties of Civil Surgeon, Ajmer, and Medical Officer, 44th Merwara Infantry from the 29th March 1912, from Lieutenant-Colonel H. R. Woolbert, I.M.S., who went on 13 months' combined leave from that date; combined with the duties of Chief Medical Officer in Rajputana.

121. Captain M. F. White, I.M.S., took over charge of the Alwar State Medical Department on the 29th March 1912 from Major J. W. Watson, I.M.S., who was posted as Agency Surgeon, Eastern Rajputana States with effect from the 1st April 1912.

122. Lieutenant-Colonel R. C. MacWatt, I.M.S., on return from leave was appointed to officiate as an Agency Surgeon of the 1st Class and as Civil Surgeon, Ajmer and Chief Medical Officer in Rajputana with effect from the 7th November 1912, when Lieutenant-Colonel W. H. B. Robinson, I.M.S., went on combined leave to Europe for 12 months.

123. Mr. D. G. Newland, L.R.C.P. and S., Edinburgh was on plague duty at Abu Road throughout the year.

Military Assistant Surgeon.

124. Assistant Surgeon R. J. K. Stone, I.S.M.D., was in charge of the Northern India Salt Revenue Dispensary at Sambhar up to 5th December 1912, when he proceeded on 90 days' privilege leave on being relieved by Assistant Surgeon C. H. F. Quick, I.S.M.D.

Civil Assistant Surgeon.

125. Five Government Assistant Surgeons were employed in Rajputana as in the previous year.

Military Sub-Assistant Surgeon.

126. The following Regiments, Imperial Service Corps in Rajputana have Military Sub-Assistant Surgeons attached to them—

Alwar 1st Lancers 2, Bharatpur Infantry 2, Alwar Fattah Paltan 2, Jaipur Transport 1, Bharatpur Transport 2, and Bikaner Camel Corps 1.

127. In the two Jodhpur Imperial Service Regiments medical arrangements are made by the State.

128. The Mewar Imperial Service Squadron was put in medical charge of the Government Civil Sub-Assistant Surgeon attached to the Central Jail Hospital, Udaipur for such time as the Squadron is stationed in the lines near the Jail.

Civil Sub-Assistant Surgeons.

129. From the 1st April 1912, the new medical arrangement was brought into force in the Native States in Rajputana. Six Government Sub-Assistant Surgeons were transferred permanently to the service of the following Darbars with effect from the 1st June 1912 :—

Kotah	3
Jhalawar	2
Bikaner	1

and six were absorbed in the Central Provinces List from the Native States, as noted in the margin, up to the 31st December 1912, when there were 172 Government Sub-Assistant Surgeons on the rolls, against the sanctioned strength of 179, there being 7 vacancies on the Native States Reserve List. Out of 179 Sub-Assistant Surgeons, 22 were permanently employed on the Government List and 157 were working in the Native States.

Alwar	2
Sirohi	1
Kotah	1
Jaipur	1
Mewar	1

130. *Lady Doctors.*—During the year there were 5 Lady Doctors employed in the following States in Rajputana :—

Kotah	1
Jodhpur	1
Jaipur	1
Udaipur	1
Tonk	1

131. Assistant Lady Doctor Miss Gladys Pownes at Kotah resigned her appointment in June 1912.

132. *Female Sub-Assistant Surgeons.*—There were nine female Sub-Assistant Surgeons attached to the following Female Hospitals and women's wards against 11 in the previous year :—

Alwar, Lady Dufferin Hospital	2
Jodhpur, Jaswant Hospital for women	1
Jodhpur, Hewson Hospital	1
Kotah, Victoria Jubilee Hospital	1
Tonk, Walter Female Hospital	1
Bharatpur, Female Dispensary	1
Bikaner, Bhawan Dass Hospital	1
Bewar Dispensary	1

Female Hospital and Dai Class.

133. *Ajmer.*—There was no qualified Female Sub-Assistant Surgeon attached to the medical charge of the female wards of the Victoria Hospital, Ajmer, for want of funds. A Lady Doctor superintends the Mission Hospital for women where many patients are treated.

134. *Beawar.*—The work in the female wards of the Charitable Dispensary has been carried on under female Sub-Assistant Surgeon Pandita Sunder Lali throughout the year, 37 in and 9,537 out-patients were treated and 485 operations peformed in 1912. 4 cases of tedious labour were confined, 2 of which were delivered by Podalic Version, 1 by forceps and one by Cæsarian section.

135. *Native States.*—The returns received from the Female Hospitals in the Native States of Rajputana show on the whole a general increase both in-door and out-door attendance: an evidence of the increasing popularity of the instructions as regards residential attendance and out-door visits.

136. *Jodhpur.*—Miss B. Griffin, M.D., B.C.H., B.A.O. Dublin has been in charge of the Jaswant Hospital for women at Jodhpur throughout the year. There is a decrease in the in-door patients treated in the hospital due to the healthiness of the year.

137. Seventy-four operations were performed, against 92 in 1911.

138. *Udaipur.*—The post of the Lady Superintendent of the Walter Female Hospital at Udaipur was filled on the 8th December 1911, by the appointment of Lady Doctor Miss T. Canagasaby, L.R.C.P.&S. (Edinburgh) and L.F.P.S. (Glasgow), a Hindu Lady of Ceylon. 148 in and 3,039 out-door patients were treated as compared with 84 in and 2,656 in the previous year. This increase is due to the absence of plague in Udaipur City.

139. On the 22nd April 1912 Female Sub-Assistant Surgeon Shitabo Bai went on leave and on expiry of the leave resigned her appointment on account of ill health.

140. On the 14th November 1912 the Hospital was honoured by a visit from her Excellency Lady Hardinge.

141. Fifty-four operations were performed against 61 in 1911.

142. *Kotah.*—Miss J. Newton, L.R.C.P.&S. (Edinburgh) and L.F.P.S. (Glasgow) has been in charge of the Victoria Jubilee Hospital at Kotah throughout the year. There was an increase in the total out-door attendance which shows the popularity of the hospital.

143. Assistant Lady Doctor Gladys Pownes resigned her appointment in June 1912. Female Sub-Assistant Surgeon Miss Helen Buldeo Singh is popular and liked by the women of Kotah.

144. *Alwar.*—Female Sub-Assistant Surgeon Bala Bai has been in charge of the Dufferin Hospital at Alwar throughout the year. No Lady Superintendent has been appointed since April 1911. 462 in and 14,439 out-door patients were treated; against 332 in and 13,650 out-door patients in 1911. 819 operations were performed against 793 in the previous year.

145. *Tonk.*—Miss K. Reed, L.R.C.P. & S. (Edinburgh), L.F.P.S. (Glasgow), and L.M.R.C.P. and S. (Ireland), has been in charge of the Walter Zenana Hospital at Tonk throughout the year. The total number of patients treated was 240 in-door and 7,693 out-door; as compared with 208 in and 7,992 out-patients in the previous year.

146. The Lady Doctor reports that, as Purdah rules are strictly observed in the Hospital, ladies of high class including His Highness the Nawab's own sisters and daughters attend freely for treatment.

147. Jaipur.—Miss L. E. Sykes, M.D., and L.R.C.P. & S. (Edinburgh) was in charge of the Female Wards of the Mayo Hospital at Jaipur throughout the year. There was a slight increase in the number of in-door patients. Operations on women were 503, as compared with 561 in 1911. The decrease is attributable to the outbreak of plague in Jaipur City during the year. On the 20th November 1912 the Hospital was honoured by a visit from His Excellency Lord Hardinge, Viceroy and Governor-General in India.

148. The compounding, dressing and nursing in the female wards is done entirely by females.

149. *Bikaner.*—The work in the Female Wards of the Bhagwan Dass Hospital, Bikaner has been carried on under Female Sub-Assistant Surgeon Elizabeth Moji Ram throughout the year.

150. There is an increase of 1,828 in the hospital attendance as compared with the previous year.

151. A new Female Hospital is nearly completed.

152. *Bharatpur.*—Female Sub-Assistant Surgeon Bibi Rup Kuar has been in charge of the Female Hospital at Bharatpur throughout the year. 301 in and 6,280 out-door patients were treated as compared with 322 in and 7,315 out-door patients. The decrease is largely due to the absence of the Female Sub-Assistant Surgeon on three months leave during the year under report.

153. *Dai Class, Ajmer.*—Mrs. Kane, Lady Superintendent has been in charge of the Dai training class, Ajmer throughout the year. The 6 pupils mentioned in the last year's report as being under instruction continued to work to the end of the session when they were examined by the Civil Surgeon, Ajmer. They all passed and obtained their certificates, and the usual honorarium which is given to successful candidates.

154. Nine pupils were admitted to the current year's class; of whom 5 came from Udaipur, 2 from Alwar, 1 from Jhalawar, and 1 locally without a scholarship.

155. During the year 13 in-door and 43 out-door maternity cases were treated and 112 persons sought advice and treatment.

156. The Lady Superintendent reports that since the inauguration of the class altogether 47 have passed. Of these a few are known to be working in various dispensaries in Rajputana. Others are practising midwifery and doing well; of whom there are twelve in Ajmer, 3 at Kishangarh, 1 at Masuda, 4 at Jaipur, 3 at Jhalawar, 1 at Alwar, 4 at Beawar, 1 at Nasirabad, 2 at Udaipur, 1 at Mount Abu, 2 at Shahpura, 2 at Jodhpur and 3 at Sirohi. The remaining have been lost sight of.

Imperial Service Troops.

157. The hospitals of the Native States Imperial Service Troops are all well equipped. With the exception of those of the two Regiments Imperial

Service Lancers at Jodhpur they are under the medical charge of well qualified Military Sub-Assistant Surgeons. Each regiment of the latter is under the medical charge of a State enlisted Assistant Surgeon. The Mewar Imperial Service Squadron at Udaipur has been placed under the medical charge of the Civil Sub-Assistant Surgeon attached to the Jail Hospital there for the time it is stationed in the lines near the Central Jail.

158. From a Military Administrative point of view it would be of advantage if all regiments were supplied with Military Assistant Surgeons or Sub-Assistant Surgeons with a working knowledge of Military Service conditions.

159. The Sanad of Rai Bhadur was presented to Senior Grade Assistant Surgeon Daljang Singh Khanka by His Excellency Lord Hardinge on the occasion of his inspection of the Jaipur Transport Corps at Jaipur which is under his medical charge, on the 21st November 1912.

LUNATICS.

160. *Ajmer.*—There were 4 lunatics in the Central Jail, Ajmer on 1st January 1912 and 15 were admitted during the year, a total of 19 lunatics. Of these 3 were transferred to Lahore Lunatic Asylum, 10 made over to their friends and relations, 2 discharged as cured and 4 remained at the close of the year.

161. The lunatics were in most cases found wandering in the city by the Police and sent for observation, detention and treatment in the Jail.

162. *Native States.*—217 lunatics were treated in 1912; of whom 33 were cured, 8 were transferred to Lahore Lunatic Asylum and 7 to that at Agra, 49 were handed over to their friends, 17 died and 103 remained under treatment.

163. The Residency Surgeon, Mewar, writes that insanes are kept at Mohtaj Khana in Udaipur city under Police supervision. They are in no way under him.

APPENDIX A.

Review on the Ajmer Jail Report for 1912.

The charge of the office of the Superintendent, Central Jail was held by the following officers during the year under report.

Lieutenant-Colonel H. R. Woolbert, I.M.S., from the beginning of the year to the 28th March 1912; Lieutenant-Colonel W. H. B. Robinson, I.M.S., from the 29th March to 6th November 1912, and Lieutenant-Colonel R. C. MacWatt, I.M.S., for the rest of the year.

2. *Population.*—At the commencement of the year there were 292 prisoners, including convicts and under-trials. The number of prisoners admitted to the Jail during the year was 1,266 against 1,295 in 1911 of whom 662 were convicts, 592 under-trials and 12 civil prisoners. The number of prisoners discharged during the year under review from all causes as compared with the previous year is as under :—

Convicts	248
Under-trials	44
	292

—	1911.	1912.
Convicts	655	673
Under-trials	594	584
Civil	18	12
	1,267	1,269

The number of prisoners remaining at the close of the year was 289 against 292 in 1911 :—

Convicts	237
Under-trials	52
	289

The daily average number of prisoners was 265·03, *i.e.*—

Convicts	242·36	against	286·86 in 1911
Under-trials	21·49	„	30·83 „ „
Civil	1·18	„	1·44 „ „

3. The following table compares the disposal of convicts (673) during the year under review with that of the preceding year :—

Disposal of convicts.

—	1911.	1912.
Released on appeal	9	65
Released on expiry of sentences	438	458
Released on payment of fine	22	28
Released under remission rules for good conduct	63	75
Released on account of sickness	*nil*	1
Transferred to other Jails	38	49*
Died in Jail	1	1
Released in commemoration of Delhi Darbar	82	...
Transferred to Andamans	...	...
Executed	2	1
	655	673

* Of this number 10 were transferred for transportation beyond seas.

4. Excluding the 47 convicts received from other jails the remaining 615 convicts admitted in the jails are classified as follows :—

Classification of convicts.	
Hindus	421
Mahomedans	184
Eurasians	1
Native Christians	8

According to age classification 12 were under 16 years, 543 between 16 and 40, 55 between 40 and 60 and 5 above 60 years of age.

Of independent property	...
Agriculturists	162
Labourers	197
Shopkeepers and Traders	47
Domestic servants	102
Miscellaneous occupation	3
Government servants	28
No occupation	46
	585

According to sex 585 were males and 30 females. Of the 585 male convicts the majority were agriculturists, domestic servants and labourers as will be seen by the details in the margin.

5. Of the 615 convicts admitted in the Jail 97 were awarded simple imprisonment.

507 were awarded rigorous imprisonment.

6 were awarded rigorous imprisonment with solitary confinement.

5 were awarded rigorous imprisonment with whipping.

The number of convicts sentenced to various terms of imprisonment was as follows:—

	Simple imprisonment.	Rigorous imprisonment.	Rigorous imprisonment with solitary confinement.	Rigorous imprisonment with whipping.
Not exceeding one month	62	149	...	...
Above 1 but not exceeding 3 months	25	135	...	2
„ 3 ditto 6 „	3	92	1	1
„ 6 months but not exceeding 1 year	7	42	1	1
„ 1 year ditto 2 years	...	21	3	1
„ 2 years ditto 5 „	...	5	1	...
„ 5 „ ditto 10 „	...	3	...	...
Transportation beyond seas	...	6	...	...
Sentenced to death	...	4	...	...
	97	507	6	5

6. *Previous conviction.*—The number of previously convicted prisoners admitted during the year under review was 128 as compared with 164 in the previous year, their percentage to the total number of convicts admitted being 20·81.

7. *Employments of convicts.*—Excluding sick and convalescent from whom occasional labour is taken the daily average number of convicts sentenced to labour on working days was 208·95 of whom 12·00 were employed as prison officers, 28·28 as prisons servants, 8·01 on gardening, 33·54 on preparing articles for consumption in Jail, 113·66 as manufacturers. The daily average number exempted from labour was 8·02.

8. *Conduct of prisoners.*—The number of jail punishments of all kinds inflicted was 227 as compared with 169 in 1911. They are classed as below :—

By Criminal Court		1
By Jail officers.	Solitary confinement	14
	Reduced diet	5
	Corporal punishment	2
	Other punishments	205
		227

9. There was only one escape from the jail during the year under review. The prisoner escaped was recaptured and sentenced to six months rigorous imprisonment in addition to his original sentence for the offence.

10. *Health.*—The general health of the prisoners was good throughout the year. The number of admissions to the Jail Hospital was 275 against 227 in 1911. There was only one death as compared with 2 in 1911.

11. *Juvenile offenders.*—There was no juvenile prisoner in the Jail on 1st January 1912. 12 boys were admitted during the year under review. All being released no juvenile remained in the jail at the close of the year. No prison offence was recorded against them during the year.

12. *Jail manufactures.*—The profit from jail manufactures amounted to R2,993-6-6 against R487-13-1 in 1911 and the average earning per head of prisoners employed on Jail manufactures consequently rose from R3-6-11 in 1911 to R26-5-5 in 1912.

13. *Expenditure.*—The total expenditure in guarding and maintaining the prisoners including that incurred (1) by the Public Works Department on the buildings and repairs and (2) by Magistrates in guarding and maintaining under-trials, amounted to R26,063-1-9. The average cost per prisoner during the year was R79-5-1 against R98-7-1 in the preceding year.

14. The Jail was inspected once by the Hon'ble the Chief Commissioner, Ajmer-Merwara and four times by the Commissioner and Inspector-General of Jails, Ajmer-Merwara.

A. T. HOLME, *I.C.S.*,

Commissioner, Ajmer-Merwara.

GENERAL SUMMARY

Showing the Distribution of the Prisoners of all classes confined in the Ajmer Central Jail during the year 1912.

Vide Instructions issued with Jail Department Circular No. 42 of 1885.

1	2	3	4	5			6			7			8			9			10			11		
Serial No.	Station.	Place of confinement.*	Classes of prisoners.	Remained at the commencement of the year.			Received during the year.			Total.			Discharged from all causes.			Remaining at the end of the year.			Daily average number of each class.			Total daily average of whole Jail.		
				Male.	Female.	Total.	Male.	Female.	Total.	Male.	Female.	Total.	Male.	Female.	Total.	Male.	Female.	Total.	Male.	Female.	Total.	Male.	Female.	Total.

Female	2,882	7·87	4	†30	34	...	...	34	...	...	...	20	1	...	...	1	...	...	...	...	...	12
Total	88,704	242·36	248	615	863	47	...	910	39	10	65	453	28	1	...	75	...	...	...	1	1	237

* Of this number 13 boys under 16 years. † Of this number 10 girls under 15 years.

NOTE. 1.—This and the other statements numbered 1 to 7 only convicted prisoners are to be included.
2.—Debtors and others detained for default of Government revenue will appear in No. 8.
3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the year.
4.—The "Total population," column 8, is the sum of columns 6, *plus* 7, and necessarily includes many who are counted more than once.
5.—The "Daily average number," column 3, is obtained by adding together the number presentes on each day of the year, *vide* column 2, and dividing the whole by the number of days in the year.
6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 9 B; and by the Jail which receives them they should be entered in column 7B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.
It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.
7.—When the gangs are employed extra-murally under the orders of Government No. 1632—43, dated 28th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

R. CHARLES MACWATT, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER JAIL OFFICE:
The 6th March 1913.

STATEMENT No. II.—*Statement showing the religion, age, and previous occupation of the Convicts in the Jail at Ajmer for the year 1912.*

1	2							3				4												5		
	RELIGION.							AGE.				PREVIOUS OCCUPATION.												TOTAL.		
												Male.									Female.

Female	...	...	1	4	25	...	...	...	25	5	...															
TOTAL	...	1	8	184	422	...	...	12	543	65	5	...	162	197	47	...	102	3	28	46	17	...	11	2	585	30	615

NOTE.—It is of importance that the particulars given in this, and also in No. 3, should not include the same individual more than once, and hence all transfers should be omitted.
The Totals should correspond with the number in column 5, Statement I; "Imprisoned during the year." But they should do so with the "Total" Column 6, for January only, as the number remaining on the last day of the previous year (31st December) is to be included in that month.

STATEMENT No. III.—*Statement showing the convicts admitted into the Jail at Ajmer during the year 1912 and those remaining on the 31st December of that year, according to the nature and length of sentence.*

The Female column should be filled in italics.

Female . . .	7·87	...	...	...	...	
TOTAL	242·36	12·00(*c*)	4·95	12(*a*)	9(*b*)	

(*a*) The nature of the offices held by convicts should be given in column of remarks.

(*b*) Detail of the nature of punishments ordered should be given as directed in paragraph 19 of the Government Review on the Jail Reports for 1884.

(*c*) Column 3 should tally with column 7B of Return No. XII. Column 5 should show the total number of convicts employed as Warders, etc., and not merely the total sanctioned number of situations.

(*b*) Warning 1
Forfeiture of remission . 2
Standing handcuffs . . 3
Solitary cell 1
Fetters „ 1
Reduction from grade . . 1
9

STATEMENT No. IX.—*Statement showing the Scales of Diet in force in the Ajmer Central Jail during the year 1912.*

1	2	3	4
Diet scales of Labouring Prisoners.	Diet scale of non-labouring prisoners.	Punishment diet scale.	Note of any change effected in diet scales during the year.
Atta of Gram 1/3, „ Barley 2/3, „ Wheat 1/3 } 12 Chittaks daily. Dâl alternately . . 2 Chittaks. Vegetables alternately 8 „ Oil with vegetables 4/25 „ Salt „ „ 1/4 „ „ „ Dâl . . 1/6 „ Chillies with vegetables 2 M. Dâl 1 „ Fuel 5 Chittaks.	Atta 8 Chittaks on Sundays and Mondays and 10 Chittaks on other days. Other articles are same as for labouring prisoners.	Labouring prisoners 8 Chittaks atta, with the usual quantity of salt; the period of this diet is ninety-six consecutive hours.	Prisoners on Mills are given 14 Chittaks of atta instead of 12 Chittaks, *vide* paragraph 7 of letter No. $\frac{1}{2}\frac{2}{4}\frac{8}{8}$ II, dated 26th July 1899, from the First Assistant to the Honourable the Agent to the Governor-General for Rajputana.

NOTE.—A complete statement of all the Diet Scales in use for labouring prisoners according to length of sentence should be given in column 1, with details as to the articles used, and the variations in different days of the week.

R. CHARLES MACWATT, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER JAIL OFFICE:
The 6th March 1913.

STATEMENT No. X (FINANCIAL).—*Showing the expenditure in guarding and maintaining the prisoners in the Central Jail at Ajmer during the year 1912, excluding the cost of building new Jails, of Additions, Alterations, or Repairs.*

1	2	3				4		5		6		7			8		9		10	11	12
		Average number of Prisoners.				Rations.		Establishment.		Merwara Battalion.		Hospital charges.			Clothing.		Contingencies.				
Serial No.	Name of Jail.	Convicts.	Under-trial.	Civil.	Total.	Total cost.	Cost per head of average strength exluding civil prisoners.	Total cost.	Cost per head of average strength.	Total cost.	Cost per head of average strength.	Total cost.	Cost per head of average strength.	Cost per head of average number of sick.	Total cost.	Cost per head of average strength.	Total cost.	Cost per head of average strength.	Grand Total expended.	Cost per head of average strength.	Serial number.
1	Central Jail, Ajmer Add cost for Magistrate's Lockup	242·36 ...	21·49 ...	1·18 ...	265·03 ...	R 7,845 ...	R a. p. 27 13 5 ...	R 9,626 ...	R a. p. 36 5 2 ...	R	R a. p.	R 694 ...	R a. p. 2 9 11 ...	R a. p. 58 3 7 ...	R 1,160 ...	R a. p. 4 6 4 ...	R 2,196 ...	R a. p. 8 4 7 ...	R 21,021 1,493	R a. p. 79 5 1 ...	1 ...
	GRAND TOTAL	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	22,514	...	...

When prisoners of different classes are confined in the same Jail, the expenditure on establishment and other items with which all are concerned should be divided over all. The cost per head under any item of expenditure is to be calculated on prisoners actually concerned in it or contributing to it, and not otherwise. Hospital charges (col. 7) should include rations and also the cost of medicines supplied from the Bazar and the Medical Store Depôt. In this series (Financial) annas and pies are only to be shown where there are columns for them.

* This includes R199 on account of travelling allowance.

STATEMENT No. XII.—*Showing the employment of convicts in the Jail at Ajmer during the year 1912.*

1	2	3	4	5	6	7												8	9		
						A	B	AVERAGE NUMBER EMPLOYED ON WORKING DAYS										Average number of convicts hired out to Municipalities, private individuals, or Departments other than the Public Works Department.	Ratio per cent. of column 3 of those employed on working days as—
